Career Highlights:

IT and Network Operations

- Excelled at removing operational cost from the business.
 - Led first successful integration project between Level 3 Communications and Global Crossing. Integrated Global Change Request (GCR) tool with Configuration Management Database (CMDB), which had all Service, Application, Server and Database inventories. This allowed for more accurate GCRs and improved application availability.
 - Prepared and analyzed multiple key business cases for the Infrastructure organization. These required data collection from external vendors, requirements gathering from internal stakeholders and executive presentations.
 - Lead architect for a top 3 IT Production Support Ticketing initiative. Developed requirements to allow a TIER 3 team to quickly identify ticketing trends. This effort had a positive 3- month NPV and has helped remove thousands of production support tickets.
 - Negotiated business prices with 3rd party vendors to keep costs in line with business expectations.
 - Created an internal Administrative Operating Company Number (AOCN) for two different telecom entities allowing an internal change in process to save approximately \$100K annually.
- Excellent technical and process oriented skills.
 - Problem solving experience with Layer1 media types i.e. fast Ethernet/gigabit Ethernet, Layer 2 encapsulations i.e. ISDN, T1/DS3, Frame Relay, and layer 3 protocols i.e. RIP, EIGRP, OSPF.
 - Process development experience for routing and costing, LERG/LNP, production support and billing environments.
 - Facilitated and directed daily corporate GCR process for an IT organization of 800 people with 500 GCRs on a monthly basis.
 - Designed and implemented Local Number Portability (LNP) application portal and TN inventory system. This effort allowed for TN provisioning directly to the switch.

Professional Experience:

Level 3 Communications: 10/08 – 10/12

Software Engineer - Principal.

- Managed GCR process enhancements, tool enhancements, and daily operational activities.
- Designed and delivered Production Support ticketing process and tool improvements. Operational savings of approximately \$150K annually.
- Maintained routing and costing configurations for TEOCO-Vero and TRAC applications. Extensive experience with local voice, SIP, and Toll Free routing solutions.
- Volunteered to present the first application overview for the Enhanced Local Service (ELS) product to the IT organization. This effort required cross organizational collaboration to illustrate the multiple operational systems required to enable service.
- Volunteered to manage Network Data Manager (NDM) process and team. After I reviewed the Sterling Communications contract, we were able to yield a \$40K annual savings.
- Initiated skip level mentoring with multiple executives to focus on communication and presentation skills. This allowed me to get consistent and immediate feedback from our CIO.

Jackie King

Board Name Commission for People with Disabilities

Jackie King graduated from California State University at Northridge with her Master's degree in Special Education and moved to Denver in 1979 to accept a position with the Community College of Denver as Interpreter and Tutor Manager at Red Rocks, Auraria and Aurora campuses.

When the Community College of Denver broke up into four separate colleges, she accepted a similar position with the downtown Auraria campus and has been there ever since. She served as the manager for the Center for Persons with Disabilities until 2000, taught mathematics there full time until the opportunity came up to move into Student Life.

She leads bird watching field trips and bird counts for the Denver Field Ornithologists and plays piano and leads the singing at Our Lady of Grace Catholic Church.

She has been involved with education all of her working career and is passionate about seeing every person have the opportunity to obtain the education he or she wants and needs to be successful in life. Life is all about opening doors, sharing experiences and working together to improve and sustain the wonderful life we share with all of God's creatures.

SUMMARY OF QUALIFICATIONS:

- Experience with and a strong understanding of the major considerations related to working with diverse individuals and disadvantaged populations (disabled, elderly, homeless, at-risk youth, ex-offenders, GBLT, veterans, refugees and the disenfranchised).
- Consultative sales style across all levels of an organization. Exceptional ability to connect with employers, develop partnerships and deliver win/win solutions that contribute to establishing sustainable employment programs. Creative negotiating abilities make me a solution-closer. I am a positive competitor, tenacious at follow-up and thorough in my justifications.
- Proven track record of leading and motivating teams to achieve goals in the public, private and non-profit sectors. Excellent fund-raising skills. IPO, start-up and capital market experience.
- Superb presentation skills. Persuasive and clear communicator with excellent written, verbal and interpersonal communication skills. Comprehensive ability to identify funding opportunities, analyze research data, position pre-bids, respond to RFP/RFI releases, and write successful grant proposals.
- Excellent organizational skills and proven ability to manage multiple projects, deadlines and challenging resource issues without sacrificing quality or attention to detail. Work well in fast-paced, demand-driven and goal-oriented environments.
- Skilled in using web-based databases, computers and software applications, including Microsoft Office (Excel, Word, Outlook, PowerPoint) and social media. Familiar with most client management systems.
- A high-energy, results-driven team player with a positive attitude who is willing to lead, follow or get out of the way. I thrive on collaboration and exude a can-do attitude. I have a good sense of humor and a deep passion for helping those less fortunate than I.

PROFESSIONAL EXPERIENCE
