5. General description or background of proposed request. Attach executive summary if more space needed:

This is an on-call contract that will allow Technology Services to engage with Slalom, a local Premier Technology Partner and recent awardee of the Smart Cities RFP, for professional services in the disciplines specific to the management and continued expansion of the City's Technology Initiatives.

The need for a strategic partner is based on the City's need to grow beyond its current technical state and capacity and for Technology Services become more proactive in completing strategic initiatives in addition to responding to tactical requests in certain areas. Completion of the initiatives supported through this contract will establish a stronger foundation for growing and maximizing services within the City such as the ongoing use and development of services and programs such as Salesforce, Adobe, digital experience and internal business processes.

Technology Services would like to continue to leverage key products, programs and processes to assist our customer agencies in responding to the ever-increasing demands from the citizens of Denver. These citizens are continually looking for their Government to adopt technologies, internally and externally, that are mobile, intuitive and make use of connected data and these products, programs and processes support that.

Technology Services' mission "To improve City performance" continues to be focused toward the provisioning of technology to our City agencies in a quick and efficient way. Technology Services strives to continue utilizing technology strategically and expand the City's capabilities to solve business problems and improve the delivery of services to citizens using modern, mobile and accessible means. This will come to fruition through leveraging new opportunities required to serve Denver's citizens as well as in modernizing, improving and replacing outdated and unsupported technology and applications. As a strategic partner, Slalom has capabilities in each of these areas, as well as many others, and increases Technology Services ability to serve these needs timely and efficiently.
