Re: Rezoning Application for 17671–17675 East 64th Avenue for United Airlines Flight Training Center Expansion

Dear Members of the Denver City Council,

Boys & Girls Clubs of Metro Denver would like to submit this letter in support of United Airlines' rezoning application for the property at 17671–17675 East 64th Avenue and the expansion of its Denver Flight Training Center. Our organization is dedicated to providing a safe, supportive environment where young people can learn, grow and develop the skills needed to reach their full potential. This proposed development sits near communities where many of the youth and families we serve live, and we recognize the importance of continued investment in Far Northeast Denver.

Through our partnership with United Airlines, we have worked together to provide meaningful opportunities for youth through volunteer engagement, career exploration and educational programming. United employees have consistently demonstrated a commitment to supporting local young people, helping them broaden their horizons and gain exposure to future career pathways. These experiences play an important role in preparing the next generation for success in school, work and life.

The expansion of the Denver Flight Training Center represents a significant opportunity to bring continued economic investment, job creation and workforce development to the region. In addition to its economic benefits, the project reinforces United's long-term commitment to the Denver community and creates opportunities for young people to learn about careers in aviation and other growing industries.

Boys & Girls Clubs of Metro Denver respectfully urges the City Council to approve the proposed rezoning.

Sincerely,

A handwritten signature in black ink that reads "Erin Porteous".

Re: Rezoning Application for 17671–17675 East 64th Avenue

Dear Members of the Denver City Council:

On behalf of Food Bank of the Rockies, I am writing to share information on United Airlines—a deeply valuable community partner— as you consider the rezoning United’s property at 17671–17675 East 64th Avenue to expand its Denver Flight Training Center.

Food Bank of the Rockies is the largest hunger-relief organization in the Rocky Mountain region, distributing tens of millions of meals each year across Colorado and Wyoming. A meaningful share of that work happens in far northeast Denver, including Montbello and Green Valley Ranch, that neighbor the proposed United campus. We see firsthand what corporate investment, stable employment, and engaged community partners mean for families in this part of the city.

United has been one of our most consistent partners through financial support of over \$650,000 since 2020 and volunteerism that has taken place for 72 consecutive months and counting. We support United’s work and future growth plans and are excited for those plans to include providing stable, well-paying jobs via its Denver Flight Training Center in an area of city where employment growth matters most.

Food Bank of the Rockies is grateful for United Airlines’ generous support and wishes them the best in the pursuit of a Denver Flight Training Center. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Erin Pulling". The signature is fluid and cursive.
