Consistency with Adopted Plans: Blueprint Denver

Land Use and Built Form – Housing Policy 4: Diversity housing choice through the expansion of accessory dwelling units throughout all residential areas.

Strategy E: A citywide approach to enable ADUs is preferred. Until a holistic approach is in place, individual rezoning to enable ADUs in all residential areas, especially where proximate to transit, are appropriate. Unless there is a neighborhood plan supporting ADUs, rezonings should be small in area in order to minimize impact to the surrounding residential area.

Consistency with Adopted Plans: Sunnyside

The Sunnyside Neighborhood Plan was initially adopted in 1992, re-adopted in 2000, and re-published in 2002. The plan is silent on Accessory Dwelling Units and contains only a single Housing-related goal:

“Stabilize and upgrade the housing stock by encouraging long term residency and increasing home-ownership.”
