**Exhibit A-3: Scope of Work and Rates**  
**DENVER COLORADO AIDS PROJECT**

**I. Introduction**

The City & County of Denver (City) enacted an ordinance in 1997, Article V of Chapter 24 of the Denver Revised Municipal Code Section 24-157, allowing for the establishment of Syringe Access Programs (SAPs), with oversight from the Denver Department of Public Health & Environment (DDPHE). This ordinance was amended in 2013.

SAPs are evidence-based and cost-effective programs which reduce the transmission of blood-born infectious diseases such as Human Immunodeficiency Virus (HIV) and Hepatitis C Virus (HCV), as well as meet people where they are in terms of their substance use and recovery goals. SAPs serve as non-stigmatizing venues for people who use drugs to discuss their substance use openly and honestly, and provide additional support services, including linkage to social services, testing, and treatment. This is accomplished through education, referral to services, and prevention services provided by registered SAPs.

**II. Scope**

**Denver Colorado AIDS Project's** SAP will operate according to the City's Rules and Regulations Governing Syringe Access and Treatment Referral Programs (Rules & Regulations), updated February 7, 2019. **Denver Colorado AIDS Project** intends to serve **1,400** people who inject drugs (PWID) from January 1, 2022 through December 31, 2022. As a registered SAP receiving funds from the City, **Denver Colorado AIDS Project's** SAP will provide the following services, either directly or through referral, to participants free of charge:

- Syringe and other sterile injection-related supplies;
- Education on safer injection practices and vein care;
- Syringe disposal and education on syringe disposal practices and locations;
- Overdose prevention, education, recognition and response, and distribution of naloxone;
- HIV/STIs/HCV testing and sexual health resources; and
- Social support and healthcare services such as case management, substance use treatment, food banks, behavioral health services, primary care, HCV/HIV/STI treatment, Hepatitis A and B vaccinations, Pre-Exposure Prophylaxis, and wound care.

Additional services to be provided may include:

- Education regarding legal rights under CRS 25-1-520 and section 18-18- 428(1)(b) that encourages participants to always disclose their possession of hypodermic needles or syringes to peace officers, emergency medical technicians, or other first responders prior to a search;
- Provision of other harm reduction supplies; and
- Participation in syringe clean-up actions in and around the neighboring community where the facility is located, including clean-up efforts in the City as a part of a larger

city- wide effort.

**Denver Colorado AIDS Project** will:

- Participate in semi-annual meetings with the contract monitor, and semi-annual meetings with the contract monitor and other City-funded SAPs in Denver;
- Participate in regular (monthly) communication initiated by the contract monitor via email;
- Submit complete quarterly reports to the contract monitor within 30 days of the end of the quarter; and
- Coordinate with the contract monitor to schedule annual site visits.

**III. Reporting Requirements**

**Denver Colorado AIDS Project** will provide quantitative and qualitative data quarterly as set forth in the Rules & Regulations to DDPHE within 30 days of the end of each quarter. The purpose of the reporting requirements is to ensure contractual compliance and fidelity to program design. DDPHE will review the reports within one week of the due date and will respond to **Denver Colorado AIDS Project** with any questions, comments, or follow up identified. DDPHE may request other data as needed to assess need for services, and evaluate program performance. If DDPHE requests additional data, DDPHE will provide **Denver Colorado AIDS Project** with five days' notice of the request and **Denver Colorado AIDS Project** will provide the requested data within 30 calendar days of receiving notice. **Denver Colorado AIDS Project** will submit annual key performance indicator (KPI) goals to DDPHE by 1/31/22, or within one month of contract execution, whichever is later. These KPIs will be incorporated into quarterly reports to show progress toward goals.

DDPHE will provide:

- data shells and report template for submission;
- data definitions;
- support/technical assistance to improve data collection;
- meeting scheduling; and
- monthly communication to SAPs.

Data shells will be provided at the beginning of the year with data definitions, and may be revised as needed.

The table below indicates the due dates for progress reports and KPI development.

<b>Reporting Requirement</b>	<b>Due Date</b>
Annual KPI Goals	1/31 of new contract year, or one month after contract execution
Quarter 1 Progress Report	April 30 <sup>th</sup>

Quarter 2 Progress Report	July 30 <sup>st</sup>
Quarter 3 Progress Report	October 30 <sup>st</sup>
Quarter 4 Progress Report	January 30 <sup>st</sup> of following year
Other DDPHE data requests	Within 30 days of request

#### **IV. Monitoring Activities & Site Inspections**

##### **a. DDPHE Site Visits:**

**Policy:** DDPHE will conduct annual site visits of City-funded SAPs. Two site visits will occur, the first will be at the beginning of a new contract period to review contract term, goals, expectations, reporting requirements, and other program documents. The second site visit will occur later in the year at a mutually agreeable time to observe SAP practices.

**Purpose:** The purpose of conducting a site visit is to ensure that contractors are aware of all contractual requirements and expectations, and to evaluate progress toward contract goals and compliance with contract terms, as well as identify additional needs for technical assistance or other support.

**Noncompliance:** If DDPHE identifies any compliance concerns, DDPHE will communicate directly with **Denver Colorado AIDS Project** to remedy the issue.

##### **b. Evaluation:**

SAPs receiving funding from the City will work with DDPHE to determine key performance indicators to be used by all funded SAPs. Individual SAPs may add agency-specific KPIs as outlined in their SAP evaluation plan.

##### **c. Denver-wide Evaluation Plan:**

DDPHE may ask SAPs to provide input to DDPHE on an evaluation plan to assess need for substance use prevention, harm reduction, treatment, and recovery services in Denver and evaluate syringe services programming.

#### **V. Public & Participant Complaints**

##### **a. Community & Behavioral Health**

If DDPHE receives a complaint, DDPHE will work collaboratively with the SAP to find a resolution to the complaint. All steps taken shall be documented and maintained on file.

#### **VI. Relocation of Contractor Premises**

DDPHE will require **Denver Colorado AIDS Project** to notify the registered neighborhood organizations within the boundaries of its intended new location to make them aware of the services provided, including documentation of the meeting, such as decisions made and attendees, as available. **Denver Colorado AIDS Project** will notify DDPHE two months prior to the move
