Biography

Julian Martinez

8364 Elati Street, Denver, Colorado 80221
(720) 205-5460
juamarti22@gmail.com

Julian Martinez has lived in Denver, Colorado his entire life, has served the students of Colorado for his entire career and is currently a Regional Specialist of Career and College Success with Denver Public Schools. Julian earned his bachelor's degree from the University of Colorado (CU) in Political Science and graduated from the CU School of Education with an emphasis in Secondary Social Studies and earned his master's degree in Organizational Leadership with an emphasis in Project Management from the Colorado State University Global Campus.

Julian's personal and professional philosophy is that we must help people along their path, as we have all benefitted from the help of someone to get us where we are today. As a college student, he quickly learned his professional path was to work with underserved students while working in the Pre-Collegiate Development program with first-generation, low-income high school students.

Additionally, Julian has worked with grant-funded programming when he was the Academic Coordinator for the Upward Bound program as well when he served as the Director for the Jefferson Articulation Area's, 21st Century Community Learning Centers grant. Through these experiences, Julian has developed a strong skill-set in grant development and fundraising. He has written successful grants for well over \$3 million in federal funding for services focused on the students and families of Jefferson County Public Schools.

When Julian is not working he enjoys playing chess with his wife, running with his dog, and eating too much food with his family and friends. He is passionate about music, immune to the effects of Tabasco Sauce, and will never turn down a conversation where he can learn things he didn't know he didn't know. Ultimately, Julian's passion has always been to work in education with underserved youth and families. To this end, he truly understands how blessed he has been to make his passion his profession.

"Education is freedom and freedom should be everybody's business"
– American G.I. Forum motto
