

Vacation Submittal Checklist

Any submittal not meeting all minimum checklist criteria herein shall be rejected as incomplete.

Street and Alley Vacation submittal documents will include the following:

- Application (Page 3-4 of this document) - Must be signed by owner, or a vested party
- A Legal Description and Exhibits of the proposed vacation, prepared by a Professional Land Surveyor, licensed in the State of Colorado:
 - PDF format (**must be PLS signed and stamped**) **and**
 - Word format (Does not need to be PLS signed and stamped)
- Site Plan - accurately engineered drawings to include:
 - Numerical and Bar Scale (Scale not to exceed 1:40)
 - North arrow
 - Legend
 - Vicinity map, if necessary
 - Plan set date and revision number (if applicable)
 - Call out the location of area to be vacated and hatch the area
 - Call out the location of any existent easements, and if a new easement will be held/conveyed (if applicable)
 - Property lines
 - Right-of-Way width
 - Edge of Pavement and/or Curb and Gutter
 - Sidewalks
 - Trees and landscaping in the ROW
 - Nearby driveways and alleys
 - Street names
 - Aerial imagery is allowed, but does not replace the required Engineered drawings

FEES:

Must be paid immediately after project is logged in and a project number is provided by your Coordinator along with the project invoice.

Initial Processing Fee = \$1,000.00 (Non-Refundable)

Legal Description Review Fee = \$300.00 (Non-Refundable)

Ordinance Fee = \$300.00 (Non-Refundable)

I hereby attest that all above information has been incorporated into our plan submittal.

Date

APPLICATION

STREET and ALLEY VACATION

Please complete this application to apply for a Vacation Request. Vacations can only be applied for, when the area in question is within the Public Right-of-Way within the City and County of Denver. Please reference Street and Alley Vacation Entrance Requirements for more detail on the vacation process. Please enter information and fully answer any of the following sections. Submit the complete application electronically to: DOTI.ER@denvergov.org.

DATE: 12/24/2021

PROJECT NAME: Galilee Church Redevelopment

IS THIS PROJECT ASSOCIATED WITH A SITE DEVELOPMENT REVIEW? Yes No

If you checked 'Yes' above, provide Project Master, Site Plan and/or Concept Development Project Numbers:
2021PM0000360 , _____ , _____

ADDRESS (approx.) OF VACATION: 1091 S. Parker Road

APPLICANT:

Name: Robert Palmer
Company (if applicable): Strategic Land Solutions, Inc. Title: President
Address: 2595 Ponderosa Road Franktown, CO 80116
Telephone number: 720-384-7661 Email address: rpalmer@strategicls.net

PROPERTY OWNER (where the vacation is located): Check if the same as Applicant

Company: GBC Acquisition LLC
Owner Contact: Mike Gerber
Address: 1936 W. 33rd Avenue Denver, CO 80211
Telephone Number: 303-892-6600 Email address: mgerber@mglpartners.com

EXPLANATION of REQUEST

Explanation of why the Requestor wants the right-of-way (ROW) vacated:

As part of the redevelopment of the existing Galilee Church the site will be raised and rebuilt with an apartment development. The development will include 3-apartment buildings, drives, parking, landscaping, storm water treatment, and residence amenities. Relocating the existing access to S. Parker Road to the northeasterly portion of the site is being requested the CDOT and the City and County of Denver DOTI. Based on our coordination with DOTI staff, it has been determined that rather than have part of the new access right-of-way and part a public access easement, the best solution is to vacate the Rosemary Way right-of-way, and dedicate a new public access, utility, and drainage easement over the entire access drive. The easement will maintain public access as provided by Rosemary Way, but will add a sidewalk and landscaping to the access.

APPLICATION
Street and Alley Vacation

Explanation of the current use of the ROW to be vacated:

Rosemary Way currently provides access to a residential development located within Arapahoe County. As part of the vacation a public access easement will be granted along the existing Rosemary right-of-way to the new access point to S. Parker Road. The proposed access will provide a safer connection to S. Parker Road by moving the access point further away from the existing intersection of S. Parker Road and E. Mississippi Avenue, providing proper distance for vehicles to approach S. Parker road a 90-degrees at 2% slope. The current access to parker road slopes at approximately 12%, and does not allow vehicles to turn onto S. Parker Road at a safe angle.

EXISTING UTILITIES:

If there are utilities, explain whether or not such utilities will be relocated or remain in the vacated ROW.

(Utilities in the proposed vacation area will need to be relocated at the owner's expense. If relocation is not feasible, a standard hard surface easement may be required. The City will reserve this easement for all remaining easements within the vacated area, in the Vacation Ordinance. The Requestor shall acknowledge the need and acceptance of such utility easements.)

The Rosemary Way right-of-way contains electrical lines, gas mains, and a water main. As part of the vacation a public utility easement will be dedicated over the vacated area of Rosemary right-of-way, including the existing easements. However, the property owners acknowledges that as this project moves though the design process the existing utility lines my need to be relocated and or upsized at the property owners expense.

I/WE HEREBY CERTIFY THAT I/WE ARE THE OWNER(S) OF THE REAL PROPERTY WHICH IS THE SUBJECT OF THIS APPLICATION AND THAT THE FOREGOING INFORMATION ON THIS APPLICATION IS TRUE AND COMPLETE.

(Owner/Vested Party Signature)

Comments:

Does not affect CDOT on-system ROW. Proposed effort is approved as the location does not affect CDOT ROW. The vacation is of South Rosemary Way (50' wide ROW; depicted as Edith Lane on the Second Addition To Hughes Mountain View No. S-115 in Arapahoe County Clerk and Recorder). The northerly line of said South Rosemary Way is by and along the southerly ROW line of highway 83 (South Parker Road) and does not affect CDOT ROW. The determination is based on CDOT project US_0083(24); dated in 1976.

Comments:

It is hard to depict the full extent of the area to be vacated on the site plan. Provide a surveyed drawing of the proposed vacation and clearly show boundaries on site plan. Show the boundaries of the High Line Canal and the Denver Water-City/County of Denver Easement at reception #2021009709 on site plan. If you are relocating waterlines, you need to submit a water plan to Denver Water for review. If a utility easement is reserved, a hard surface shall be maintained by the property owner over the entire easement area. No trees, fences, retaining walls, landscaping or structures shall be allowed over, upon or under the easement area. Any such obstruction may be removed by the City or the utility provider at the property owner's expense. The property owner shall not re-grade or alter the ground cover in the easement area without permission. The property owner shall be liable for all damages to such utilities, including their repair and replacement, at the property owner's sole expense.

Comments:

Please be aware Public Service Company of Colorado owns and operates existing overhead electric distribution facilities located within the alley proposed to be vacated; therefore, we are able to give conditional approval, PROVIDED, HOWEVER, said vacation shall be subject to the following reservations:

A perpetual, non-exclusive easement is hereby reserved by the City and County of Denver, its successors and assigns, over, under, across, along, and through the vacated area for the purposes of constructing, operating, maintaining, repairing, upgrading and replacing public or private utilities including storm drainage and sanitary sewer facilities and all appurtenances to said utilities. A hard surface shall be maintained by the property owner over the entire easement area. The City reserves the right to authorize the use of the reserved easement by all utility providers with existing facilities in the easement area. No trees, fences, retaining walls, landscaping or structures shall be allowed over, upon or under the easement area. Any such obstruction may be removed by the City or the utility provider at the property owner's expense. The property owner shall not re-grade or alter the ground cover in the easement area without permission from the City and County of Denver. The property owner shall be liable for all damages to such utilities, including their repair and replacement, at the property owner's sole expense. The City and County of Denver, its successors, assigns, licensees, permittees and other authorized users shall not be liable for any damage to property owner's property due to use of this reserved easement.

The property owner/developer/contractor must complete the application process for relocation and/or removal of the existing facilities via xcelenergy.com/InstallAndConnect.

**Right-of-Way (ROW) Vacation Application
Review of Public Comments Received after Public Notification**

Project Number: 2022-VACA-0000005

Location of Proposed Vacation Area: 1091 South Parker Road

Number of Respondents: 7

DOTI ROWS Engineering and Regulatory has reviewed comments received from the public notification period and the findings are as follows. Copies of comments received are attached for reference.

1. Respondent: Bob Perchonok

Summarized Comment(s): Concerned the proposed ROW Vacation would cause the permanent closure of access to South Parker Road and impacts to emergency vehicle access into the neighborhood.

ER Findings: The proposed design meets the minimum criteria for the City and County of Denver Transportation Standards & Details. The project is relocating the South Parker Road connection to just north of current location and will not permanently close access to South Parker Road. Additionally, the review of this application was coordinated with Denver Fire Department and South Metro Fire Rescue, and they did not object to the proposed ROW vacation as impactful to their operations. Any temporary closures and detours due to construction will be permitted separately with City agencies and will include coordination with emergency service providers. The applicant responded directly to Bob Perchonok to address questions and concerns. Therefore, ER considers the comments resolved by the applicant and there is not sufficient technical justification to deny submitting the proposed application to Council approval process.

2. Respondent: Chuck Thomas

Summarized Comment(s): Concerned the proposed ROW Vacation would cause the permanent closure of access to South Parker Road, additional volume of traffic, road maintenance issues, and impacts to emergency vehicle access into the neighborhood.

ER Findings: The proposed design meets the minimum criteria for the City and County of Denver Transportation Standards & Details. The project is relocating the South Parker Road connection to just north of the current location and will not permanently close access to South Parker Road. Additionally, the review of this application was coordinated with Denver Fire Department and South Metro Fire Rescue, and they did not object to the proposed ROW vacation as impactful to their operations. Any temporary closures and detours due to construction will be permitted separately with City agencies and will include coordinated with emergency service providers. The applicant responded directly to Chuck Thomas to address questions and concerns. Therefore, ER considers the comments resolved by the applicant and there is not sufficient technical justification to deny submitting the proposed application to Council approval process.

3. **Respondent: Lynn Sauve**

Summarized Comment(s): Concerned the proposed ROW Vacation would cause the permanent closure of access to South Parker Road and impacts to emergency vehicle access into the neighborhood.

ER Findings: The proposed design meets the minimum criteria for the City and County of Denver Transportation Standards & Details. The project is relocating the South Parker Road connection to just north of current location and will not permanently close access to South Parker Road. Additionally, the review of this application was coordinated with Denver Fire Department and South Metro Fire Rescue, and they did not object to the proposed ROW vacation as impactful to their operations. Any temporary closures and detours due to construction will be permitted separately with City agencies and will include coordination with emergency service providers. The applicant responded directly to Lynn Sauve to address questions and concerns. Therefore, ER considers the comments resolved by the applicant and there is not sufficient technical justification to deny submitting the proposed application to Council approval process.

4. **Respondent: Noelle Dorward**

Summarized Comment(s): Concerned the proposed ROW Vacation would limit access that bicyclists use through the neighborhood.

ER Findings: The proposed design meets the minimum criteria for the City and County of Denver Transportation Standards & Details. The project will not reduce bicycle access through the neighborhood. The applicant responded directly to Noelle Dorward to address questions and concerns. Therefore, ER considers the comments resolved by the applicant and there is not sufficient technical justification to deny submitting the proposed application to Council approval process.

5. **Respondent: Rich Conroy**

Summarized Comment(s): Concerned the proposed ROW Vacation would cause the permanent closure of access to South Parker Road and impacts to emergency vehicle access into the neighborhood.

ER Findings: The proposed design meets the minimum criteria for the City and County of Denver Transportation Standards & Details. The project is relocating the South Parker Road connection to just north of current location and will not permanently close access to South Parker Road. Additionally, the review of this application was coordinated with Denver Fire Department and South Metro Fire Rescue, and they did not object to the proposed ROW vacation as impactful to their operations. Any temporary closures and detours due to construction will be permitted separately with City agencies and will include coordination with emergency service providers. The applicant responded directly to Rich Conroy to address questions and concerns. Therefore, ER considers the comments resolved by the applicant and there is not sufficient technical justification to deny submitting the proposed application to Council approval process.

6. **Respondent: Sandy Buckstein**

Summarized Comment(s): Concerned the proposed ROW Vacation would cause the permanent closure of access to South Parker Road and impacts to emergency vehicle access into the neighborhood.

ER Findings: The proposed design meets the minimum criteria for the City and County of Denver Transportation Standards & Details. The project is relocating the South Parker Road connection to just north of current location and will not permanently close access to South Parker Road. Additionally, the review of this application was coordinated with Denver Fire Department and South Metro Fire Rescue, and they did not object to the proposed ROW vacation as impactful to their operations. RE: Comment Response (Neighborhood Posting Comment Responses)

Dear Ms. Eusebio:

Thank you for forwarding the neighborhood comments received as part of our site posting for the Rosemary Way right-of-way vacation. I have reviewed the comments, and responded to the senders with additional information, and again with a follow up email seeking to alleviate any technical concerns they have. The following paragraphs illustrate our response to each individual comment, and their response, if one was received.

I explained to each sender using text and a graphic, that the proposed right-of-way vacation will include a permanent public access easement guaranteeing their access to S. Parker Road. I explained that the proposed improvements will add sidewalk to both sides of the paved access, and that the connection to S. Parker Road is designed to align cars at 90-degrees to S. Parker Road. Furthermore, the access to S. Parker Road is designed at two-percent slope per City and County of Denver transportation standards. The current access to S. Parker Road is a U-Turn into traffic at an approximate slope of 10-percent, making it difficult for drivers to safely enter S. Parker Road. Furthermore, the current access point is close to the signal at Mississippi, and S. Parker Road vehicle stacking often blocks the Rosemary Way access during peak hours. I informed the neighbors that our team has worked closely with DOTI Transportation staff and CDOT to design the connection to S. Parker Road to current design standards, move the access further from the traffic signal at Mississippi, and that the proposed changes improve vehicle, pedestrian, and bicycle access to S. Parker Road. Furthermore, I explained that the southerly access to Quebec Way will remain open during construction, and that any temporary closures to S. Parker Road during construction will be coordinated with neighbors and emergency service providers.

Mr. Bob Perchonok was unclear if the closure was permanent or temporary. He was concerned that a permanent closure would limit access for the neighbors and for emergency vehicles. I corresponded with Mr. Perchonok on November 10, 2022, and again on November 15, 2022, to discuss his concerns. I have included an email from Mr. Perchonok stating that his concerns are satisfied.

Mr. Chuck Thomas was concerned that the closure was permanent. He was concerned that a permanent closure would limit access for the neighbors and for emergency vehicles. I corresponded with Mr. Thomas on November 10, 2022, and again on November 15, 2022, to

discuss his concerns. I explained that the access to S. Parker Road is not being permanently removed, and that his access will be enhanced with the proposed improvements.

Mr. and Mrs. Eli and Ruzanna Levy were concerned that the closure was permanent. They were concerned that a permanent closure would limit access for the neighbors and emergency vehicles. I explained that the access to S. Parker Road is not being permanently removed, and that their access will be enhanced with the proposed improvements. I corresponded with Eli on November 10, 2022, and again on November 15, 2022, to discuss their concerns. I have included an email from the Levy family stating that their concerns are satisfied.

Lynn Sauve was unclear if the closure was permanent or temporary. Lynn was concerned that a permanent closure would limit access for the neighbors and for emergency vehicles. Lynn was also concerned about closure of the access during construction. I corresponded with Lynn on November 10, 2022, and again on November 15, 2022, to discuss his concerns. I explained that access to S. Parker Road will be enhanced with this project. I also explained that while closures of the access to S. Parker Road will occur during construction, the access will not be closed during the entire construction period, and that access closures would be coordinated with Denver Fire and S. Metro Fire, and the neighborhood. I have included an email from Lynn stating that his concerns are satisfied.

Noelle Dorward was unclear if the closure was permanent or temporary. Her primary concern was that a permanent closure would limit bicycle access through the neighborhood. I corresponded with Noelle on November 10, 2022, and again on November 15, 2022, and explained that bicycle access will be enhanced with this project. I have included an email from Noelle stating that her concerns are satisfied.

Rich Conroy (on behalf of S. Metro Fire) was unclear if the closure was permanent or temporary. His primary concern was emergency access to the site. We held a Zoom meeting with Chip at S. Metro Fire to explain the access is permanent, access will be enhanced enhanced, and that any temporary closures would be coordinated with emergency service providers. I have included an email from Rick stating S. Metro's concerns are satisfied.

Sandy Buckstein is concerned about neighborhood and emergency access during construction. Mr. Buckstein is the neighborhood HOA president, and he has been involved with project coordination from the onset. Sandy was part of the good neighbor agreement the project owner has signed with the adjacent neighbors. In addition to the email correspondences I had with Mr. Buckstein November 10, 2022, and again on November 15, 2022, the design and ownership team held a video (Team's) meeting with Sandy to discuss his concerns. Sandy requested that we provide continuous access to S. Parker Road throughout the construction process. We explained that there would be short periods of closure for the replacement of the existing 6-inch water main with an 8-inch water main, and during grading, pavement, and electrical underground construction. We committed to notifying neighbors in advance of access closures and committed to coordinating street access closures with emergency providers. Mr. Buckstein again asked that we provide an alternate route through the construction site during these operations to provide continuous access to S. Parker Road. Our team explained that it would be unsafe to route neighbors through an active construction site.

Ms. Jessica Eusebio

Strategic Land Solutions, Inc.

Civil Engineering • Land Planning • Entitlements

As described in this letter there are no technical issues with vacation of the Rosemary right-of-way. The proposed project will enhance pedestrian, bicycle, and vehicular access to S. Parker Road. While there will be temporary inconveniences to neighbors typical with most construction projects, the permanent access to S. Parker Road will be safer because of the proposed improvements.

Please feel free to call me if you have any questions during your plan review.

Sincerely,

STRATEGIC LAND SOLUTIONS, INC.

Robert,

Thanks for the the clarification. Do you have an estimate for when these access changes will likely be implemented?

Regards,
Bob

On Nov 15, 2022, at 3:56 PM, Robert Palmer <rpalmer@strategics.net> wrote:

Bob, thanks for responding. I have attached an exhibit that shows the proposed access and existing access more clearly. I apologize that our last exhibit was not clear. The residences in your neighborhood will maintain permanent two-way access to Parker Road with the proposed changes to Rosemary Way. The access shown on the attached exhibit will be dedicated at the same time as Rosemary Way, so access to your neighborhood will not be interrupted. The improvements include a new paved roadway and sidewalks on both sides of the road. The new road is designed to afford better access to Parker Road by creating enough room for cars to turn perpendicular to Parker Road before entering traffic lanes, and car will enter flat rather than the current steep slope.

Thanks.

Robert,

Thanks for sending the public access information planned for the Galilee Church Site. Can you please clarify how the location of the access from the church parking lot to Parker road shown in this map compares to its current location. It is encouraging to see the note that explicitly states that one of two access points from Parker or South Québec will always be open and that both will be open except for short periods.

Regards,
Bob

Bob, I am writing in response to your concerns with the Rosemary Way vacation (2022-VACA-0000005). As part of the Rosemary Way right-of-way vacation, a new public access and utility easement will be dedicated maintaining the neighborhood access directly to S Parker Road / Leetsdale. The public access and utility easement will be reserved with the same ordinance that vacates the Rosemary Way right-of-way ensuring continued access for the neighborhood.

The owner has coordinated permanent access with South Metro Fire to ensure emergency and firefighting access to the neighborhood. Furthermore, the permanent access has been reviewed by Arapahoe County and the City and County of Denver. I have included a .PDF with this email illustrating the permanent access proposed with this development.

Please feel free to reach out to me directly if you have any questions about the permanent or temporary access to the neighborhood.

Sincerely,
Robert J. Palmer, PE

Noelle, we are not modifying the access from the undercrossing to Rosemary Drive, and the access from the underpass to Mississippi Drive will remain. We are vacating the section of Rosemary Way west of Mississippi Drive, but we are dedicating a public access easement along the entire front of Parker Road. Therefore, your access to S. Parker Road, Mississippi Drive, and the existing neighborhood will not be restricted with this project. Furthermore, we are adding sidewalk along Mississippi Drive and S. Parker Road.

Thanks.

Subject: RE: Rosemary Way Vacation Concerns

Hi Robert,

Thank you very much for reaching out. SMFR is comfortable with where this project stands in reference to emergency access based on the additional information we have received via email correspondence and virtual meetings. Now that we have established contact, we will plan to reach out to the development team directly if any new concerns develop. Please let me know if I may be of further assistance!

Thanks,

SOUTH METRO FIRE RESCUE
Fire Marshal's Office

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Rich, I am writing in response to your concerns with the Rosemary Way vacation (2022-VACA-0000005). As part of the Rosemary Way right-of-way vacation, a new public access and utility easement will be dedicated maintaining the neighborhood access directly to S Parker Road / Leetsdale. The public access and utility easement will be reserved with the same ordinance that vacates the Rosemary Way right-of-way ensuring continued access for the neighborhood.

The owner has coordinated permanent access with South Metro Fire to ensure emergency and firefighting access to the neighborhood (We held a Team's meeting with Chip). Furthermore, the permanent access has been reviewed by Arapahoe County and the City and County of Denver. I have included a .PDF with this email illustrating the permanent access proposed with this development.

Please feel free to reach out to me directly if you have any questions about the permanent or temporary access to the neighborhood.

Sincerely,
Robert J. Palmer, PE

Hi Robert,

Do you have the Exhibit yet. I'd like to see how it looks with everything showing.

This all sounds good as long as everything is in place to guarantee that the Public (existing residents, emergency equipment, fire, police, delivery, trash etc.) will always have perfectly clear access between the subdivision to the Public lands around us.

It has come to my attention that we also need the following. (I wouldn't be surprised if this is already part of your normal plan.):

- **Advance notice must be given to all residents of the Hughes Mountain View Subdivision and all traffic-notification providers (Waze, Google, Uber, Lyft, South Metro Fire, Denver Police and Arapahoe County Sheriff, CDOT, [KOA, 9News, The Denver Post ??] etc.)** of any roadway work where the traffic pattern that now exists will be disrupted. This notice shall be enough to give those who will be affected, the current road conditions.
 - Worst-case scenario: An ambulance or Fire Engine coming to the subdivision attempts to use a Parker Road entrance that is closed. The time needed to go around and use Quebec Way to get in causes a delay with tragic results.
- **Updatable signage**, notifying all of the current status of the road construction, shall be posted at all points (entryways, intersections, etc.) affected by the road work. This signage must be sufficient to assure that emergency vehicles will not be delayed.

Thanks for keeping me up to speed on this 😊

Sandy, the S. Parker Road access easement as shown in the exhibit I send will be recorded concurrently with the Rosemary vacation. I spoke with Mike Gerber regarding access to Quebec Street, and Mike plans to record a public access easement over the existing pavement leading to Quebec Street. Mike's original attorney, Lori Duwve, who's been in this deal has retired, so he is getting her replacement up to speed. It is Thanksgiving, so it's taking a bit longer, but Mike is working on it.

Thanks.

Hi Robert,

I think we still need to get-together and make sure all the docs are available, approved and in place when they're needed so you can get the job done. As far as I know the easements/agreements for the new entry and the actual "Plan B" plan for handling the diverted traffic during construction, haven't reached my desk yet.

Mike agreed to do this so let's try to do it quickly. I'd like to get past this fast, if it actually is possible.

On Tuesday, November 15, 2022, 11:08 AM, Robert Palmer <rpalmer@strategicls.net> wrote:

Thank you for your response. I have attached an exhibit that shows the access more clearly. I apologize that our last exhibit was not clear. The residences in your neighborhood will maintain permanent two-way access to Parker Road with the proposed changes to Rosemary Way. The access shown on the attached exhibit will be dedicated at the same time as Rosemary Way, so access to your neighborhood will not be interrupted. The improvements include a new paved roadway and sidewalks on both sides of the road. Furthermore, the new road is designed to afford better access to Parker Road by creating enough room for cars to turn perpendicular to Parker Road before entering traffic lanes.

The current access location is being moved to the far west side of the site at the request of the Colorado Department of Transportation (CDOT), and the City and County of Denver to create separation between the access and the signal light at Parker Road and Mississippi. Relocating the access point west also allows for a flat entrance onto Parker Road instead of the steep entrance slope that currently exists.

I am happy to set up an online meeting if you want to discuss the access in more detail.

Thanks.
