RE: Application, Request to Rezone 3100 Blake St. from I-MX-3, UO-2, DO-7 to C-MX-5, DO-7 Application # 2022I-00247

Dear Community Planning & Development:

This firm represents Blake and 31st LLC, the property owner, and the corresponding property, 3100 Blake St., regarding the attached application for a zoning map amendment (“rezoning”). Based on the criteria for review in the Denver Zoning Code, we recommend that staff recommend approval to Planning Board and City Council for Application #2022I-00247.

Request for Rezoning

Address: 3100 Blake St, Denver, CO 80205.

Neighborhood/Council District: Five Points / Council District 9.

RNOs: Denver North Business Association, Inter-Neighborhood Cooperation (INC), Opportunity Corridor Coalition of United Residents, Reclaim the Eastside, RiNo Art District, Strong Denver, The Heart of Five Points, United Community Action Network (UCAN), United Northeast Denver Residents.

Area of Property: 12,495 square feet or 0.29 acres.

Current Zoning: I-MX-3, UO-2, DO-7.

Proposed Zoning: C-MX-5, DO-7.

Property Owner(s): Blake and 31st LLC.

Summary of Rezoning Request

- The subject property contains an existing single-story commercial/industrial structure built in 1934. It is located within the Five Points statistical neighborhood at the northeast corner of Blake St. and 31st St.

- The C-MX-5 zone district stands for Urban Center, Mixed Use, with a maximum height of 5 stories. The C-MX zone districts are mixed-use zone districts that allow a wide range of residential and commercial uses with minimum build-to and increased transparency requirements intended to promote active pedestrian areas on public streets. The C-MX5 zone district allows up to 5 stories and 70 feet in building height. Further details of the requested zone district can be found in the proposed zone district section of the staff report below and in Article 7 of the Denver Zoning Code (DZC)
- The River North Design Overlay (DO-7), which currently applies to the property and will be maintained, is intended to promote high-quality design, a human scale that promotes vibrant pedestrian-oriented streets, and multi-modal transportation options. These design standards mandate a higher design quality and street level activation than the C-MX-5 (proposed) or I-MX-3 (current) base zone districts. Further details of the DO-7 can be found in Section 9.4.5 of the Denver Zoning Code (DZC).
- The applicant's request includes abandoning the existing Billboard Use Overlay, UO-2, on the property. There are no billboards currently on the subject site. Further details of the Billboard Use Overlay can be found in Section 9.4.4 of the Denver Zoning Code (DZC).

Proposed Zoning

The requested C-MX-5 zone district has a maximum height of 70 feet with allowable encroachments. A variety of mixed residential and commercial uses are allowed. For additional details regarding building form standards in the C-MX-5 zone district, see DZC Section 7.3.3.4.

The existing DO-7 design overlay, which provides enhanced design standards, is proposed to be maintained. The intent of the design overlay is to "Maintain human scale and access to daylight...; Promote vibrant pedestrian street frontages with active uses and street-fronting building entries; Provide transitions between residential frontages and mixed-use streets; Ensure that buildings are designed to adapt to new uses as the district changes and evolves" (DZC Section 9.4.5.11.B).

The primary building forms allowed in the existing zone district and the proposed zone district is summarized below:

Design Standards	I-MX-3	C-MX-5

Exhibit B

Description of Consistency with Adopted City Plans/General Review Criteria (DZC 12.4.10.7.)

The criteria for review of this rezoning application are found in DZC Section 12.4.10.7 and 12.4.10.8:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans
2. Uniformity of District Regulations and Restrictions
3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8 4

4. Justifying Circumstances
5. Consistency with Neighborhood Context Description, Zone District Purpose, and Intent Statements.

1. Consistency with Adopted Plans

The following adopted plans currently apply to this property:

- Denver Comprehensive Plan 2040 (2019)
- Blueprint Denver (2019)
- 38th & Blake Station Area Plan (2009)
- Northeast Downtown Neighborhoods Plan (2011)

Denver Comprehensive Plan 2040

The proposed rezoning is consistent with many of the adopted Denver Comprehensive Plan 2040 strategies, which are organized by vision element.

The proposed rezoning would allow for an additional housing unit within an established neighborhood, consistent with the following strategies in the Equitable, Affordable, and Inclusive vision element:

- Equitable, Affordable and Inclusive Goal 2, Strategy A - Create a greater mix of housing options in every neighborhood for all individuals and families (p. 28).
- Equitable, Affordable and Inclusive Goal 1, Strategy A - Increase development of housing units close to transit and mixed-use developments (p. 28).
- Equitable, Affordable and Inclusive Goal 3, Strategy B - Use land use regulations to enable and encourage the private development of affordable, missing middle and mixed-income housing, especially where close to transit (p. 28).

The proposed rezoning would enable mixed-use infill development at a location where services, infrastructure, and transit options are already in place. The proposed C-MX-5 zoning designation would allow for a broader variety of uses including housing and retail services, and will require enhanced building forms through the DO-7 overlay at an intensity consistent with the desire for urban, walkable, mixed-use neighborhoods

around transit, and is therefore consistent with the following strategies in the Strong and Authentic Neighborhoods vision element:

- Strong and Authentic Neighborhoods Goal 1, Strategy B - Ensure neighborhoods offer a mix of housing types and services for a diverse population (p. 34).
- Strong and Authentic Neighborhoods Goal 1, Strategy D - Encourage quality infill development that is consistent with the surrounding neighborhoods and offers opportunities for increased amenities (p. 34).
- Strong and Authentic Neighborhoods Goal 2, Strategy D - Use urban design to contribute to economic viability, public health, safety, environmental well-being, neighborhood culture and quality of life (p. 34).

The proposed rezoning is also consistent with the following strategies in the Environmentally Resilient vision element:

- Environmentally Resilient Goal 8, Strategy A - Promote infill development where infrastructure and services are already in place (p. 54).
- Environmentally Resilient Goal 8, Strategy B - Encourage mixed-use communities where residents can live, work, and play in their own neighborhoods (p. 54).
- Environmentally Resilient Goal 8, Strategy C - Focus growth by transit stations and along high and medium-capacity transit corridors (p. 54).

The requested map amendment will enable mixed-use development at an infill location where infrastructure is already in place. The requested zone district broadens the variety of uses allowing residents to live, work and play in the area; therefore, the rezoning is consistent with Denver Comprehensive Plan 2040 recommendations.

Blueprint Denver (2019)

Blueprint Denver was adopted in 2019 as a supplement to Comprehensive Plan 2040 and establishes an integrated framework for the city's land use and transportation decisions. Blueprint Denver identifies the subject property as part of a High Medium Residential future place type within the Urban Center Context and provides guidance from the future growth strategy for the city.

Blueprint Denver Future Neighborhood Context

In Blueprint Denver, future neighborhood contexts are used to help understand differences in land use and built form and mobility options at a higher scale, between neighborhoods. The subject property is within the Urban Center context which is "intended to promote safe, active, and pedestrian-scaled diverse areas through the use of building forms that clearly activate the public street edge". The proposed C-MX-5 zone district is a mixed-use zone district. "Mixed-Use districts are focused on creating mixed, diverse neighborhoods" (DZC 7.2.2.1). Since the proposed district allows a mix

of uses and allowable building forms that contribute to street activation, the proposed rezoning is appropriate and consistent with the plan.

Blueprint Denver Future Places

The Future Places map shows the subject property as part of a “High-Medium” residential area. Blueprint Denver describes these areas as having “a mix of uses, including multi-unit residential, but at a slightly lower intensity compared to the high residential areas” (p. 260). In a High-Medium residential area in the Urban Center neighborhood context, recommended “heights are generally up to 8 stories. There is high lot coverage and shallow setbacks” (p. 260).

The proposed rezoning to C-MX-5 is appropriate and consistent with the “High-Medium Residential Area” plan direction and will foster a better mix of uses and more appropriate intensity than the current zoning allows. Blueprint Denver specifies that the maximum recommended heights are intended to provide a general scale and that factors such as “Surrounding context, including existing and planned building height” (pg. 66) should be considered for any particular site. Given the Blueprint Denver height guidance of up to 8 stories and the existing built environment in the immediate area and the adjacent zone districts, the proposed 5-story district is consistent with plan guidance and appropriate for this location.

Blueprint Street Types

Blueprint Denver classifies Blake St. as a Mixed-Use Arterial. These streets service a “varied mix of uses including retail, office, residential, and restaurants. Buildings are pedestrian-oriented, typically multi-story, usually with high building coverage with a shallow front setback” (p. 159). Arterial streets are designed for the highest degree of through movement. The proposed C-MX-5 zone district allows a broad range of residential and commercial land uses with a shallow front setback and allows the intense land uses anticipated for this street type. Therefore, the district is consistent with the downtown arterial street types at this location.

31st Street is mapped as a local or undesignated street. According to the plan, this street type supports “primarily residential uses, but may also include schools, civic uses, parks, small retail nodes and other similar uses. Buildings usually have a modest setback, and the depth of the setback varies by neighborhood context” (p. 160). The proposed C-MX-5 zone district would allow a mix of residential and commercial uses at an intensity and orientation consistent with this street type classification.

Blueprint Growth Strategy

Blueprint Denver's growth strategy map is a version of the future places map, showing the aspiration for distributing future growth in Denver (p. 51). The subject property is located within the "High and high medium residential areas in Downtown and Urban Center Contexts" growth area. These areas are anticipated to see around 15% of new housing growth and 5% of new employment growth by 2040 (p. 51). The proposed map amendment to C-MX-5 is consistent with the growth area in that it will allow a broad range of job opportunities and housing types and direct more intense and appropriate growth to this area than the existing zoning allows.

Additional Applicable Strategies

The proposed rezoning is also consistent with the following strategies from Blueprint Denver:

- Land Use and Built Form - General Policy 1 - Promote and anticipate planned growth in major centers and corridors and key residential areas connected by rail service and transit priority streets (p. 72).
- Land Use and Built Form - General Policy 2 - Incentivize or require efficient development of land, especially in transit-rich areas (p. 72). The proposed map amendment is consistent with these strategies as growth will be directed to an area with rail transit service.

38th and Blake Station Area Plan (2009)

This station area plan was adopted by City Council in 2009 and applies to the subject property. Plan goals relevant to the proposed rezoning include "Utilize the station investment to strengthen existing diverse neighborhoods and create a new center for the community."

The property is in a Mixed-Use Residential area, which "includes higher density residential including but not limited to garden apartments, tuck under townhouses, or multi-family buildings. Active ground floors should include residential amenities, leasing lobbies, workout facilities, parking entrances and convenience retail at strategic locations that reinforce the overall connectivity and access plans for the station. The building heights within the Mixed-use Residential category vary: up to 5 stories southeast of the railroad tracks in Upper Larimer and in Cole (where it drops to 3 stories east of Franklin and east of the new Marion Street), 2-8 stories surrounding the Mixed-Use TOD node at 36th & Brighton, and up to 8 stories southwest of 35th Street along Brighton (taller buildings could be developed southwest of 35th with additional requirements such as stepbacks and open space)" (pp. 48-49). The proposed C-MX-5 zone district allows all uses contemplated in the plan's Mixed-Use Residential areas.

Northeast Downtown Neighborhoods Plan (2011)

This neighborhood plan was adopted by City Council in 2011 and applies to the subject property. Guiding principles of the plan include the following: enhance multimodal connectivity; complete and enhance the public realm; enhance and support existing retail corridors; create a development-friendly atmosphere; protect neighborhood fabric; create appropriate transitions between neighborhoods; increase open space access; fill gaps in neighborhood services; capitalize on transit; and promote diversity.

The plan Land Use Concept guiding the area including the property in question is Mixed-Use / Industrial, which is like “mixed Use, but with recognition that light industrial uses, such as light manufacturing and smaller warehouses are compatible with urban residential housing types. These areas have both a sizable employment base as well as a variety of mid-to-high density housing options. Land Uses can be, but are not necessarily, mixed in each building, development, or block. Pedestrian access is of important within the area, with residential and non-residential uses always within walking distance of one another.”

Height guidance for this area of the plan is up to 5 stories. Therefore, the proposed C-MX-5 zone district is consistent with the recommended land uses and building form plan guidance.

2. Uniformity of District Regulations and Restrictions

The proposed rezoning to C-MX-5 will result in the uniform application of zone district building form, use and design regulations.

3. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare through implementation of the city’s adopted land use plans. The proposed rezoning would also facilitate increased housing density near services and amenities and promote a walkable, urban neighborhood within walking distance to public transit.

Exhibit C:

Additional Criteria/Description of Justifying Circumstances and Neighborhood Context (DZC 12.4.10.8.)

4. Justifying Circumstances

Changed or changing conditions in the area and city adopted plans serve as the Justifying Circumstances under DZC Section 12.4.10.8.A.4, “Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such a change may include: “Changed or changing conditions in a particular area, or in the city generally; or a city adopted plan....” Since the approval of the existing I-MX-3 zone district, the City has adopted the Comprehensive Plan 2040 and Blueprint Denver. As stated throughout this application, the proposed rezoning meets the intent of these plans and is in the public interest; therefore, this is an appropriate justifying circumstance for the proposed rezoning.

5. Consistency with Neighborhood Context Description, Zone District Purpose, and Intent Statements

As described in the Denver Zoning Code, the General Character of the Urban Center (C-) district will include “multi-unit residential and mixed-use commercial strips and commercial centers.” It is also described as follows: “multi-unit residential uses are typically in multi-story mixed use building forms. Commercial buildings are typically Shopfront and General forms. Multi-unit residential uses are primarily located along residential collector, mixed-use arterial, and local streets. Commercial uses are primarily located along main and mixed-use arterial streets.” The proposed C-MX-5 zone district is an appropriate district for this neighborhood context and within the height guidance.

The general purpose of MX zone districts is to promote safe, active, and pedestrian-scaled, diverse areas using building forms that clearly define and activate the public street edge. Given the existing land use pattern, the current zoning, and the aspirational future character of this location, the C-MX purpose is appropriate for this location.

According to the zone district intent stated in the Denver Zoning Code, the C-MX-5 district applies to areas or intersections served primarily by collector or arterial streets where a building scale of 1 to 8 stories is desired (DZC Section 7.2.2.2.B). The site is served by a mixed-use arterial street. Thus, the street classifications and desired building heights in this area are consistent with the zone district purpose and intent statements.

Community Support and Outreach

Prior to submitting this application, we discussed the intent of the rezoning with Council District 9 (Ashlee' Wedgeworth). We have also reached out to At-Large councilpersons without formal responses. In addition, we have reached out and/or communicated with Denver North Business Association, Inter-Neighborhood Cooperation (INC), Opportunity Corridor Coalition of United Residents, Reclaim the Eastside, RiNo Art District, Strong Denver, The Heart of Five Points, United Community Action Network (UCAN), United Northeast Denver Residents. While none of these RNO's expressed an interest in meeting, despite email follow-ups, the Denver North Business Association explicitly acknowledged that they did wish to meet on this topic.

ARTICLE II DETERMINATION OF AND MEETINGS OF MEMBERS

2.1 **Determination of Members.** The management may fix in advance a record date for the purpose of determining members entitled to notice of and to vote at a meeting or in order to make a determination of members for any other purpose; however, such date must be not less than one nor more than sixty days prior to the date on which the action requiring the determination of members is to be taken. If no record date is fixed for the purpose of determining members (a) entitled to notice of and to vote at a meeting, the close of business on the day before notice of the meeting is mailed, or if notice is waived, the close of business on the day before the meeting, shall be the record date for such purpose, or (b) for any other purpose or action, the close of business on the date on which the management adopts the resolution relating to such purpose or action shall be the record date. The Company, its members, management and agents shall be entitled to recognize and treat a person registered as the holder of Units on the Company's records as the holder of Units in fact for all purposes, and as the person exclusively entitled to have and to exercise all rights and privileges incident to ownership of such Units, and rights under this Section shall not be affected by any actual or constructive notice which the Company, its members, management or agents may have to the contrary.

2.2 *Place of Meetings.* All meetings of members shall be held at the principal place of business of the Company or at such other place within or outside of the State of Colorado as shall be specified in the notices or waivers of notice thereof.

2.3 *Annual Meetings.* An annual meeting of the members shall be held at a time, place and date determined by management. 2.6 *Agenda and Conduct of Meetings.* The business to be conducted at a members' meeting shall be limited to the purpose or purposes stated in the notice of the meeting, provided that other matters may be considered if all members entitled to vote their Units are present or represented at the meeting and consent thereto. The member who is a natural person and who holds the most Units of all members who are natural persons shall preside as the chairperson of any meetings of members, and shall have the authority to make all decisions regarding the conduct of the meeting. A duly organized meeting may be adjourned only from business day to business day.

2.7 *Quorum.* The presence, in person or by proxy, of those members who are natural persons and who hold a majority of the outstanding Units entitled to be voted shall constitute a quorum at all meetings of members. If a quorum is present or represented at a duly organized meeting, such meeting may continue to do business until adjournment, notwithstanding the withdrawal of members or the refusal of any member present to vote. If a meeting cannot be organized because a quorum is not present, members present may adjourn the meeting without notice other than announcement at the meeting, but only from business day to business day.

2.8 *Proxies.* A member may vote either in person or by proxy executed in writing by the member. No proxy shall be valid after 11 months from the date of its execution unless otherwise provided in the proxy. A proxy shall be revocable unless the proxy form conspicuously states that the proxy is irrevocable and the proxy is coupled with an interest.

Only those members who are natural persons shall be entitled to vote their Units on any matter as to which action of members is taken.
