EXECUTIVE SUMMARY

(Clearesult Consulting, Inc.)

(Description of what the contractor does and purpose of new contract or amendment)

Clearesult Consulting, Inc. (Contractor) helps utilities, businesses and individuals make the wise use of energy a way of life. They provide energy efficiency consulting services nationally. They recently bought out Populus LLC, the existing central administrator for the Denver Energy Challenge's call center and energy advising service. No staffing changes were made and services have continued uninterrupted.

The Denver Energy Challenge helps residents save money on their utility bills and make their homes more comfortable and environmentally friendly. To date, the program has saved residents \$1.1M on their utility bills annually and avoided 6,920 tons of CO₂e, helping Denver reach its climate and energy 2020 goals. The program provides a personal energy advisor to identify ways to make a home more efficient and low-interest loans that can cover any type of efficiency upgrade and even solar.

The amendment is to extend the program from March 2015 to October 2016. The DOE grant that funds this program has been extended to allow Denver to continue running its successful energy efficiency financing program for residents and businesses.
