5. General description or background of proposed request. Attach executive summary if more space needed:

The Mill Levy 15 Traffic Signal Upgrade project is to redesign and reconstruct 19 traffic signals on the 6th and 8th Avenue corridors. Based on the agency's crash data, these 19 aging traffic signals on the two corridors have a poor safety record so the signal upgrade project will improve this by reconstructing the signals to meet all current City safety standards. All upgrades will include the standard mast arm signal poles and mast arms for greater stability. Also, large 12" signal heads per lane and 16" countdown pedestrian signal faces for greater visibility, upgraded controllers and cabinet with UPS to keep the signal operating in an electrical blackout event, detection camera system for left turns, emergency preemption system and enhanced signing and striping package will be included.

6. City Attorney assigned to this request (if applicable):

7. City Council District: 10
