2.3.1.3 Design Standards

The Design Standards Division establishes the intent of all applicable design standards, allowed building forms by Zone District, building form standards and any exceptions or alternatives. A summary table provides an overview for easy reference. Each building form has a set of illustrations and a table of standards to ensure clarity in interpretation.

2.3.1.4 Uses and Required Minimum Parking

Uses and Parking provides a listing of all allowed uses by Zone District. With each use category, the vehicle and bike parking requirements are listed.

SECTION 2.3.2 ARTICLE 8: DOWNTOWN NEIGHBORHOOD CONTEXT

The Downtown Neighborhood Context is organized differently than Articles 3 through 7 due to the unique nature of the downtown Zone Districts. This Article contains all the Zone Districts within the city's downtown area and applicable regulations. The Downtown Neighborhood Context has a different Zone District naming convention. The first letter is "D" to denote the Downtown Neighborhood Context. The second letters are abbreviations for the specific neighborhood within Downtown. For example: D-AS is Downtown Arapahoe Square. After providing the zoning regulations for each Downtown Zone District, there are Sections on design standards and the uses and minimum parking requirements.

SECTION 2.3.3 ARTICLE 9: SPECIAL CONTEXTS AND DISTRICTS

Article 9 contains regulations for Special Contexts and Districts. Special Contexts and Districts are those that need to be treated differently due to specialized uses, forms, regulations and/or procedures. Special Contexts and Districts have a different Zone District naming convention described within each Division. The first letters indicate the type of context or district with subsequent lettering or numbering when there is variation.

- 2.3.3.1 Industrial Context (I-MX, -A, -B): The Industrial Context establishes Zone Districts that allow varying intensities and types of industrial forms and uses.
- 2.3.3.2 Campus Context (CMP-H, -H2, -EI, -EI2, -ENT, ~~-NWC~~): The Campus Context establishes Zone Districts for larger scale sites offering healthcare, education/institution, ~~and~~ entertainment, ~~and the National Western Center~~.
- 2.3.3.3 Open Space Context (OS-A, -B, -C): The Open Space Context establishes Zone Districts for various types of park, recreational and open space land.
- 2.3.3.4 Overlay Districts (CO, UO, DO, AIO): Overlay Districts are Zone Districts that apply in addition to the base Zone District. There are Conservation Overlay Districts, Use Overlay Districts, Design Overlay Districts and the Airport Influence Overlay District.
- 2.3.3.5 Denver International Airport District: This district applies to the Denver International Airport.
- 2.3.3.6 O-1 Zone District: O-1 is a Zone District that applies to various recreation, institutional, and utilities.
- 2.3.3.7 Planned Unit Development District: The Planned Unit Development District is a unique Zone District that provides form, use, parking and other standards tailored to a particular site.
- 2.3.3.8 Master Planned Context: The Master Planned Context is intended for larger scale sites that will develop over a long period of time and in multiple phases. Within the Master Planned Context there is a menu of residential and mixed use Zone Districts.

SECTION 2.3.4 ARTICLES 10 THROUGH 13: GENERAL STANDARDS AND PROCEDURES

Articles 10 through 13 contain regulations that apply throughout the city and are not unique to a Neighborhood Context or Special Context. They are organized together so that common regulations are found in the same place such as use limitations, procedures, definitions and rules of measurement.

SECTION 9.2.2 DISTRICTS ESTABLISHED

To carry out the provisions of this Code, the following Zone Districts have been established in the Campus Context and are applied to property as set forth on the Official Map.

CAMPUS CONTEXT	
CMP-H	Campus - Healthcare
CMP-H2	Campus - Healthcare 2
CMP-EI	Campus - Education Institution
CMP-EI2	Campus - Education Institution 2
CMP-ENT	Campus - Entertainment
<u>CMP-NWC</u>	<u>Campus - National Western Center</u>

SECTION 9.2.3 CAMPUS HEALTHCARE AND HEALTHCARE 2 (CMP-H, H2)

9.2.3.1 Intent

These districts are intended to promote and encourage the maintenance and concentration of existing and proposed healthcare facilities and their related uses. Buildings should be designed to orient outward to the surrounding area to encourage public safety.

The CMP-H district is intended to include the principal structures and related facilities of each healthcare institution. The district is established to allow for flexible placement of buildings, and unified treatment of signs, open space, landscaping and other site elements while providing compatible transitions between the campus and adjacent neighborhoods.

The CMP-H2 district is generally adjacent to a single unit, two unit, or row house residential Zone District to act as a transition zone by requiring more open space and limiting building height more than in the CMP-H zone. In all other respects, the CMP-H2 is similar to the CMP-H district. Any CMP-H2 District shall be incorporated into the Zone Lot plan for the adjacent CMP-H District.

9.2.3.2 Design Standards

A. Applicability

All development in the CMP-H, -H2 Zone Districts.

B. General Standards

1. Campus Design Standards

Campus design review processes and standards (such as those outlined in campus master plans, design guidelines, or neighborhood plans) that address campus building height transitions, architectural elements, parking plans, and vehicular and pedestrian access shall be applied during Site Plan Review when available.

2. Zone Lot

The Zoning Administrator shall designate the campus zone lot boundaries including one or more primary streets, alleys, and rights-of-way. Designation of the zone lot boundaries shall be consistent with the zone lot standards stated in Section 13.1.5.2, Determination of Primary Street Zone Lot Line, Side Street Zone Lot Line, Side Interior Zone Lot Line, and Rear Zone Lot Line for All Zone Districts EXCEPT CC, MX, and MS, and Division

SECTION 9.2.6 CAMPUS - NATIONAL WESTERN CENTER (CMP-NWC)

9.2.6.1 **Intent**

The Campus-National Western Center (CMP-NWC) Zone District is intended to facilitate the creation of a year-round destination that brings together cultural, educational, research, entertainment, food, agricultural, human and animal health, recreational, competition, commerce, industry, history, science, and art activities. The zone district is intended to encourage development of a unified campus that includes structures and facilities that accommodate a vibrant and pedestrian-friendly mix of agricultural activities, cultural, research and educational uses, entertainment venues, civic, public and institutional, residential and commercial uses.

This district is specifically intended to implement the land use and development objectives in the National Western Center Master Plan, as amended from time to time. The building form standards for this district are intended to allow the flexible placement of multiple building types within the boundaries of the campus while providing compatible height transitions to adjacent communities. This district also is intended to accommodate the unified treatment of master planned campus elements, internal pedestrian walkways and connections, indoor and outdoor recreational facilities, open plazas and green spaces, signage, and site landscaping while implementing the community and neighborhood integration guiding principles identified in the National Western Center Master Plan, as amended from time to time.

9.2.6.2 **Design Standards**

A. **Applicability**

All development in the CMP-NWC Zone District.

B. **General Standards**

1. **Campus Design Standards**

Campus design review processes and standards (such as those outlined in City administered urban design standards and guidelines) that address campus building height transitions, architectural elements, parking plans, site landscaping and open spaces, and vehicular and pedestrian access shall be applied during Site Development Plan Review.

2. **Zone Lot**

Upon application by the owner or owners of the zone lot, the Zoning Administrator may designate the campus zone lot boundaries, which may include one or more primary streets, alleys, and rights-of-way. Designation of the zone lot boundaries shall be consistent with the zone lot standards stated in Section 13.1.5.2, Determination of Primary Street Zone Lot Line, Side Street Zone Lot Line, Side Interior Zone Lot Line, and Rear Zone Lot Line for All Zone Districts EXCEPT CC, MX, MS, and C-CCN and Division 1.2, Zone Lots. The area within a designated zone lot within the CMP-NWC Zone District shall include one or more primary uses, in addition to all expected accessory uses, including auxiliary office, residential, service and other campus support uses.

3. **Reference to Article 10 Design Standards**

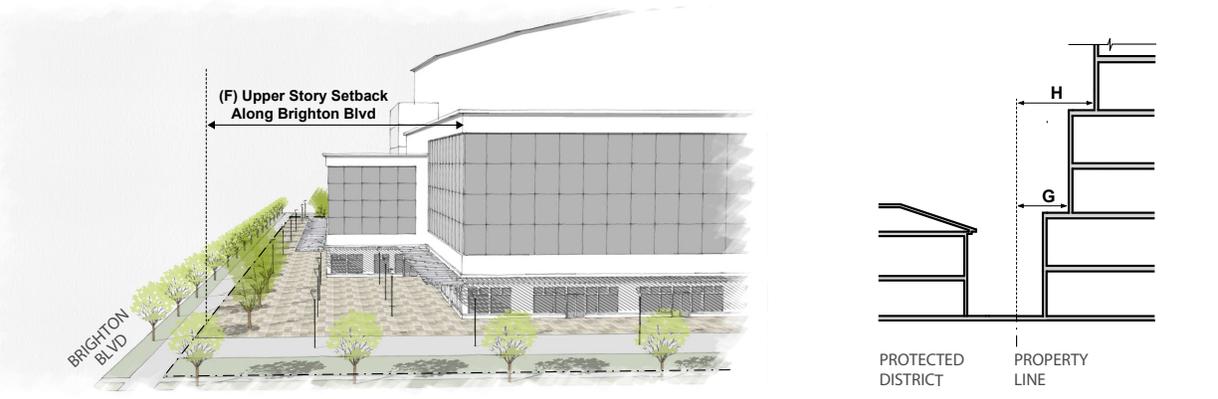

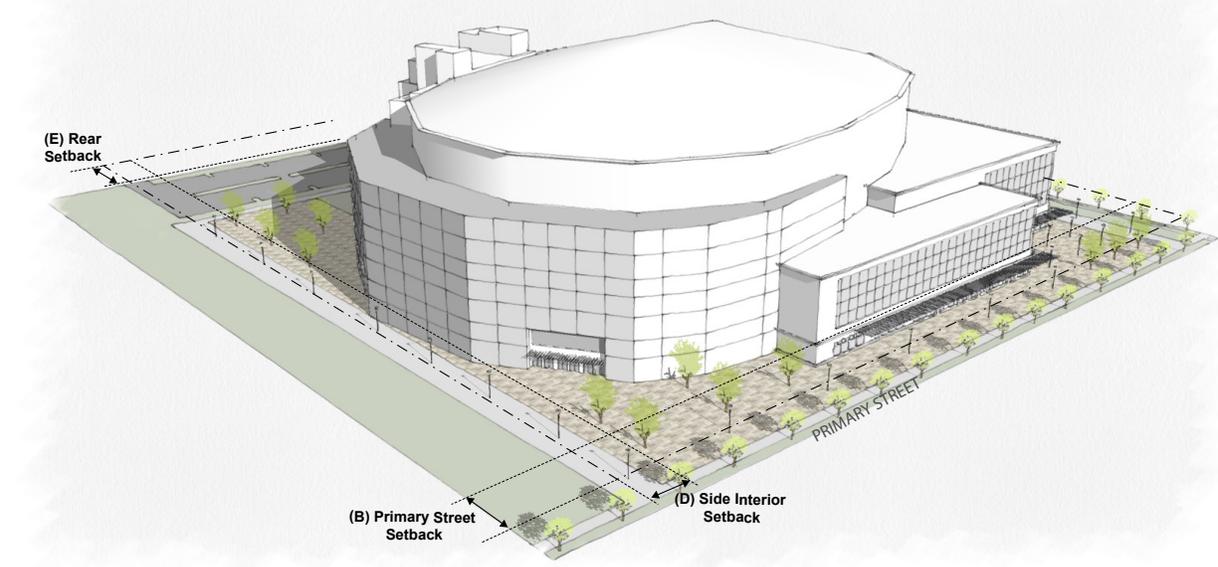

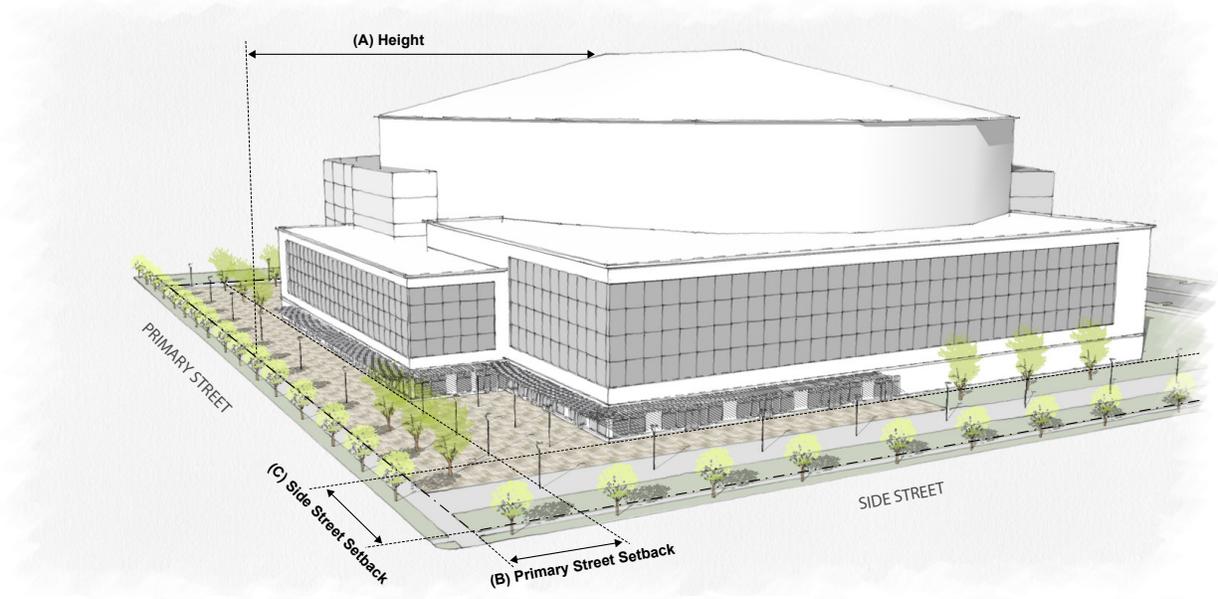

Refer to the following Divisions for other applicable design standards

- a. Parking and Loading: Division 10.4
- b. Landscaping, Fences, Walls and Screening: Division 10.5
- c. Site Grading: Division 10.6
