**Addressing
Housing
Needs
required
multiple
tools and
approaches**

Complementary HOST Programs:

- Preservation of least **950 affordable homes** by 2026 (at least 216 this year)
- **Prioritization policy** effort will provide priority access to affordable housing for residents at risk of displacement or those who have been previously displaced

Juanita Nolasco residences 188 affordable units preserved for seniors

The city is proposing a new requirement that would ensure that **as new housing is built, new affordable housing is created too.**

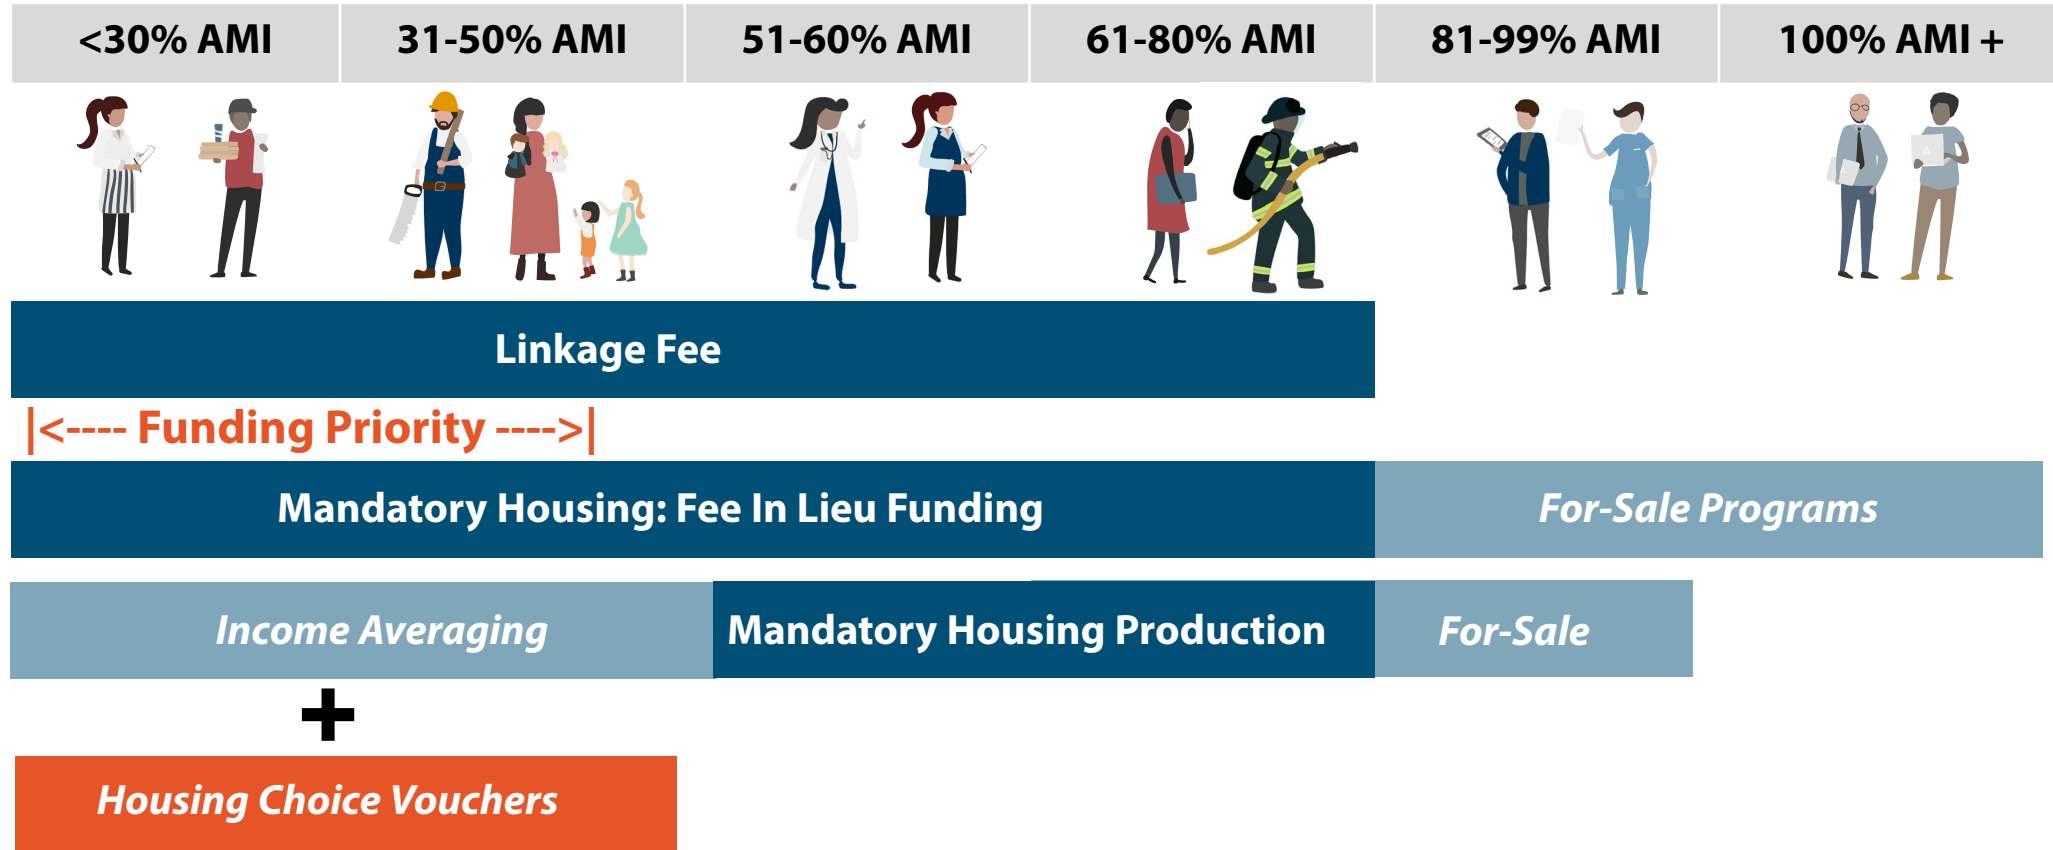

This will be done through the creation of a **Mandatory Housing Program** with **Incentives** and a **Linkage Fee** update.

EHA
complements
existing
programs &
resources &
serve a range
of incomes

Mandatory affordable housing and linkage fees...

- Increase **supply of housing overall** and **affordable housing** without out the use of limited subsidy
- **Create mixed-income housing** across the City
- **Maintain critical local funding source** for HOST investments in the creation of deeply affordable housing

EHA serves a broad range of incomes

38th and Blake Overview

Existing Zoning

- C-MX-3, -5, -8, -12
- I-MX-3, -5, -8
- Overlays (all areas)
 - IO-1 (Incentive Overlay)
 - DO-7 (Design Overlay)
- Overlays (some areas)
 - UO-1 (Adult Use)
 - UO-2 (Billboard)

38th & Blake Today

- 38th & Blake Station Area Incentive Overlay (IO-1) enables additional height in exchange for affordable housing, fees, or community uses
- Maximum incentive heights today range between 5 and 16 stories (12 stories is most common)
- Many projects do not provide any affordable units (no requirement if within base height)
- Projects that use incentive height provide 2% to 5% affordable units at 80% AMI

38th & Blake Tomorrow

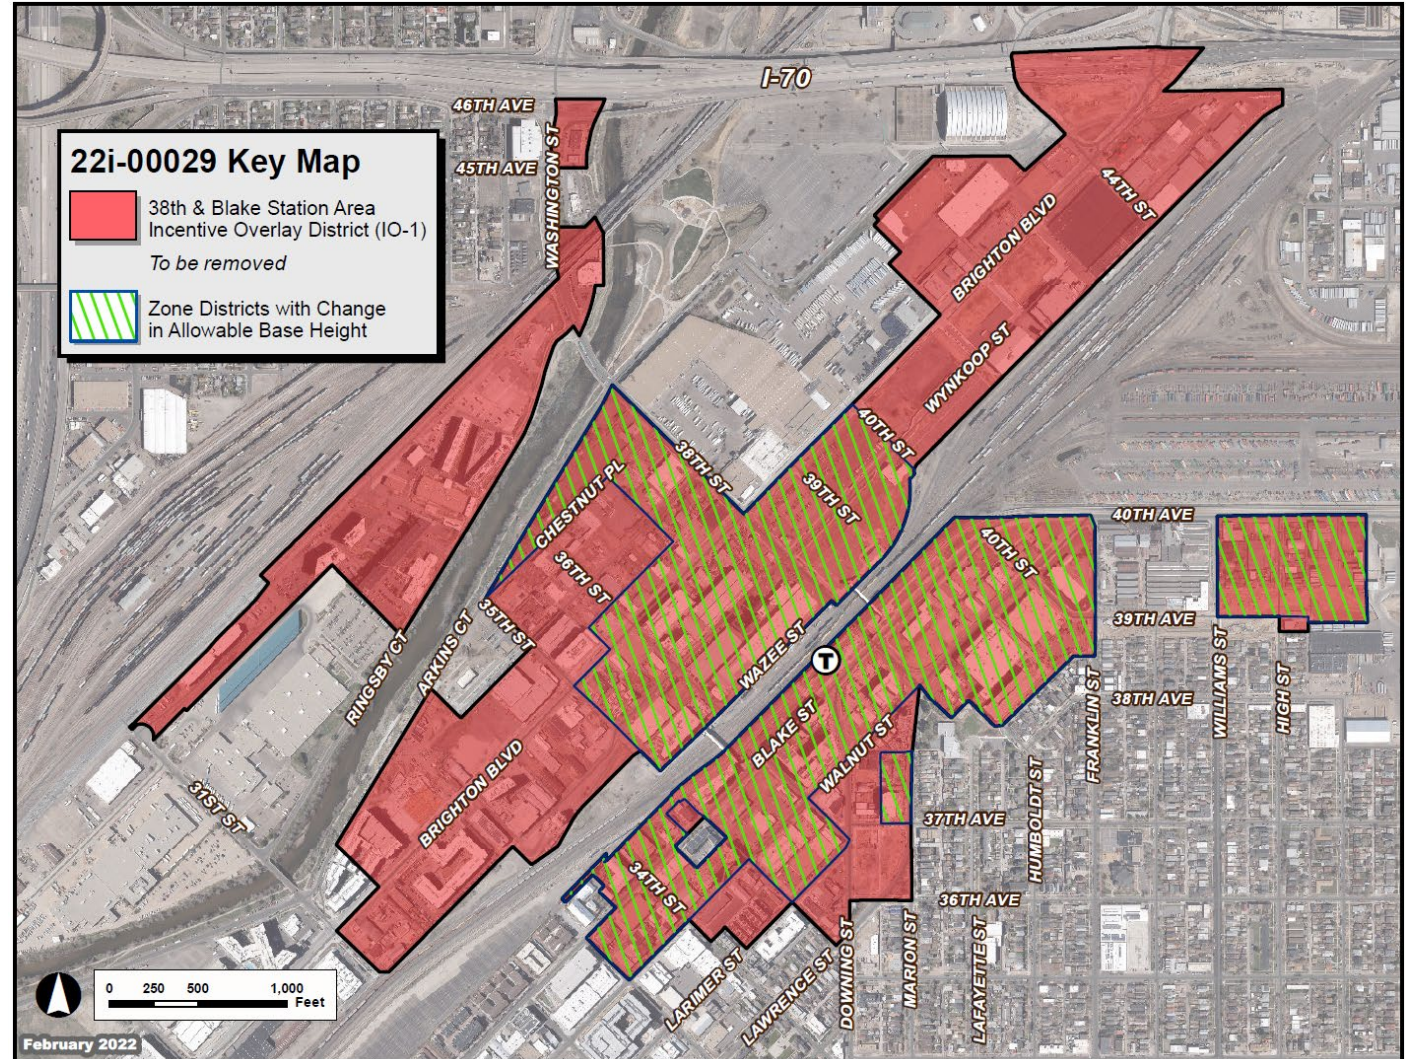

- Require **all** residential projects of 10 units or more to provide affordable housing (base or incentive)
- Create **2 to 4 times** more affordable housing units at **lower AMI levels**
- Be consistent with citywide EHA requirements and eliminate the need for custom administration

38th & Blake Tomorrow (cont.)

To achieve this:

- Remove current overlay
- Increase base heights in some locations (no change in most areas)
- Maximum heights remain the same

Why are base heights being adjusted?

- Incentive heights proposed by EHA are less than current IO-1
- Adjustments to base height are needed to maintain current incentive heights recommended in adopted plans

Addressing Anti-Displacement

Fee-In-Lieu Funds collected in neighborhoods identified as Vulnerable to Displacement will be prioritized for spending in these areas towards affordable housing creation and preservation

Mandatory Housing: Alternative Compliance

Ownership	\$478,000	\$408,000 - All other developments \$250,000 - Townhome Developments

Negotiated Alternatives

- In limited circumstances, a better outcome may be achieved through a negotiated agreement
 - Applicant must demonstrate how alternative better meets the goals of HOST's Strategic Plan, Comprehensive Plan, Blueprint Denver, Small Area Plans, as they relate to housing
 - Must be reviewed and approved by HOST and recorded prior to permit
- Examples:
 - Dedication of land for affordable housing (*value & zoning thresholds*)
 - Fewer affordable units but at lower AMIs (*in no case <5% of units*)
 - Fewer affordable units but with larger formats (*in no case <5% of units*)
 - Off-site development in close proximity (*~2x affordable units required*)

High-Impact Developments

Developments of a certain scale require more tailored solutions

- 10+ Acres OR
- Leveraging a financing tool (TIF, Met District, etc.)
- Requirements:
 - Must meet or exceed citywide MAH & Linkage Fee Standards
 - Must provide documentation of:
 - Detailed community outreach efforts, including orgs & individuals
