SERVICE PLAN FOR

FIRST CREEK VILLAGE METROPOLITAN DISTRICT

I. INTRODUCTION

This Service Plan for First Creek Village Metropolitan District (the “**District**”) in the City and County of Denver (“**City**”), State of Colorado (“**State**”), is submitted by Oakwood Homes LLC (“**Organizer**”), pursuant to the requirement of the Special District Act, § 32-1-101, *et seq.*, C.R.S. (2015) (“**Special District Act**”), and more particularly section 32-1-204.5. B&R Properties, LLC, is the owner of all of the property within the Initial Project Area (defined below) and consents to the submittal of this Service Plan. This Service Plan also provides certain documentation required by the City’s Policy Statement: Establishing Statutory Districts in Denver (“**Policy Statement**”) and is being submitted in connection with the planning and development of the project known as First Creek Village generally located west of Yampa Street, north of 52nd Avenue, south of 56th Avenue and east of Telluride Street (the “**Development Area**”). References in this Service Plan to the “**Developer**” or “**developer**” apply to the Organizer, any affiliate or related person or entity, or any successor developer or an affiliate or related person or entity thereof undertaking any of the development of the project, and with respect to any transaction involving advances (as described in subpart VIII.E), any other person or entity funding or financing any of the public improvements as described herein.

II. PURPOSES OF THE DISTRICT

The District will be a metropolitan district organized pursuant to the Special District Act. The District is anticipated to coordinate and finance the acquisition, construction, completion, operation and maintenance of all public infrastructure and services within and without the District, including, without limitation, all streets, traffic and safety, water, sanitation, storm drainage, transportation, mosquito control, and park and recreation facilities which are more particularly described in Parts V and VI (the “**Improvements**”) and generally to serve the District.

The Improvements will be acquired, constructed and completed for the collective use and benefit of the property owners within, and residents of, the District, as well as for all citizens of the City. Upon completion, it is anticipated that the District will transfer certain Improvements to the City, the Denver Water Board or another governmental entity as appropriate. The District may operate and maintain all other Improvements for the benefit of all property owners within, and residents of, the District.

It is anticipated that the Organizer, as well as other landowners, will make advances to the District as discussed in subpart VIII.E necessary to fund the costs of acquisition, construction, operation and maintenance, and completion of the Improvements until the District can issue bonds or enter into other obligations to finance such costs. Alternatively, the District may, if feasible, issue bonds and incur other obligations to fund the costs of acquisition or construction of the Improvements and to pay back any Developer advances.

The existing facilities and services in the Development Area will need to be improved to support development of the Service Area. At this time, no other jurisdiction or entity is interested in or willing to undertake the financing, construction, or ongoing operation and maintenance of the Improvements necessary for the development. The two adjacent special districts, Town Center Metropolitan District and Ebert Metropolitan District, have recently issued what is expected to be their last bond issue and have no capacity to assist with the development within the District.

The District is also located within the Gateway Regional Metropolitan District, which provides only regional improvements as opposed to local development improvements. The Organizer has received Gateway's consent to the overlap of the two districts' boundaries. Approval of this Service Plan does not in any way alter or affect any existing agreements, rates, fees or charges of the Gateway Regional Metropolitan District.

The development of the Development Area and Future Inclusion Area will have a long-lasting and positive impact on the character, property tax base, employment base, and public health and safety of the surrounding neighborhoods. The use of the District to finance, acquire, construct and complete the Improvements will assure the provision of requisite public infrastructure and other attractive public amenities within and without the Development Area and the Future Inclusion Area, as defined below. Thus, the organization of the District will promote the general interests of present and future property owners, residents and taxpayers within the District as well as the City.

III. PROPOSED DISTRICT BOUNDARIES / SERVICE AREA

The District will be organized to manage, implement, and coordinate the financing, acquisition, construction and completion as well as the operation and maintenance of the Improvements within and without the District.

The District is located entirely within the City. The legal description of the initial boundaries and the boundary map of the District are attached hereto and incorporated herein as **Exhibit A** ("Initial Project Area") and contains approximately seventy-nine (79) acres.

Additional property adjacent to 56th Avenue and north of the initial boundaries of the District may be included within the boundaries of the District as directed by the Special District Act, this Service Plan, and upon petition of the owner thereof without the need to amend this Service Plan. The entirety of that property is also located entirely within the City and is more particularly described and depicted in **Exhibit B** and incorporated herein (the "Future Inclusion Area"), and contains approximately thirty (30) acres. The service area of the District shall include the Future Inclusion Area (the "Service Area"). The District shall be authorized to construct, both within and without the Service Area, the public infrastructure and services necessary in order to provide services within the Future Inclusion Area.

IV. PERMITTED LAND USES / POPULATION PROJECTIONS / ASSESSED VALUATION

At present, the property within the proposed District and the Future Inclusion Area are in Commercial Mixed Districts. The land within the Initial Project Area is anticipated to be developed with approximately 408 single family residential units in the District and 108 single family units in the Future Inclusion Area. The District will comply with all City site plan and development review requirements, and development will be consistent with the approved development plan for the District and all City zoning approved to implement such plans. The peak population of the District under existing zoning is estimated at 1,550 persons at build-out, calculated by applying an average of 3 persons per single family unit. The estimated future assessed valuation of all property within the Initial Project Area at full build-out (anticipated to occur 3 years after initiation of the construction) is estimated to be approximately \$11,462,000, with an estimated market value of approximately \$144,000,000.

All of the Improvements authorized in this Service Plan to support the development of the Service Area are anticipated to be initiated in 2016 with the earthwork and grading activities, along with the installation of the necessary water, sewer, storm drainage, streets and streetscapes to be constructed to serve the vertical development of each of the parcels within the Initial Project Area by 2017.

V. DESCRIPTION OF DISTRICT POWERS, SERVICES AND IMPROVEMENTS

A general description of the District powers and authorities, the services it will provide and the improvements that it will acquire or construct are as follows:

A. Services and Improvements.

1. **Street Improvements.** The District shall have the power and authority to provide for the acquisition, construction, relocation, installation, completion, operation, maintenance, repair and replacement of both on-site and off-site street improvements, as authorized in the Special District Act, including, without limitation, streets, curbs, gutters, culverts and other drainage facilities, bridges, parking improvements, sidewalks, trees, lawns, alleys, lighting, grading, landscaping and irrigation systems, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All street improvements shall be constructed in accordance with the plans and specifications approved by the City and shall be conveyed to the City, as applicable, in accordance with subpart V.B.4 of this Service Plan. The District shall not transfer the street improvements or delegate the operation and maintenance thereof to any entity other than as shown on the O&M Matrix, attached hereto as **Exhibit G**, unless the District has received the prior written approval of the Executive Director of Public Works.

2. **Traffic and Safety Controls.** The District shall have the power and authority to provide for the acquisition, construction, installation and completion of a system of traffic and safety controls and devices on streets and highways as authorized in the Special District Act, including, without limitation, signalization, signing and striping, together with all necessary, incidental and appurtenant facilities, land and easements, and extensions of and

improvements to such facilities within and without the Service Area. All traffic and safety improvements shall be designed and constructed in accordance with the plans and specifications approved by the City and any other applicable State or federal agencies and shall be conveyed to the City, as applicable, in accordance with subpart V.B.4 of this Service Plan. The District shall not transfer the traffic and safety improvements or delegate the operation and maintenance thereof to any entity other than as shown on the O&M Matrix, unless the District has received the prior written approval of the Executive Director of Public Works.

3. Water Improvements. The District shall have the power and authority to provide for the acquisition, construction, relocation, installation and completion of a potable and non-potable water distribution system as authorized in the Special District Act, including, without limitation, distribution mains and lines, pressure reducing stations, wells, irrigation systems, hydrants, tanks and other water facilities, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All water improvements shall be constructed in accordance with the Engineering Standards and Operating Rules of the City and County of Denver, acting by and through its Board of Water Commissioners ("**Denver Water**"), and the water improvements shall be subject to review and change as required periodically by Denver Water. Upon completion, inspection and acceptance of the water improvements, as applicable, in accordance with subpart V.B.4 of this Service Plan the District shall transfer to Denver Water all water improvements which are of the nature, scope and extent customarily conveyed to Denver Water for ownership, operation and maintenance. The District may own, operate and maintain the irrigation and other water improvements within the Service Area that are not transferred to Denver Water or an owners association. The District shall not transfer the water improvements or delegate the operation and maintenance thereof to any entity other than as shown on the O&M Matrix, unless the District has received the prior written approval of the Executive Director of Public Works. Any easements granted to Denver Water shall provide they terminate upon dedication by the City of the overlying land.

4. Sanitation Improvements. The District shall have the power and authority to provide for the acquisition, construction, relocation, installation and completion of a sanitary sewage collection and transmission system as authorized by the Special District Act, including, without limitation, collection mains and lines, lift stations and other sanitation facilities, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All sanitation improvements shall be designed and constructed in accordance with the standards and specifications of the Wastewater Management Division of the Denver Department of Public Works ("**Denver Wastewater**"), the Metro Wastewater Reclamation District, the Colorado Department of Public Health and Environment, and any other applicable local, State or federal rules and regulations. Upon completion, inspection and acceptance in accordance with subpart V.B.4 below, sanitation improvements, as applicable, shall be transferred to the City for ownership, operation and maintenance. The District shall not transfer the sanitation improvements or delegate the operation and maintenance thereof to any entity other than as shown on the O&M Matrix, unless the District has received the prior written approval of the Executive Director of Public Works.

5. Stormwater Drainage Improvements. The District shall have the power and authority to provide for the acquisition, construction, installation, completion, operation and maintenance of a stormwater system as authorized by the Special District Act, including, without limitation, stormwater sewer, flood and surface drainage facilities and systems, water quality detention/retention ponds and associated drainage facilities, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All stormwater drainage improvements shall be designed and constructed in accordance with the standards and specifications of the City and any other applicable State or federal agencies. Upon completion, inspection and acceptance, in accordance with subpart V.B.4 below, as applicable, certain stormwater drainage improvements shall be transferred to the City. It is anticipated that the District will own, operate and maintain certain of the stormwater drainage improvements not transferred to the City. The District shall not transfer the stormwater drainage improvements or delegate the operation and maintenance thereof to any entity other than as shown on the O&M Matrix, unless the District has received the prior written approval of the Executive Director of Public Works.

6. Parks and Recreation Improvements. The District shall have the power and authority to provide for the acquisition, construction, installation, completion, operation and maintenance of parks and recreation improvements and programs as authorized by the Special District Act, including, without limitation, pedestrian plazas, parks, multi-modal trails and bridges, open space, landscaping, entry and architectural features, recreational facilities, irrigation, public art and cultural activities, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All parks and recreation improvements shall be designed and constructed in accordance with the plans and specifications approved by the City. Any acceptance of parks and recreation improvements by the City shall be in accordance with subpart V.B.4 below. The District shall not transfer the park and recreation improvements or delegate the operation and maintenance thereof to any entity other than as shown on the O&M Matrix, unless the District has received the prior written approval of the Executive Director of Parks and Recreation.

7. Transportation. The District shall have the power and authority to provide for the acquisition, financing and construction of transportation system improvements and facilities, including transportation equipment, park and ride facilities and public parking lots, structures, roofs, covers and facilities, all necessary incidental and appurtenant facilities, land and easements together with extensions of and improvements to said facilities within and without the Service Area. Any acceptance of transportation improvements by the City shall be in accordance with subpart V.B.4 below. The District shall not transfer the transportation improvements or delegate the operation and maintenance thereof to any entity other than as shown on the O&M Matrix, unless the District has received the prior written approval of the Executive Director of Public Works.

8. Mosquito Control. The District shall have the power and authority to provide for the acquisition, financing, construction and/or operation and maintenance of facilities and equipment necessary for the eradication and control of mosquitoes, including, but not limited

to, elimination or treatment of breeding grounds, and purchase, lease, contracting or other use of equipment or supplies for mosquito control within and without the Service Area. All mosquito control improvements shall be designed and constructed in accordance with the standards and specifications of the City and any other applicable State or federal agencies.

9. Covenant Enforcement. The District shall have the power to provide covenant enforcement and design review services within the Service Area if the District and the governing body of the owners association, a master association or similar body contract for such services, or if the declaration, rules and regulations, or any similar document containing the covenants to be enforced names the District as the enforcement or design review entity.

10. General. The various activities of the District shall be subject to City zoning, subdivision, building codes, land use regulations, and other applicable City ordinances, laws, rules, and regulations and all agreements relating thereto, so that the facility and service standards of the District will be compatible with those of the City.

B. Other Powers.

The District shall have all powers and authorities granted to metropolitan districts under the Special District Act, which may be exercised to provide for the acquisition, construction, completion, operation and maintenance of the Improvements and the provision of services as authorized in and subject to this Service Plan and any agreements with the City. In addition to the enumerated powers and authorities the Board of Directors of the District shall also have the following authorities:

1. Service Plan Amendments. If the District desires to change any services of a basic or essential nature, such change shall constitute a major modification of the Service Plan unless such change is specifically authorized in this Service Plan to be approved in a different manner. The District may seek to amend this Service Plan as needed, subject to compliance with appropriate statutory and City procedures as set forth in this Service Plan, including, but not limited to, Part XII

2. Construction Phasing. The design, phasing of construction, location and completion of the Improvements will be determined by the District to coincide with the phasing and development of the Service Area and the availability of funding sources. The District may phase the construction, completion, operation and maintenance of the Improvements or defer, delay, reschedule, rephase, relocate or determine not to proceed with the construction and completion of the Improvements, as determined by the District's Board of Directors in the exercise of its discretion, and such actions or determinations shall not constitute material modifications of this Service Plan.

3. Additional Services / Services District Will Not Provide. Except as specifically prohibited herein, the District may provide such additional services and exercise such powers and authorities as are expressly or impliedly granted in the Special District Act or by State law. Ongoing services of the District shall be restricted to services not provided within the District by the City, unless prior written approval to provide such service is received from the

Executive Director of Finance and the Executive Director of Public Works (or Executive Director of Parks and Recreation, if such approval relates to park and recreation improvements). The District shall not provide the following services: fire protection and other public safety services, operation of traffic control devices on City streets, or television relay and translation services. The District may provide security services pursuant to an intergovernmental agreement with the Denver Police Department.

4. Land Acquisition and Conveyance. The District shall not condemn property or easements without the prior approval of the Denver City Council. The purchase price of any land or Improvements acquired by the District from the Developer shall be no more than the then-current fair market value as confirmed by an independent MAI appraisal for land and an independent engineer for Improvements. Land, easements, Improvements, and facilities conveyed to the City shall be free and clear of all liens, encumbrances and easements, unless otherwise approved by the City prior to conveyance. All conveyances to the City shall be by special warranty deed, shall be conveyed at no cost to the City, include an ALTA title policy issued to the City, shall meet the environmental standards of the City and shall comply with any other conveyance prerequisites.

C. Requirements for Construction and Maintenance.

The City currently has ordinances relating to the payment of prevailing wages, public art, and small or disadvantaged business enterprise participation in the City contracting for construction and certain maintenance activities. As a condition of the City's approval of this Service Plan, the District agrees to the following requirements:

1. Prevailing Wages. The District shall comply with the wage provisions of the City's then-current ordinances applicable to City contracts relating to the payment of prevailing wages for any District contracts relating to the acquisition or construction, and operation or maintenance of any Improvements, unless such contract is required to comply with Davis-Bacon or other federal wage requirements.

2. Small or Disadvantaged Business Enterprises. To the extent the District is not required to comply with more restrictive provisions in accordance with a project funding source, as determined by the Director of the Division of Small Business Opportunity Office, or its successor agency, the District shall comply with the City's then-current ordinances relating to: (a) minority and women business enterprise participation as currently set forth in Division 1 and Division 3 of Article III, Title 28 of the Denver Revised Municipal Code ("DRMC"), as the same may be amended or recodified from time to time; and (b) small business enterprise participation as currently set forth in Sections 28-201 to 28-231 of the DRMC, as the same may be amended or recodified from time to time; and (c) any small or disadvantaged business enterprise ordinances that may subsequently be adopted by the City Council with respect to construction work that is not under contract at the time of adoption of such ordinance.

3. No Discrimination. In connection with the performance of all acts or activities hereunder, the District shall not discriminate against any person otherwise qualified

with respect to its hiring, discharging, promoting or demoting or in matters of compensation solely because of race, color, religion, national origin, gender, age, military status, sexual orientation, gender variance, marital status, or physical or mental disability, and further shall insert the foregoing provision in contracts or subcontracts let to accomplish the purposes of this Service Plan.

4. Public Art. The District shall initiate and implement a public art program as currently set forth in DRMC Sections 20-85 through 20-89.

VI. ESTIMATED COSTS OF IMPROVEMENTS

The total estimated costs of the Improvements necessary to serve the initial development are approximately \$30,000,000 (in 2016 dollars) as detailed in Exhibit C. Such costs will be adjusted for inflation in accordance with the construction cost index utilized by the Colorado Department of Transportation (“Costs”) starting as of January 1, 2017. A map of the anticipated location of the first phase of Improvements is attached hereto and incorporated herein as Exhibit D. The location and specifications of the Improvements will be determined as a part of and in compliance with the land use procedures, codes and ordinances of the City as they are amended from time to time.

VII. ESTIMATED COSTS OF ORGANIZATION, OPERATIONS AND MAINTENANCE

A. Costs of Organization.

The estimated costs of organization of the District are approximately \$50,000.

B. Costs of Operation and Maintenance.

The District’s primary operation and maintenance obligations will include maintaining and repairing those Improvements not dedicated to other entities. Additional costs may include engineering (not accounted for in the design of Improvements), legal, audit, and administrative services, utilities, and other expenses related to the administration and operation of the District.

The budget adopted by the District will authorize expenditures for the District’s administration and the operation and maintenance of the Improvements. The District shall not have the authority to provide maintenance to any Improvements transferred to the City without the prior written approval of the Executive Director of Finance and the Executive Director of Public Works (or Executive Director of Parks and Recreation, if such approval relates to park and recreation improvements). Fees and charges may be imposed within the Service Area and collected by the District, as permitted by statute and as set forth in subpart VIII.C below, to the extent necessary to supplement other revenues of the District.

C. Fees to City.

The District shall be responsible for paying fees imposed by statute, ordinance, or by rules and regulations of the City. All consulting, legal and other costs incurred by the City for the review of Bond documents shall be paid by the District within thirty (30) days of receipt of invoice, regardless of whether the transaction closes.

VIII. FINANCING PLAN / PROPOSED INDEBTEDNESS

This part of the Service Plan describes the nature, basis, method of funding and financing limitations associated with the acquisition, construction, completion, operation and maintenance of the Improvements. As used in this Part VIII, the term “**Bonds**” means any bonds, notes, debentures, or other evidences of a borrowing that constitute multiple fiscal year obligations of the District under Article X, Section 20 of the Colorado Constitution; provided, however, that the definition of Bonds shall not include any of the following: multiple fiscal year obligations established by intergovernmental agreements between and among the District and any other government, including the City.

A. Financing Plan.

The financing plan for the District is for the District to incur debt, from time to time, to fund the Improvements to support the development of the Service Area from property tax revenues derived from a mill levy not to exceed the District Debt Mill Levy Cap (defined in VIII.G.10 below), specific ownership taxes, other rates, fees, tolls and charges of the District permitted under State statute, and other revenues pledged to the District.

Any such financing plan will demonstrate that, at the projected levels of development and absorptions, the District shall have the ability to finance the respective Improvements and will have the financial ability to discharge all Bonds set forth in the respective financing plan on a reasonable basis in support of such activities. The District will not issue debt above the District Debt Issuance Limit as defined in subpart VIII.G and will secure an External Financial Advisor Certification, as described in subpart VIII.G.6, as to the market reasonableness of the terms of the debt issuance at the time of issuance.

B. Mill Levies.

1. Debt Mill Levy. The District may levy property taxes for the purpose of paying debt service (a “**District Debt Mill Levy**”). The District shall not impose a District Debt Mill Levy that is greater than the District Debt Mill Levy Cap, as defined in VIII.G.1 below. The District shall not impose a District Debt Mill Levy which extends beyond 40 years after the date on which the District is created unless: (1) a majority of the Board of Directors of the District imposing the mill levy are not related to the Developer or Organizer, and (2) such Board has voted in favor of issuing Bonds with a term which requires or contemplates the imposition of a District Debt Mill Levy for a longer period of time than the limitation contained herein.

2. Operating Mill Levy. It is anticipated that the District will impose a general fund property tax levy on all taxable property within its boundaries which will be pledged for payment of operations and maintenance associated with the Improvements for which

the District is responsible, as well as the day to day costs of operating the District and providing the services contemplated by this Service Plan (a “**District Operating Mill Levy**”). The District Operating Mill Levy is projected to be 20.00 mills; provided, however, that the District Operating Mill Levy will be set to meet budgetary needs of the District on an annual basis. It is anticipated that upon build-out of the District the revenue generated from a District Operating Mill Levy of 25.00 mills will be sufficient to meet the budgetary needs of the District for operations and maintenance purposes. The District shall not impose a District Operating Mill Levy that is greater than 25.00 mills (the “**District Operating Mill Levy Cap**”), provided that the District Operating Mill Levy may be adjusted in the same manner and under the same circumstances as adjustments are allowed up to the District Debt Mill Levy Cap, as described in VIII.G.11 below, or as may be approved by a vote of the qualified electors of the District where qualified electors related to the Developer and Organizer constitute a minority of the votes cast.

C. Fees.

As a source of revenue for repayment of debt, capital costs, and/or for operations and maintenance the District may impose and collect, fees, rates, tolls, penalties, or charges as permitted by statute.

D. Bond Issuance.

Financing plans to complete the Improvements with Bonds may be implemented by the District without having to amend this Service Plan, however, any such alternate financing plans shall be subject to all limitations set forth in VIII.B., VIII.E., VIII.F., and VIII.G. If voter approval has been received, the District may enter into multiple fiscal year financial obligations with the City and other entities of any nature, including, without limitation, intergovernmental agreements and acquisition, reimbursement and funding agreements with the developer to accomplish any of the various purposes authorized in this Service Plan, subject to all terms and limitations set forth herein or any other agreement related thereto to which any of the District is a party. Refunding Bonds may be issued by the District to defease original issue Bonds in compliance with the terms of subpart VIII.F below and all applicable State and federal laws and shall not apply towards the District’ aggregate District Debt Issue Limit set forth in VIII.F below.

E. Developer Advances.

Currently, it is anticipated that the Developer or other entities may make advances to the District as necessary to fund a portion of the costs of the acquisition, construction and completion of the Improvements in accordance with the terms of acquisition, reimbursement or funding agreements which may be entered into by the District and a developer. Any pledge for repayment of developer advances shall be subject to those certain limitations for the issuance of Bonds set forth in subparts VIII.G.2., VIII.G.3, VIII.G.5, VIII.G.6, VIII.G.9, VIII.G.10, VIII.G.11, VIII.G.12, VIII.G.13, and VIII.G.14. Obligations incurred by the District under such agreements are expected to be repaid by the District from Bond proceeds or from other available funds. The Developer or other entities may also advance funds to the District for the payment of

operating and maintenance expenses, which advances may be repaid from Bond proceeds, property tax collections or other revenue.

F. Debt Authorization.

1. At an election to be held November 8, 2016, the District shall seek authority to issue general obligation Bonds in total principal amounts not to exceed \$45,000,000 (“**District Debt Issuance Limit**”). It is anticipated that the District will utilize its debt authorization to issue property tax supported Bonds and/or notes to the Developer, subject to the limitations in subpart VIII.G below, and as described generally in **Exhibit H**, attached hereto. When the District issues debt, the amount of that Bond shall be subtracted from and reduce the amount of Bonds it is permitted to issue under this Service Plan; provided, however, that agreements between the District and another governmental entity shall not reduce the aggregate debt authorization of the District. In addition, debt issued for refunding purposes shall not reduce the aggregate debt authorization of the District.

The total principal amount of Bond authorization to be voted by the District exceeds the Costs of the Improvements to allow for unforeseen contingencies and increases in construction costs due to inflation and to cover all organizational and bond issuance costs, including capitalized interest, reserve funds, discounts, legal and other consulting fees, and other incidental costs of issuance. A sample of form ballot questions, including those related to seeking Bond authorization, to be submitted to the electors of the District is attached to this Service Plan as **Exhibit E** and incorporated herein. This sample is being provided as an example; the actual ballot questions presented to the voters will vary from this format as required from time to time to secure the authorization necessary to fund the costs of acquisition, construction, operation and maintenance, and completion of the Improvements. The bond authorization shall not exceed a term of 40 years unless approved by a vote of qualified electors where qualified electors related to the Developer and Organizer constitute a minority of votes cast.

G. Parameters for Debt Issuance.

Unless otherwise previously approved in writing by the City’s Executive Director of Finance, all Bonds issued by the District shall be subject to the following restrictions:

1. General obligation or revenue Bonds issued by the District shall mature not more than thirty (30) years per series from the date of issuance with the first maturity being not later than five (5) years from the date of issuance.

2. The maximum voted interest rate shall be eighteen percent (18%) and the maximum discount shall be four percent (4%). The exact interest rates and discounts will be determined at the time the Bonds are sold. Such Bonds will be structured to obtain competitive interest rates for comparable bonds.

3. The Bonds generally will contain adequate call provisions to allow for the prior redemption or refinancing of such Bonds. Bonds sold to developers (excluding any

financial institution, mutual fund, investment trust or accredited investor that does not control, and is not controlled by, the Developer or any affiliate or related person or entity) shall be callable not later than five (5) years after their date of issuance, unless such limitation is waived in writing by the Executive Director of Finance.

4. No uninsured Bonds shall be issued that contain provisions permitting acceleration of the Bonds upon default unless approved in writing by the Executive Director of Finance.

5. At least thirty (30) days prior to the issuance of any Bonds, the issuing District shall deliver to the Executive Director of Finance a Financing Plan for such bond issuance that models the assumed revenue for repayment of the debt as amortized in accordance with the terms of the proposed financing documents. The Executive Director of Finance shall have the right to waive this requirement or shorten the time frame required herein in the Executive Director of Finance's sole discretion. Notwithstanding the foregoing, multiple fiscal year obligations incurred pursuant to intergovernmental agreements shall be excluded from the requirements of this provision.

6. A certification as to the market reasonableness of the interest rate and terms of Bonds sold shall be provided by an underwriter, investment banker or individual entity listed as a public finance advisor in the Bond Buyer's Municipal Market Place and which advises Colorado governmental entities on matters relating to the issuance of securities by Colorado governmental entities, such as the pricing, sales and marketing of such securities ("**External Financial Advisor Certification**"), and shall be delivered to the Executive Director of Finance within five (5) business days of closing on any Bond issuance. The External Financial Advisor Certification shall be provided by an independent party who is not providing the services of underwriter, investment banker, placement agent or other non-arm's length party whose significant compensation is based on a successful bond issuance.

7. The District shall comply with all applicable Securities and Exchange Commission and U.S. Treasury or Internal Revenue Service laws and regulations and the State Constitution and any State securities laws or regulations.

8. The District will inform the Executive Director of Finance in writing within three (3) days after a debt service payment date if such payment is not made in full by the District. To the extent feasible, the District will also provide written notice to the Executive Director of Finance of any likely event of nonpayment in advance of such debt service payment date.

9. Notwithstanding anything in the Service Plan to the contrary, no new money obligations (e.g., Bonds and certificated leases) shall be incurred by the District in the event that the District has previously undertaken a refunding of outstanding obligations for the purpose of avoiding a default without obtaining the prior written approval of the Executive Director of Finance after providing evidence satisfactory to the Executive Director of Finance

either that: (i) the District is then capable of discharging its Bonds as they come due; or (ii) such refunding obligations themselves are no longer outstanding.

10. Any Bonds issued by the District that are payable in whole or in part from ad valorem property taxes (“**Tax Supported Obligations**”) shall be issued only as limited tax obligations subject to a debt service mill levy cap of 50 mills, as may be adjusted pursuant to subpart VIII.G.11 and 12, below (the “**District Debt Mill Levy Cap**”), and subject to other applicable State law. Subject to the termination of the District Debt Mill Levy Cap as set forth in subpart VIII.G.12, below, and certain adjustments authorized in subpart VIII.G.11, the District may not levy or promise to levy an *ad valorem* property tax for repayment of outstanding Tax Supported Obligations in excess of the District Debt Mill Levy Cap.

11. The District Debt Mill Levy Cap may be adjusted to take into account legislative or constitutionally imposed adjustments in assessed values or the method of their calculation (as of January 1, 2016), so that, to the extent possible, the actual revenues generated by the District Debt Mill Levy Cap are neither diminished nor enhanced as a result of such changes. Among other adjustments, any general reassessment of taxable property valuations by the City, legislative or constitutional changes in the method or percentage for calculating district assessed values, or a change in the ratio of actual valuation of assessable property shall be deemed a change in the method of calculating assessed valuation. On or before December 1 of the year before any fiscal year in which an adjustment is made to the District Debt Mill Levy Cap pursuant to this paragraph, the District shall provide the calculation of any such adjustment to the mill levies of the District to the Executive Director of Finance.

12. The District Debt Mill Levy Cap shall remain in effect for all Bonds until such time as the assessed valuation of all taxable property within the boundaries of the District is equal to or greater than two (2) times the outstanding Bonds of the District, together with any series of general obligation Bonds proposed for release from the District Debt Mill Levy Cap, or until a credit facility is secured as described in section 32-1-1101(6)(a)(III), C.R.S. Further, the total principal amount of outstanding Bonds of the District shall not exceed the District Debt Issuance Limit unless approved in writing by the Executive Director of Finance.

13. The District shall not pledge as security for any Bonds or other obligations any land, improvements, revenue or funds to be transferred or pledged to the City.

14. No later than five (5) business days after the sale of any Bonds, the District shall provide copies of final Bond documents, an opinion to the City from counsel opining that the final Bond documents are in general conformance with the applicable provisions of this Service Plan and all applicable State and Federal laws and rules, and an External Financial Advisor Certification. A Bond legend shall be included stating the City has no responsibility for payment of any Bonds.

H. Revenue Sources.

It is expected that the District will rely primarily on Developer advances, tax revenues and other revenues to provide facilities and services. Other sources of revenue

available to the District may also include, without limitation, State or federal or other governmental agency grants or loans, earnings derived from the reinvestment of bond funds, capitalized interest, property and specific ownership tax revenues, and facilities fees collected by the District. The District is authorized to establish a system of rates, fees, charges and penalties in accordance with the Special District Act in order to generate additional revenue for the payment of any Bonds or other obligations and operating costs as needed. The District will not apply for Conservation Trust Funds, Great Outdoors Colorado funds, or other grant funds available from or through governmental or nonprofit entities that the City is eligible to apply for without the prior written approval of the Mayor.

The anticipated revenue sources will be sufficient to retire the District's proposed indebtedness if growth occurs as anticipated. Variations in assessed valuation projections or in the phasing of private improvements may affect the mill levy and the level of fees, rates and charges upward or downward. No funds or assets of the City will be pledged as security for the repayment of any obligation of the District.

Attached as **Exhibit F** and incorporated herein is a comparison of the anticipated mill levies of the District and the mill levies of similar taxing entities in the Denver metropolitan area, which comparison demonstrates that the anticipated mill levies of the District are comparable to those of other Districts.

I. Operations, Maintenance and Administration.

The District will need sufficient funds to perpetually operate and maintain all Improvements until such time as they are accepted by the City and following acceptance thereof, transferred to the City or other appropriate entities. In addition, the District will incur costs for various administrative functions, including legal, engineering, accounting and compliance. At full build-out, a property tax of 25.00 mills levied within the District is anticipated to be sufficient to operate the District and to maintain the Improvements. Provided, however, the District Operating Mill Levy will be set to meet budgetary needs of the District on an annual basis and is not subject to the District Debt Mill Levy Cap. No portion of the revenues generated by the Operating Levy may be used to retire debt of the District.

IX. INCLUSIONS / EXCLUSIONS

The District shall be authorized, upon property owner petition, to include into its boundaries and exclude from its boundaries property that is within the Service Area as depicted in **Exhibit B** without the prior written approval of the City. In the case of exclusions, any exclusion of property that is within the Service Area of the District must first receive the prior written approval of the City. Such actions will not constitute a material modification of this Service Plan. Inclusion and/or exclusion proceedings shall be conducted in accordance with sections 32-1-401, *et seq.*, and 32-1-501, *et seq.*, C.R.S., as applicable. Any inclusion or exclusion hereunder must not cause a negative effect on the District's ability to meet its then-existing obligations. For the purposes of this Article IX, the approval of the City's Executive

Director of Finance and the City's Executive Director of Public Works shall constitute the approval of the City.

X. DISSOLUTION

The District will dissolve the later of: (i) when there are no operation or maintenance obligations, financial obligations, outstanding Bonds or other obligations; or (ii) upon a determination of the City Council that all of the purposes for which the District were created have been accomplished and that all of their respective financial obligations have been defeased or secured by escrowed funds or securities meeting the investment requirements in Part 6 of Article 75 of Title 24, C.R.S. The District's dissolution prior to payment of all Bonds or other obligations shall be subject to the approval of a plan of dissolution in the District Court for the City and County of Denver pursuant to section 32-1-704, C.R.S.

XI. REQUIRED NOTICES, DOCUMENTATION AND COORDINATION WITH CITY

At least annually following the year of its organization, the District shall provide notice by publication in a major Denver newspaper of its existence and of the next scheduled public meeting of its Board of Directors. Such meeting shall occur at least thirty (30) days and not more than sixty (60) days following the date of publication. Such notice shall include the address of the District's office where the names and addresses of the Board of Directors and its officers and the address, telephone number, fax number and email address of the District may be obtained and shall also include reference to the existence of a district file maintained by the City as described below.

The District shall provide to the City the following information and documents on an annual basis, if such information differs from the information provided in any previous year: (i) annual budget of the District to both the Executive Director of Finance and the Executive Director of Public Works; (ii) annual audited financial statements (or any exemption filing made to the State Auditor) of the District to the Executive Director of Finance; (iii) total debt authorized, total debt issued, and remaining debt authorized and intended to be issued by the District to the Executive Director of Finance; (iv) names and terms of the members of the Board of Directors and officers of the District to both the Executive Director of Finance and Executive Director of Public Works; (v) any bylaws, rules and regulations of the District regarding bidding, conflict of interest, contracting and other governance matters to the Executive Director of Public Works; (vi) current intergovernmental agreements and amendments to both the Executive Director of Finance and Executive Director of Public Works; (vii) a summary of all current contracts for services or construction of the District to the Executive Director of Public Works; (viii) current documentation of credit enhancements to the Executive Director of Finance; (ix) official statements of current outstanding bonded indebtedness of the District, if not already received by the City, to the Executive Director of Finance; (x) current approved Service Plan of the District and amendments thereto, to both the Executive Director of Finance and Executive Director of Public Works; (xi) the District office contact information to both the Executive Director of Finance and Executive Director of Public Works; and (xii) any change in proposed

development assumptions that impacts the financial projections. Additionally, the District will file a map with the City Clerk each year in accordance with section 32-1-306, C.R.S., and City standards.

The following events shall be reported to the Executive Director of Finance within thirty (30) days of such occurrence, to the extent such information is known and available to the District, or any sub-district: (i) a negative change in any bond rating or the failure of a credit facility; (ii) a change, if known, in any development assumption that materially and negatively impacts the bond financing projections for any series of issued Bonds; (iii) a change in use of a particular property (i.e., from commercial to residential use) that materially and negatively impacts the ability of the District to discharge its indebtedness; or (iv) any bankruptcy related filing of the District.

In order to provide additional notice to purchasers of residential units in the District of the property taxes required to be paid to the District, beginning on January 31, 2016, and by January 31 of each subsequent year, the District shall record a notice affecting all real property included within the District stating: (i) the current property tax mill levies of the District; (ii) the maximum property tax mill levies authorized by the Service Plan for the District; and (iii) the name and address of a contact person for the District.

Notices to the District may initially be provided to First Creek Village Metropolitan District, c/o Spencer Fane LLP, 1700 Lincoln Street, Suite 2000, Denver, CO 80203. An alternative notice party may be designated by the District in its discretion.

XII. MATERIAL CHANGES AND OTHER APPROVAL REQUIREMENTS

The following actions or changes shall not constitute material modifications of this Service Plan under the Special District Act, as long as such actions or changes are preceded by the identified approvals: (i) inclusion of any property into the District that is not located within the Service Area as depicted in **Exhibit B** shall require the prior written approval of the Executive Director of Finance and the Executive Director of Public Works; (ii) consolidation of the District with any other special district shall require the prior written approval of the City Council; (iii) formation of one or more separate corporations, authorities or other entities, other than a district enterprise under TABOR, shall require the prior written approval of the Executive Director of Finance and the Executive Director of Public Works; (iv) issuance of Bonds in any material amount or type or at any time not authorized by the Service Plan shall require the prior written approval of the Executive Director of Finance; (v) acquisition of land or easements that would otherwise be dedicated to the City shall require the prior written approval of the Executive Director of Public Works; (vi) condemnation of property or easements shall require the prior written approval of the City Council; (vii) dissolution of the District prior to the repayment of all Bonds shall require the prior written approval of the City Council; or (viii) creation of a Sub District, as described in the Special District Act, shall require the prior written consent of the Executive Director of Finance and Executive Director of Public Works. Conversely, if the appropriate prior written approvals are not obtained for the particular matter as set forth above in this section, such matter shall be deemed a material modification of this Service Plan.

XIII. CONCLUSION

This Service Plan establishes that:

- A. There is sufficient existing and projected need for organized service in the area to be served by the District;
- B. The existing service in the area to be served by the District is inadequate for projected needs within the Service Area;
- C. The District is capable of providing economical and sufficient service to the area within its proposed boundaries;
- D. The area to be included in the District does have, and will have, the financial ability to discharge the proposed indebtedness on a reasonable basis;
- E. Adequate service is not, and will not be, available to the area through the City or other existing municipal or quasi-municipal corporations, including existing special districts, within a reasonable time and on a comparable basis;
- F. The facility and service standards of the District will be compatible with the facility and service standards of the City;
- G. The proposal is in compliance with any duly adopted City, regional or state long-range water quality management plan for the area; and
- H. The organization of the District is in the best interests of the area proposed to be served.

EXHIBIT A

Legal Description and Map of the First Creek Village Metropolitan District Boundaries

EXHIBIT

NORTHEAST QUARTER, SECTION 16, TOWNSHIP 3 SOUTH, RANGE 66 WEST OF THE 6TH P.M., CITY AND COUNTY OF DENVER, COLORADO

LEGAL DESCRIPTION

A PARCEL OF LAND BEING A PORTION OF THE NORTHEAST QUARTER OF SECTION 16, TOWNSHIP 3 SOUTH, RANGE 66 WEST OF THE 6TH PRINCIPAL MERIDIAN, CITY AND COUNTY OF DENVER, STATE OF COLORADO, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEARINGS FOR THIS DESCRIPTION ARE BASED ON THE WEST LINE OF THE NORTHEAST QUARTER OF SECTION 16, TOWNSHIP 3 SOUTH, RANGE 66 WEST OF THE 6TH P.M., BEING ASSUMED TO BEAR N 00°04'06" W, FROM THE CENTER QUARTER CORNER OF SAID SECTION 16, BEING MONUMENTED BY A 3-1/4" ALUMINUM CAP STAMPED "PLS 20699", TO THE NORTH QUARTER CORNER OF SAID SECTION 16, BEING MONUMENTED BY A 3-1/4" ALUMINUM CAP STAMPED "PLS 27278", WITH ALL BEARINGS CONTAINED HEREIN RELATIVE THERETO.

BEGINNING AT THE CENTER QUARTER CORNER OF SAID SECTION 16;
THENCE N 00°04'06" W, ALONG THE WEST LINE OF THE NORTHEAST QUARTER OF SAID SECTION 16, A DISTANCE OF 1972.54 FEET;
THENCE S 89°57'32" E, A DISTANCE OF 1038.16 FEET TO A POINT OF NON-TANGENT CURVATURE;
THENCE ALONG THE ARC OF A NON-TANGENT CURVE TO THE LEFT HAVING A RADIUS OF 560.00 FEET, A CENTRAL ANGLE OF 03°44'13" AND AN ARC LENGTH OF 36.52 FEET, THE CHORD OF WHICH BEARS S 20°13'32" E, A DISTANCE OF 36.52 FEET;
THENCE S 22°05'38" E, A DISTANCE OF 78.26 FEET TO A POINT OF CURVATURE;
THENCE ALONG THE ARC OF A CURVE TO THE LEFT HAVING A RADIUS OF 560.00 FEET, A CENTRAL ANGLE OF 64°42'50" AND AN ARC LENGTH OF 632.50 FEET;
THENCE S 86°48'29" E, A DISTANCE OF 239.47 FEET;
THENCE N 89°40'28" E, A DISTANCE OF 129.94 FEET;
THENCE S 00°12'22" E, A DISTANCE OF 1493.44 FEET TO A POINT ON THE SOUTH LINE OF THE NORTHEAST QUARTER OF SAID SECTION 16;
THENCE S 89°41'25" W, ALONG THE SOUTH LINE OF THE NORTHEAST QUARTER OF SAID SECTION 16, A DISTANCE OF 1939.99 FEET TO THE POINT OF BEGINNING.

CONTAINING 3,465,268 SQUARE FEET OR 79.552 ACRES, MORE OR LESS.

Shrub Planting Detail

PLANTING NOTES

1. The City of Denver is the primary contractor for the planting of trees and shrubs. The contractor shall be responsible for all costs associated with the planting of trees and shrubs, including but not limited to the purchase of trees and shrubs, transportation to the site, planting, and maintenance.
2. All trees to be planted shall be a minimum of 2" caliper at the point of planting.
3. All shrubs to be planted shall be a minimum of 2" caliper at the point of planting.
4. All trees and shrubs shall be planted in accordance with the City of Denver's Tree and Shrub Planting Specifications.
5. The contractor shall provide a detailed planting plan for all trees and shrubs to be planted, including the species, size, and location of each tree and shrub.
6. The contractor shall provide a detailed maintenance plan for all trees and shrubs to be planted, including the frequency and type of maintenance required.
7. The contractor shall provide a detailed irrigation plan for all trees and shrubs to be planted, including the frequency and amount of water to be applied.
8. The contractor shall provide a detailed mulching plan for all trees and shrubs to be planted, including the type and depth of mulch to be applied.
9. The contractor shall provide a detailed staking plan for all trees and shrubs to be planted, including the type and placement of stakes.
10. The contractor shall provide a detailed support plan for all trees and shrubs to be planted, including the type and placement of support structures.
11. The contractor shall provide a detailed pruning plan for all trees and shrubs to be planted, including the frequency and type of pruning to be performed.
12. The contractor shall provide a detailed watering plan for all trees and shrubs to be planted, including the frequency and amount of water to be applied.
13. The contractor shall provide a detailed fertilization plan for all trees and shrubs to be planted, including the type and amount of fertilizer to be applied.
14. The contractor shall provide a detailed pest management plan for all trees and shrubs to be planted, including the frequency and type of pest control to be performed.
15. The contractor shall provide a detailed disease management plan for all trees and shrubs to be planted, including the frequency and type of disease control to be performed.
16. The contractor shall provide a detailed maintenance plan for all trees and shrubs to be planted, including the frequency and type of maintenance required.
17. The contractor shall provide a detailed irrigation plan for all trees and shrubs to be planted, including the frequency and amount of water to be applied.
18. The contractor shall provide a detailed mulching plan for all trees and shrubs to be planted, including the type and depth of mulch to be applied.
19. The contractor shall provide a detailed staking plan for all trees and shrubs to be planted, including the type and placement of stakes.
20. The contractor shall provide a detailed support plan for all trees and shrubs to be planted, including the type and placement of support structures.
21. The contractor shall provide a detailed pruning plan for all trees and shrubs to be planted, including the frequency and type of pruning to be performed.
22. The contractor shall provide a detailed watering plan for all trees and shrubs to be planted, including the frequency and amount of water to be applied.
23. The contractor shall provide a detailed fertilization plan for all trees and shrubs to be planted, including the type and amount of fertilizer to be applied.
24. The contractor shall provide a detailed pest management plan for all trees and shrubs to be planted, including the frequency and type of pest control to be performed.
25. The contractor shall provide a detailed disease management plan for all trees and shrubs to be planted, including the frequency and type of disease control to be performed.

FIRST CREEK VILLAGE NO. 1

DEVELOPMENT PLAN

A PART OF THE NORTHEAST QUARTER OF SECTION 16, TOWNSHIP 3 SOUTH, RANGE 66 WEST OF THE SIXTH PRINCIPAL MERIDIAN,
CITY AND COUNTY OF DENVER, STATE OF COLORADO

MINIMUM LANDSCAPE REQUIREMENTS

Front Yard

1 Tree Required (12" cal. min. or Deciduous Shade Tree-2" cal. min. or Deciduous Ornamental Tree-1-1/2" cal. min. or 12 Shrubs / Perennials (5 gallon). Synthetic turf may cover no more than 25% of the front yard landscape area and must include a permeable backing with a base material that promotes porosity. Drainage. Synthetic turf is not allowed in tree lawns. Tree lawn will be irrigated turf grass.

MINIMUM LANDSCAPE REQUIREMENTS

Front Yard - Without Turf

1 Tree Required (12" cal. min. or Deciduous Shade Tree-2" cal. min. or Deciduous Ornamental Tree-1-1/2" cal. min. or 18 Shrubs / Perennials (5 gallon). A maximum of 25% of the front yard landscape area may contain mulch without live plant material.

MINIMUM LANDSCAPE REQUIREMENTS

Front Yard

1 Tree Required (12" cal. min. or Deciduous Shade Tree-2" cal. min. or Deciduous Ornamental Tree-1-1/2" cal. min. or 4 Shrubs (5 gallon). Bluegrass Turf. Mulch.

- NOTES:**
- THIS TYPICAL PLAN SHOWS HOW THE LANDSCAPE COULD BE CONFIGURED AND DOES NOT REPRESENT THE ACTUAL DESIGN OF ANY INDIVIDUAL LOT. ACTUAL DESIGN MAY VARY.
 - THE LANDSCAPE PLANT LIST INCLUDES REPRESENTATIVE SPECIES THAT WOULD MEET THE AREA COVERAGE FOR EACH PLANT TYPE. ADDITIONAL SPECIES MAY BE SUBSTITUTED AT THE PREFERENCE OF THE HOMEOWNER.
 - PER THE GATEWAY DESIGN STANDARDS, LANDSCAPING SHALL INCLUDE 75% LIVE MATERIAL IN THE AREA FORWARD OF THE FRONT FACADE OF THE BUILDING NOT INCLUDING DRIVEWAYS, SIDEWALKS OR PATIOS/DECKS.
 - LANDSCAPING IS NOT REQUIRED IN THE SIDE YARDS - BETWEEN HOUSES.
 - FRONT YARD AREA IS MEASURED FROM THE FRONT FACADE OF THE STRUCTURE TO THE SIDEWALK.
