

CASH, RISK, & CAPITAL FUNDING

Risk Management Program

October 21, 2014

Risk Management:

- Oversees the identification, analysis and management of the City's risk and exposure to loss related to the activities of the City and its departments, agencies and employees.

Our Mission:

- To provide a system of risk and loss exposure identification and analysis designed to protect the City and County of Denver, its capital assets, property and employees by managing the City's self-insurance and loss control programs and the purchase of insurance, by developing and implementing appropriate risk management policies and procedures, and by educating and training all City employees in workplace safety.

OUCH!

If a City and County of Denver Department of Finance employee is injured at work just call the "Ouch Line"

(303)436-OUCH (6824)

The "OUCH" line connects you with a Denver Health Advice Nurse trained in triage of workers compensation injuries, and it is the new way to report any work injury or illness.

Before you seek any medical care or emergency care for a work-related injury, that is not life threatening, you must call **(303) 436-OUCH** to report your claim.

Call for triage and, if needed, a referral for medical care. Before you go anywhere for care call the OUCH LINE.

Section 8-43-404 (5) (a) (I) (A) of the Colorado WC Act states:

“In all cases of injury, the employer of insurer shall provide a list of at least two physicians or two corporate medical providers or at least one physician and one corporate medical provider, where available, in the first instance, from which list an injured employee may select the physician who attends said injured employee. “

When an employee contacts the Ouchline they are provided a choice of medical provider, either COSH (Denver Health) or Concentra.
