4. Justifying Circumstances
5. Consistency with Neighborhood Context, Zone District Purpose and Intent

# Blueprint Denver

- **Suburban**
  - Range of uses from single-unit and multi-unit residential to commercial corridors and centers. Block patterns are generally irregular with curvilinear streets. Alleys are not commonly found. Buildings are typically set back from the street and range in scale.

# Blueprint Denver 2019

- **Residential Low**
  - Predominantly one-and two-unit, though many areas are mostly one-unit. **Includes Accessory Dwelling Units.** In some contexts, some higher-intensity residential uses may be mixed throughout. Neighborhood-serving retail may be found in some key locations. Buildings are predominantly low-scale houses and duplexes. Setbacks and lot coverage vary across neighborhood contexts.

E proposed zone district is consistent with the Future Street Classification, not to assess the traffic impacts of a specific development proposal.

# Blueprint Denver 2019

- Growth Areas Strategy
  - *Located in All Other Areas of the City, which expects to see 10% growth of new jobs and 20% growth of new housing.*
- Most growth is guided to regional centers, community centers and corridors, select districts and high and medium-high intensity residential areas. Other areas of the city are still expected to see some growth, however more limited.

# Blueprint Denver

Policy 4, Strategy E – Diversify housing choice through the expansion of accessory dwelling units throughout all residential areas.
