### 5. General description or background of proposed request. Attach executive summary if more space needed:

In 2019, the City and County of Denver issued a RFP to provide professional services to assist in the planning, development, operation, and execution of Denver Smart City projects. This included technology development and deployment, data analysis, and strategic development and planning that focused on sustainability, mobility, access, resilience, and transparency.

Due to the success of the Denver Smart City program and term limits of the previous on-call contracts, the Department of Transportation and Infrastructure issued a RFQ (202476214) seeking consultants that specialize in Advanced Mobility initiatives. The RFQ issued was soliciting on-call services in six separate scope of work categories. Consultants were able to submit a proposal on a single category or multiple categories. The purpose of the six categories Advanced Mobility RFQ was to allow smaller, specialized vendors to compete for an on-call contract. The RFQ scope of work categories were the following:

- Category 1: Traffic Engineering/ Operations
- Category 2: Intelligent Transportation Systems (ITS)
- Category 3: Traffic Data Management
- Category 4: Traffic Signal and ITS Device Configuration and Deployment
- Category 5: Traffic Signs and Pavement Marking Inventory and Data Collection
- Category 6: Grants Project Management Support Services

DOTI awarded nine on-call contracts. This on-call contract with PARSONS TRANSPORTATION GROUP INC. will provide the following scope of work services:

- Category 1: Traffic Engineering/ Operations
- Category 2: Intelligent Transportation Systems (ITS)
- Category 3: Traffic Data Management
- Category 6: Grants Project Management Support Services
