

Agenda

Surveillance Technology Taskforce Update

Overview of City process for onboarding and monitoring surveillance technologies

Flock contract

Surveillance Technology Taskforce

- ❖ Comprised of members from the City agencies, City Council, community partners, and subject matter experts
- ❖ The goal is twofold: Studying the current state of surveillance technology oversight and regulation in Denver *and* proposing new rules, regulations, and ordinances to strengthen our policies
- ❖ Progress report will be provided back at this committee in January

DPD Technology Acquisition

- ❖ Cyber Bureau evaluates technology – Works with other agencies, DPD teams, to establish efficacy and impact to operations. Aligned with strategic goals.
- ❖ TS Intake Process – Vendor Risk Assessment (VRA), TAR (Technical Architecture Review), etc...
- ❖ Competitive Process / Purchasing Rules
- ❖ Contracting
- ❖ Policy
- ❖ Implementation and Sustainment

Vendor Risk Assessments

Identification of risk and potential mitigation

Need for additional requirements such as a data sharing agreement or contract vs. purchase order

Vendor Approval or Denial

Vendor Risk Assessments: AI & Privacy

CCD Data Lifecycle Overview

Data Collection

Data Use

Data Sharing

Data Retention

Data Storage & Security

Data Archival

Data Disposal

1. SCOPE & USE

2. RISK & IMPACT

**3. GOVERNANCE
& OVERSIGHT**

DPD Policy Controls

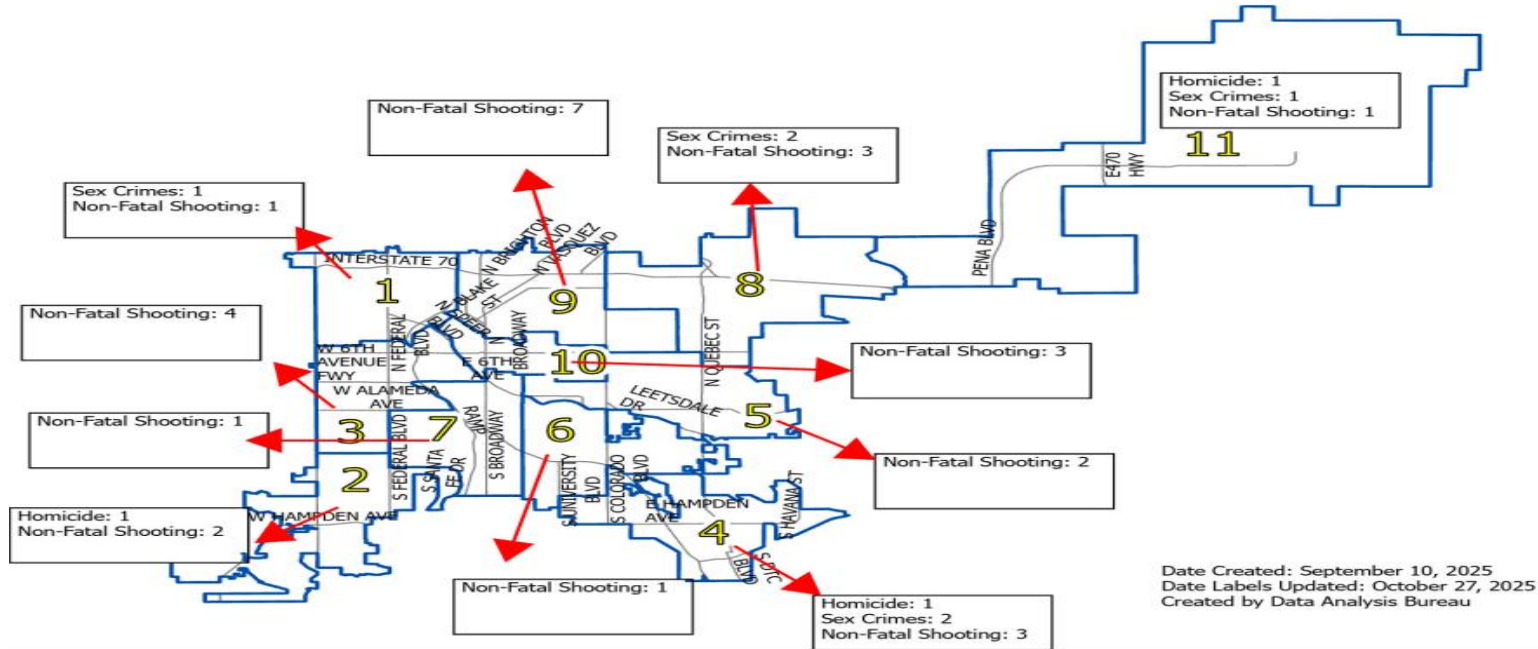

- ❖ DPD OMS 119.00 – Operations Technology
- ❖ Publicly accessible
- ❖ Defines technology objective, appropriate use, data governance, auditing
- ❖ Policy created based upon legal review by CAO and review of policies from other law enforcement organizations, agencies, including IACP for best practices.

Flock Safety Update

- ❖ Limited access only to the Denver Police Department with future access to certain metro area law enforcement if they agree to comply with mutual MOU which will require, among other things, that no federal agencies or agents will have access to the Flock system or data.
- ❖ Instituted a drop-down menu of limited search reasons that is restricted to certain local and state crimes to ensure reason for search appropriately documented
- ❖ A \$100,000 penalty payable by Flock for any improper disclosure of Denver's data
- ❖ Automatic opt-out of new programs or technologies until we review and expressly agree

Flock' Impact on Public Safety

Notable Violent Crimes by Council District Reported in Denver Solved due to FLOCK
January 1st, 2024 through September 9th, 2025

Chief Thomas: Everybody Counts

- Denver's homicide clearance rate rose from **79% to 87%**.
- **9 homicide arrests** aided by Flock during June 2024-September 2025.
- Unsolved murders drive cycles of violence and erode trust in government

“Failing to solve homicide cases violates our fundamental sense of trust, justice, and fairness in our communities and in our criminal-justice systems.”

CSU criminologist Dr. Unnithan

- *“Everybody counts or nobody counts.” – Michael Bosch*
