Dear Denver City Council,

Please approve landmark status for the Bitman-Hower House at 6400 E. Montview Boulevard in Park Hill at your upcoming hearing on January 25, 2021.

According to the email from *Historic Denver*, the house was designed by noted Denver architect J. Roger Musick in 1936 and is his only example of Spanish Eclectic Style. Other projects by Mr. Musick and his brother are the Colorado State Capitol annex, US Customs House, Lowry Air Force Base, and the Republic Building (pictured below). The Bitman-Hower House will be the first home to gain individual landmark status on Montview Boulevard.

Thank you for your consideration.

Respectfully,

Thomas P. Matthews, Jr.
Architect

Dear Council Members,

I urge you to support the historic designation of the handsome Bitman-Hower house. How wonderful that current the owners realize the benefits of doing this! May this designation inspire their neighbors on Montview Boulevard to do the same.

Thank you for your consideration.

Sincerely,

Arianthé C. Stettner
