5. General description or background of proposed request. Attach executive summary if more space needed:

The Department of Public Health & Environment (DDPHE) would like to contract with Clean Harbors Environmental for disposal of certain wastes that cannot be disposed of at the Denver Arapahoe Disposal Site. These wastes include Resource Conservation and Recovery Act (RCRA) hazardous soil, RCRA liquids and sludges and naturally occurring radioactive materials (NORM)/technologically enhanced radioactive materials (TENORM). Denver currently disposes of these materials at Clean Harbors Environmental using contractors. The arrangement generally includes a contractor’s markup that adds to the cost of disposal. By contracting directly with Clean Harbors DDPHE will obtain cost savings for disposal.
