Blueprint Denver 2019

Urban Edge

- Small multi-unit residential and mixed-use areas are typically embedded in 1-unit and 2-unit residential areas.
- Block patterns are generally regular with a mix of alley access.
- Contains elements of the urban and suburban contexts.

Blueprint Denver 2019

Low Residential

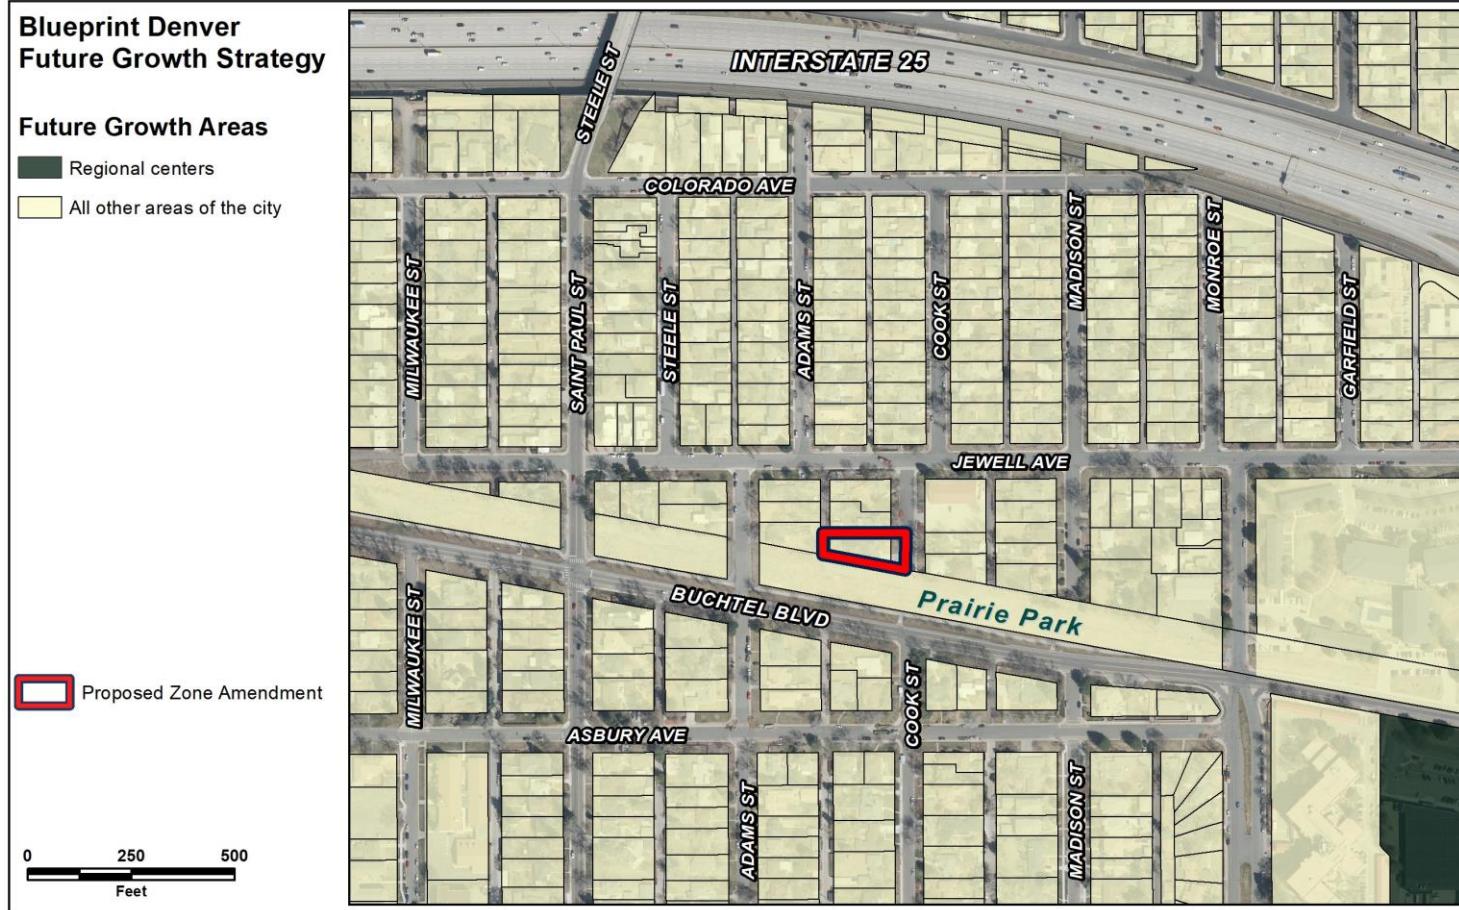

Predominantly single- and two-unit uses
Accessory dwelling units are appropriate

Future Street Type

Cook St.: Local

Evaluation is based on the proposed zone district is consistent with the Future Street Classification, not to assess the traffic impacts of a specific development proposal.

Blueprint Denver 2019

- All other areas of the city
 - 10% jobs by 2040
 - 20% housing by 2040
- Most growth is guided to regional centers, community centers and corridors, select districts and high and medium-high intensity residential areas. Other areas of the city are still expected to see some growth, however more limited.

Blueprint Denver 2019

Land Use & Built Form, Housing Policy 4: Diversify housing choice through the expansion of accessory dwelling units throughout all residential areas.

Strategy E: A citywide approach to enable ADUs is preferred. Until a holistic approach is in place, individual rezoning to enable ADUs in all residential areas, especially where proximate to transit, are appropriate. Unless there is a neighborhood plan supporting ADUs, rezonings should be small in area in order to minimize impact to the surrounding residential area.

Small Area Plan

University Park Neighborhood Plan

Concept Area: Single Family Residential
“Redevelopment should encourage revitalization and reinvestment that is aligned with market demand and smart growth best practices in a manner that sensitively integrates new development with stable single-family context.”

Consistency with Neighborhood Context, Purpose and Intent

Urban Edge Neighborhood Context primarily consists of single-unit and two-unit residential uses

Residential Districts are intended to

- Promote and protect residential neighborhoods within the character of the Urban Edge Neighborhood context
- The building form standards, design standards, and uses work together to promote desirable residential areas

E-SU-D1 is a single-unit district allowing urban houses and detached accessory dwelling units with a minimum zone lot area of 6,000 square feet. Setbacks and lot coverage standards accommodate front and side yards similar to E-SU-D and allow a detached accessory dwelling unit in the rear yard.
