REVIEW CRITERIA - NEXT TO EACH CRITERIO	AFFIRM THE PROPOSED ADU REZONING COMPLIES WITH THE CRITERIA BELOW BY CHECKING THE BOX ON
	Consistency with Adopted Plans: The proposed official map amendment is consistent with the City's adopted plans, or the proposed rezoning is necessary to provide land for a community need that was not anticipated at the time of adoption of the City's Plan.
General Review Crite- ria: The proposal must comply with all of the general review criteria. (Check box to the right to affirm) DZC Sec. 12.4.10.7	 Denver Comprehensive Plan 2040 The proposed map amendment is consistent with the strategies in the adopted Denver Comprehensive Plan 2040, including: Goal 2, Strategy A. Equitable, Affordable and Inclusive – "Create a greater mix of housing options in every neighborhood for all individuals and families" (p. 28). The proposed zone district allows for an additional dwelling unit that is accessory to the primary single-unit dwelling use. Accessory dwelling units can provide housing for individuals or families with different incomes, ages, and needs compatible with the single-unit neighborhoods. Goal 8, Strategy A. Environmentally Resilient - "Promote infill development where infrastructure and services are already in place" (p. 54). The proposed map amendment will allow an additional housing unit on the site of an existing home where infrastructure and services such as water, stormwater, and streets already exist. This allows Denver to grow responsibly and promotes land conservation. Blueprint Denver The proposed map amendment is consistent with the applicable neighborhood context, places, street type, and strategies in Blueprint Denver, including: Policy 4, Strategy E - Diversify housing choice through the expansion of accessory dwelling units throughout all residential areas. Neighborhood/ Small Area Plan (list all, if applicable): East Area Plan
General Review Crite- ria: The proposal must comply with all of the general review criteria.	 Uniformity of District Regulations and Restrictions: The proposed official map amendment results in regulations and restrictions that are uniform for each kind of building throughout each district having the same classification and bearing the same symbol or designation on the official map, but the regulations in one district may differ from those in other districts. Public Health, Safety and General Welfare: The proposed official map amendment furthers the public
(Check boxes to affirm) DZC Sec. 12.4.10.7	 Public Health, Safety and General Welfare: The proposed official map amendment furthers the public health, safety, and general welfare of the City. The proposed map amendment furthers the public health, safety, and general welfare of the city through implementation of the city's adopted plan, including Blueprint Denver which recommends "the expansion of accessory dwelling units throughout all residential areas" (<i>Blueprint Denver</i>, p. 84).

REZONING GUIDE

ADU Rezoning Application Page 3 of 4

Additional Review Cri- teria for Non-Legislative Rezonings: The proposal must comply with both of the additional review criteria. (Check boxes to affirm.) DZC Sec. 12.4.10.8	 Justifying Circumstances - One of the following circumstances exists: Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such change may include: a. Changed or changing conditions in a particular area, or in the city generally; or, b. A City adopted plan; or c. That the City adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning. The proposed map amendment application identifies the adoption of <i>Blueprint Denver</i> as the Justifying Circumstance. As discussed above, <i>Blueprint Denver</i> specifically recommends the city diversify housing choice through the expansion of accessory dwelling units throughout all residential areas. The plan was adopted after the date of approval of the existing zone districts. Therefore, this is an appropriate justifying circumstance for the proposed rezoning. Image the proposed official map amendment is consistent with the description of the applicable neighborhood context, and with the stated purpose and intent of the proposed Zone District. The proposed map amendment is consistent with the neighborhood context description, stated purpose and intent of the proposed <u>E-SU-D1X</u> Zone District.

EXHIBIT B

Description of Consistency with Adopted City Plans

20211-00152

Exhibit B

Statement of Compliance with General Review Criteria (DZC § 12.4.10.7)

This application proposes to rezone the approximately 0.25-acre properties located at 901 North Kearney Street from E-SU-DX to E-SU-D1X (the "Property") to facilitate use of the Property that is consistent with the recommendations in the adopted Plans.

The Property is located in the Montclair neighborhood on the north side of East 9th Avenue, West of North Kearney Street. Today the Property is zoned E-SU-DX a residential zone district allowing urban houses with a minimum zone lot area of 3,000 square feet. Existing context surrounding the Property include: E-SU-DX, E-MX-2, and G-MU-5, UO-3. Located within ½ mile RTD transit route 65 along Monaco and route 6 on 6th avenue and within a mile of Colfax Avenue a Blueprint Denver designated High-Capacity Transit Corridor. There are dedicated bike lanes within a ¼ mile on Ivanhoe street, Krameria street, Monaco parkway, and 7th avenue. Denver as a city has been experiencing exponential growth, these changes have resulted in the need to rezone the Property to meet community wants and needs.

The map amendment requests to rezone the Property to the E-SU-D1x Zone District. This zone district is a single unit district that would allow the Property to have an accessory dwelling unit (ADU). This zoning is otherwise identical to the zoning today. The successful rezoning will blend in with, support, and sustain the existing residential character of the neighborhood. The proposed map amendment would enable modest growth in an appropriate scale and form while diversifying the housing stock that the City needs.

REVIEW CRITERION DZC § 12.4.10.7. A – Consistency with Adopted Plans: The proposed official map amendment is consistent with the City's adopted plans.

This proposed map amendment is consistent with the Denver Comprehensive Plan 2040, Blueprint Denver (2019), Housing an Inclusive Denver (2018), and East Area Plan (2020).

The proposed map amendment is consistent with many objectives of Denver Comprehensive Plan 2040 including:

Equitable, Affordable and Inclusive –Goal 2, Strategy A: Create greater mix of housing options in every neighborhood for all individuals and families (pg. 28).

<u>Equitable</u>, Affordable and Inclusive –Goal 3, Strategy B: Use land use regulations to enable and encourage the private development of affordable, missing middle and mixed-income housing, especially where close to transit (pg. 28).

<u>Strong and Authentic Neighborhoods</u> –Goal 1, *Strategy B: Ensure neighborhoods offer a mix of housing types and services for a diverse population* (p.34).

<u>Strong and Authentic Neighborhoods</u> Goal 1, Strategy D –Encourage quality infill development that is consistent with the surrounding neighborhoods and offers opportunities for increased amenities (p.34).

Environmentally Resilient Goal 8, Strategy A – Promote infill development where

20211-00152

infrastructure and services are already in place (p.54).

The proposed E-SU-D1X zone district allows for an additional dwelling unit that is accessory to the primary single-family use and introduces a new housing type to a largely single-family neighborhood. Accessory dwelling units can provide housing for individuals or families with different incomes, ages, and needs than the single-family homes that are found in much of the Montclair neighborhood. The proposed E-SU-D1X zoning would allow development at an intensity consistent with the surrounding neighborhood that would increase the diversity and supply of housing in the area. In addition, the proposed map amendment would allow additional building forms compatible with the existing neighborhood. The proposed map amendment will allow additional building forms compatible with the site of an existing home where infrastructure and services such as water, stormwater, and streets already exist. This allows Denver to grow responsibly and promotes land conservation. The proposed map amendment is in an area where services and amenities are already in place north of Kearney between 13th and Colfax avenue and focuses growth close to a High-Capacity Transit Corridor – Colfax avenue. Therefore, the proposal is consistent with multiple strategies of the vision elements in *Comprehensive Plan 2040*.

The proposed map amendment is consistent with the objectives of Blueprint Denver 2019 including:

The **Blueprint Denver** *Place* designation for the subject property is *Low Residential* in an *Urban Edge* neighborhood context.

Urban Edge neighborhoods are described as:

"The urban edge context areas are predominately residential and tend to act as a transition between urban and suburban areas. Homes in this context are typically low-scale single- and two-unit residential with some small scale multi-unit residential. Commercial and mixed-use development in this context tends to be found along the main corridors bordering traditional residential areas, with some larger center development." (BPD pg. 205)

Urban Low Residential Land use and Built Form:

"Predominately single- and two-unit uses on small or medium lots. **Accessory dwelling units and duplexes are appropriate** and can be thoughtfully integrated where compatible. Some civic and institutional uses are compatibly integrated throughout and limited mixed-use can occur along arterial and collector streets, as well as where commercial uses have been already established. Vacant institutional uses on corners or select sites may be appropriate locations to introduce additional residential intensity. Low to medium buildings coverage. Building are generally up to 2.5 stories in height." (BPD pg. 215)

Growth Strategy for this area is designated as: **All other areas of the city:** 10% of new jobs and 20% of new households.

Street Type for the Property is designated as:

Local: *"Local streets can vary in their land uses and are found in all neighborhood contexts. They are most often characterized by residential uses." (BPD pg. 160)*

The proposed E-SU-D1X zone district is an appropriate district that compliments the characteristics of Urban Edge neighborhoods and complies with the vision of a Low Residential area. It will appeal to the desired single-unit uses while introducing modest density through the allowance of an ADU. This zoning is otherwise identical to the zoning today. This zone district appeals to the City's growth strategy,

allowing the development of an ADU is a low-intensity approach that will add to the housing stock. This zone district complies with the local street type and character through its residential uses. In addition, the multiple RTD bus routes nearby along with bike friendly routes and dedicated lanes, makes the Property an excellent multi modal accessible location ensuring that residents have access to transit and amenities.

Blueprint Denver Recommendations – Land Use and Built Form: Housing:

4. Diversify housing choice through the expansion of accessory dwelling units throughout all residential areas. (BPD pg. 82)

Study and implement allowances for ADUs – including those attached and detached from the primary home – in all neighborhood contexts and residential zone districts"

"A citywide approach to enable ADUs is preferred. Until a holistic approach is in place individual rezonings to enable ADUs in all residential areas, especially where adjacent to transit, are appropriate. Unless there is a neighborhood plan supporting ADUs, rezonings should be small in area in order to minimize impacts to the surrounding residential area."

The proposed E-SU-D1X zone district directly addresses the recommendations in Blueprint Denver. It adds to and diversifies the housing stock. The zoning standards within the E-SU-D1X zone district allow a low-scale accessory dwelling unit structure that will be compatible with the existing residential area, and consistent with the Blueprint Denver Urban context.

An Equitable City:

"While all of the vision elements are essential to Blueprint Denver, equity is especially important to the community. In recent years, Denver's economic strength and population growth have benefited many, but not all. Today Blueprint Denver is integrating equity into planning in ways that Blueprint Denver 2002 did not. Without accounting and adjusting for important equity considerations, the forces of change acting on our city will prevent it from achieving its vision for inclusive, complete neighborhoods." (BPD pg. 30)

Equity Concept: Expanding Housing and Jobs Diversity - *providing a better and more inclusive range of housing and employment options in all neighborhoods.*

The Importance of Housing and Jobs Diversity

"The vision of an inclusive Denver relies on a diverse range of residents, businesses and employees. Areas that become too homogeneous and exclusive threaten that vision by reducing or eliminating choice for anyone but the most affluent and privileged. A lack of housing options at various sizes and prices often means certain populations—including families, the elderly and people with disabilities—are not able to live in neighborhoods of their choice. Increasing the range of housing and job options will also advance the important goal to maintain and increase racial, ethnic and socioeconomic diversity in Denver's neighborhoods. Certain housing types, such as attainable homeownership, can help build wealth and improve economic mobility for Denver residents.

It is the desire of many residents and stakeholders for all neighborhoods to accommodate some level of growth and to incorporate a greater variety of housing and employment options. If done right, this can enable more inclusive and diverse communities." (BPD pg. 40)

The E-SU-D1X zone district will open the property to allow an ADU, which is not offered in the current zone district. While zoning predominantly addresses land uses and building form, it is important to

understand the relationship between a property's zoning and how its uses effects the community in both character and accessibility to basic needs such as housing and employment. This includes accessibility to amenities such as transit, parks/open space, healthcare, walkability/ bike-ability to a local center, local corridor, community corridor and regional center from the future places map. This zone district would allow for a low-intensity development in an appropriate location. It will modestly introduce a new housing option in an area that is predominantly single-unit homes. It is valuable to the neighborhood and the City that a E-SU-D1X zoning introduces more housing opportunities to the area than what is offed in the zoning today.

The proposed map amendment is consistent with the objectives of Housing an Inclusive Denver (2018) including:

Legislative and Regulatory Priorities:

Recommendation 2: *Expand and strengthen land-use regulations for affordable and mixed-income housing.*

- "Through Blueprint Denver and supplemental implementation actions such as zoning modifications, the City should support land-use regulations that incentivize affordable and mixed-use housing, including expanding the development of accessory dwelling units." (HAID pg. 9)
- Key Actions: Encourage development of a mix of residential development types throughout Denver neighborhoods that provide residents with a diversity of housing choices (including price, size, and tenure of housing options) through specific zoning and land use recommendations in Blueprint Denver. (HAID pg. 50)

The proposed rezoning to E-SU-D1X is consistent with the recommendations of the Housing an Inclusive Denver Plan. The allowance for an accessory dwelling unit will add to the mix of residential housing types in the area that is in character with the neighborhood. It will conform with the neighborhood context, building height and zone lot size recommendations in the existing zoning.

The proposed map amendment is consistent with the objectives of the East Area Plan (2020) including:

Land Use and Built Form Recommendations:

L6: "Ensure East Area neighborhoods are inclusive places by thoughtfully integrating compatiblydesigned missing middle housing and accessory dwelling units (ADUs) in appropriate locations."

- D. Implement adopted citywide policies in Blueprint Denver to diversify housing choice through expansion of ADUs throughout all residential areas while also addressing contextsensitive ADU design and removing barriers to ADU construction.
 - 1. While missing middle housing (2-4 units) should be integrated into appropriate locations, ADUs should be allowed on all lots.
 - 2. Until a citywide ADU approach is complete, consider neighborhood-wide rezonings to allow ADUs. (EAP pg.39)

South Park Hill Recommendations – Land Use:

PH-L1 Prioritize land use policies that aim to maintain character in South Park Hill residential areas.

B. Integrate accessory dwelling units and missing middle housing in appropriate locations (EAP pg. 215)

PH-E2 See POLICY E4: Expand diversity of housing types and affordability to support households of different sizes, ages, and incomes in all neighborhoods.

A. Integrate ADUs and missing middle housing in appropriate locations. (EAP pg.216)

The proposed rezoning to E-SU-D1X is consistent with the recommendations of the East Area Plan. The East Area Plan identifies the Property as an "appropriate location" for an ADU. The integration of accessory dwelling units will address the missing middle housing while allowing for development that is in character with the neighborhood. The East Area Plan further supports the recommendations of Blueprint Denver that encourage the developments of ADUs as a low-intensity approach to diversifying the housing stock.

REVIEW CRITERION DZC § 12.4.10.7.B – Uniformity of District Regulations and Restrictions: The proposed official map amendment results in regulations and restrictions that are uniform for each kind of building throughout each district having the same classification and bearing the same symbol or designation on the official map, but the regulations in one district may differ from those in other districts.

Future development of the Property will result in uniformity of E-SU-D1X district regulations and restrictions.

REVIEW CRITERION DZC § 12.4.10.7.C – Public Health, Safety and General Welfare: The proposed official map amendment furthers the public health, safety, and general welfare of the City.

The proposed map amendment will further the public health, safety, and general welfare of the City by facilitating the improvement and development of the Property as desired by the City's adopted plan.

EXHIBIT C

Description of Justifying Circumstances and Neighborhood Context

20211-00152

Exhibit C

Statement of Compliance of Additional Review Criteria for Non-Legislative Rezonings (DZC § 12.10.8)

CRITERION DZC § 12.4.10.8.A - Justifying Circumstances - One of the following circumstances exists:

"Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such change may include: Changed or changing conditions in a particular area, or in the city generally; or a city adopted plan; or that the city adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning."

Justifying circumstances for rezoning 901 N Kearney Street include:

- 1. Changed or changing conditions in a particular area, or in the city generally
- 2. A city adopted plan

The .25 acre Property is in a residentially dense neighborhood consisting of predominantly single unit homes. In Denver, hundreds of new housing units have been delivered in recent years and more are on the way. This growing population has called for not only an increase of housing units but for a variety of housing options as well. As an Urban Edge Residential neighborhood immediately outside of downtown, this area will continue to be a desirable neighborhood to live in and will need to be able to provide options for the diverse population.

The adoption of Blueprint Denver in 2019 has introduced new land use recommendations and strategies to address Denver's growing population. Blueprint specifically recommends diversifying the housing stock through the allowance of accessory dwelling units throughout all residential areas. Blueprint Denver also recommends adding additional housing in areas near transit, services, and amenities.

CRITERION DZC § 12.4.10.8.B – The proposed official map amendment is consistent with the description of the applicable neighborhood context, and with the stated purpose and intent of the proposed Zone District.

E-SU-D1X is a single unit district in the Urban Edge neighborhood context and which is characterized by the Denver Zoning Code as "a mix of elements from both the Urban and Suburban Neighborhood Contexts. The Urban Edge Neighborhood Context is primarily single-unit and two-unit residential uses. Small-scale multi-unit residential uses and commercial areas are typically embedded in residential areas. Single-unit residential structures are typically the Urban House and Suburban House building forms." (DZC 4.1.1). The proposed map amendment is consistent with surrounding building forms and is appropriate for the street type the Property is located on, therefore in character to the Urban Edge neighborhood context.

This general purpose of this residential district is to "to promote and protect residential neighborhoods within the character of the Urban Edge Neighborhood Context. These regulations allow for some multiunit districts, but not to such an extent as to detract from the overall image and character of the residential neighborhood. The building form standards, design standards, and uses work together to promote desirable residential areas. The regulations provide certainty to property owners, developers, and neighborhoods about the limits of what is allowed in a residentially-zoned area. These regulations are also intended to reinforce desired development patterns in existing neighborhoods while accommodating reinvestment." (DZC 4.2.2.1). The specific intent of the E-SU-D1X zone district is "a

single unit district allowing suburban houses, urban houses and detached accessory dwelling units with a minimum zone lot area of 6,000 square feet. Setbacks and lot coverage standards accommodate front and side yards similar to E-SU-Dx and allow a detached accessory dwelling unit in the rear yard." (DZC 4.2.2.2). This ensures new development that contributes positively to established character of the neighborhood.

Today, the immediate neighborhood context around the Property is residential zoning. The proposed E-SU-D1X zone district of the Property will further embrace the residential character of the Montclair neighborhood through modest density. It will uphold the purpose of a residential district in an Urban Edge neighborhood context by reinforcing the desired development patterns while accommodating reinvestment.

The proposed official map amendment is consistent with the description of the applicable neighborhood context, and with the stated purpose and intent of the proposed Zone District.
