Is this project associated with a [LAND DEVELOPMENT REVIEW](#)?

REASON FOR EASEMENT RELINQUISHMENT:

Describe why you are requesting this relinquishment and why the easement(s) are no longer needed.

The Property Owner is in the process of developing the Project and is working with the City and County of Denver (the "City") in connection therewith. As part of such development plan, the Property Owner is required to dedicate certain land to the City. In anticipation thereof, the Property Owner recorded the attached Deeds of Dedication granting the City certain easements; however, these Deeds of Dedication were recorded prematurely without the proper approval by the City. In order to develop the Property and properly dedicate this land to the City, the Denver Transportation & Infrastructure Department has required that the attached Deeds of Dedication be released from the Property. Upon such release, the land area covered by the easements will be dedicated in fee to the City as approved by the Denver Transportation & Infrastructure Department.

Describe the status of the Easement(s):

In the space below, describe each easement status. Include why the easement was originally granted and any additional relevant information

The easements granted by the attached Deeds of Dedication are not currently in use by the City of Denver (the "City"). As noted herein, the Property Owner is required to dedicate certain land to the City in accordance with the Property's Land Development Review; the attached Deeds of Dedication were prematurely granted and recorded in an attempt to satisfy this requirement, but as shown in the Deeds of Dedication, the City never officially accepted such easements. Upon the release of the Deeds of Dedication, the Property Owner will convey such easement areas to the City in fee in accordance with and as approved by the Denver Transportation & Infrastructure Department.

Are there utilities are in the Easement(s)? Yes ☒ No ☐

If yes, list each utility and identify utility owner, utility type, and size (e.g. CCD 8-inch Sanitary Sewer); whether it will be removed, relocated, or abandoned in-place; and, expected schedule.

(1) A water line, owned by Denver Water, crosses the easement area; the pipe size of this water line is not disclosed in public records. This water line previously serviced buildings on the Property which have since been removed. The Property Owner believes that this water line has been cut, capped and abandoned.
 (2) A 3-inch poly pipe gas line, owned by Xcel Energy, crosses the easement area. This gas line previously serviced buildings on the Property which have since been removed; further, this gas line is currently shown as a retired service line in public records. Accordingly, the Property Owner believes that this gas line has been capped, cut and abandoned.
 (3) An overhead power line, owned by Xcel Energy, crosses the easement area. This overhead power line provides certain power services to the Property and accordingly, will not be abandoned upon the Property Owner's conveyance of the easement area in fee to the City.
