**Background:**

SYSCON Justice Systems (SYSCON) was awarded the bid to provide the Denver Sheriff Department with a new jail management system in 2008. Since the time this system was installed, there have been several changes in laws that affected the jail management system. Each time a change to the system is needed, an amendment was required to change the current contract between the City and County of Denver and SYSCON. This on-call contract will allow the Denver Sheriff Department to request necessary changes to the jail management system from SYSCON in a more efficient manner.
