II. BACKGROUND AND PURPOSE

- a. In 1996, Congress explicitly envisioned the Temporary Assistance for Needy Families (TANF) program as a critical support for families to gain the needed skills and knowledge to care for children in their own home and to promote job preparation and access to work. TANF is also often the only source of financial support for families and can be a portal to other critical safety net programs, including Supplemental Security Income (SSI), the Supplemental Nutrition Assistance Program (SNAP) (previously known as food stamps), Child Care Assistance Program (CCAP), and Medicaid. States can use TANF creatively and provide supports and services directly responsive to the needs of underserved families.

In response to this need and with the flexibility afforded under the TANF legislation, the City is seeking to improve adult and child outcomes for the most vulnerable families entrusted in our care. The goal of the Colorado Works (CW)/TANF Program in Denver is to promote the long-term economic well-being of our community, through preparation for and attachment to employment for those who are able to work. The City's CW/TANF Program is designed to engage individual participants with the services, opportunities, resources, and tools needed to successfully move toward stability and self-sufficiency. Denver Human Services (DHS) facilitates robust community gains by partnering with

local businesses, educational institutions, and other service providers in the area, and advocating for participants as a vital part of the DHS support network. For those who are not readily able to work, Denver's CW/TANF program offers supports and services intended to increase employability and promote family safety and stability.

Science tells us that it is never too late to help adults build up their core capabilities, and that we can have a life-long impact if adults support the development of these skills in childhood. When adults have opportunities to build the core skills that are needed to be productive participants in the workforce and to provide stable, responsive environments for the children in their care, our economy will be stronger, and the next generation of citizens, workers, and parents will thrive. We also know that programs that provide support and "bridging" by crossing barriers of race, gender, socioeconomic status as well as "bonding" by tying participants and staff into a supportive community has positive long-term impact. The City realizes the importance of these services and supports and is seeking them for those most in need in our community, including the link to social capital and its effectiveness in supporting low-income persons through the transition to employment.

- b. DHS is responsible for administering eligibility for CW/TANF pursuant to Colorado Revised Statutes (CRS) at section 24-4-103 (11) CRS, and Colorado Code of Regulations (CCR), 9-CCR-2503-6. DHS and contractor shall share responsibility for workforce case management and/or supplemental services, depending on participants' circumstances.
- c. Colorado Women's Employment and Education, Incorporated d/b/a Center for Work Education and Employment (CWEE) is identified as a subrecipient for the purposes of this agreement and is therefore subject to all terms, conditions and regulatory requirements required of federal funding subrecipients per 2 CFR Part 200, as well as specific rules and regulations for CW/TANF.
