DATE: February 28, 2022
RE: Official Zoning Map Amendment Application #2021I-00160

Staff Report and Recommendation

Based on the criteria for review in the Denver Zoning Code, Staff recommends City Council approve Application #2021I-00160.

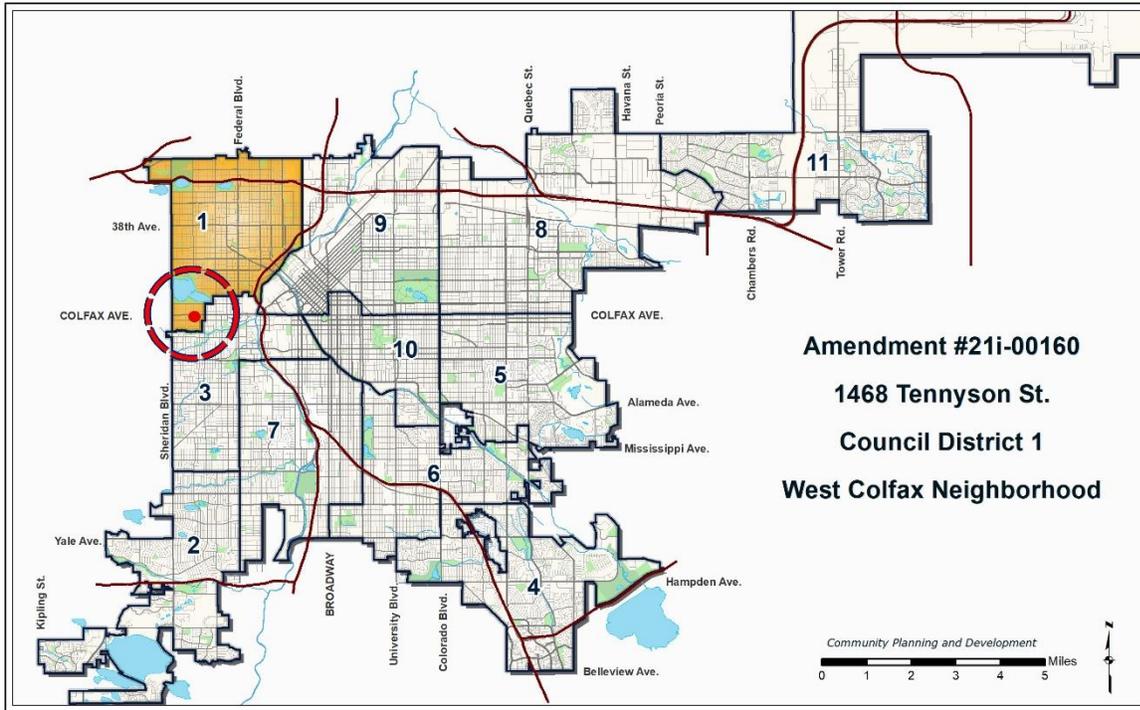

Request for Rezoning

Address: 1468 Tennyson St
Neighborhood/Council District and CM: West Colfax / Council District 1, CW Sandoval
RNOs: Sloan's Lake Citizen Group, Inter-Neighborhood Cooperation (INC), Sloan's Lake Neighborhood Association, United Northwest Denver, West Colfax Association of Neighbors (WeCAN), West Colfax Business Improvement District
Area of Property: 6,250 square feet or 0.12 acres
Current Zoning: U-SU-C2
Proposed Zoning: U-SU-C1
Property Owner(s): Lindsay and Matt Weist
Owner Representative: None

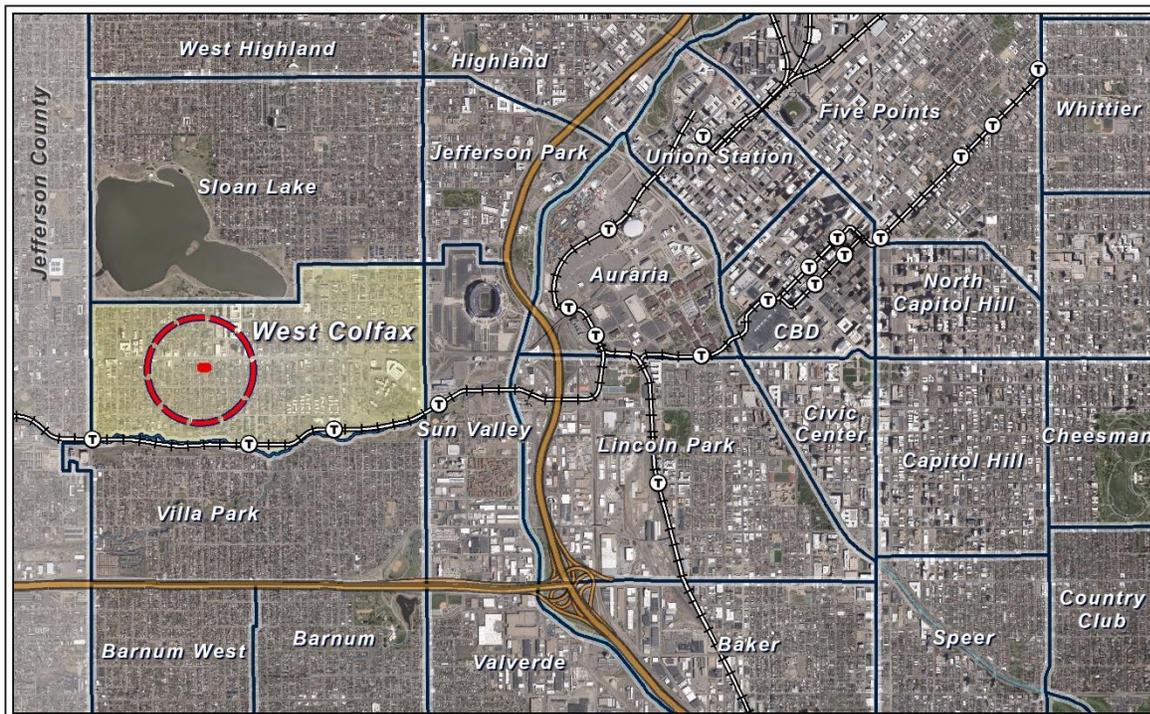

Summary of Rezoning Request

- The subject property contains a single-unit dwelling and is located between Colfax Avenue and 14th Avenue, along Tennyson Street.
- The property owner is proposing to rezone the property to allow a detached accessory dwelling unit.
- The proposed U-SU-C1, **U**rbane, **S**ingle-**U**nit, **C1** district allows urban houses and detached accessory dwelling units in the rear yard with a minimum zone lot area of 5,500 square feet. The zone district is intended for use in the Urban Neighborhood Context which is primarily characterized by single-unit and two-unit uses. Single-unit residential uses are typically located along local and arterial streets and structures are usually the Urban House building form. The maximum height of the Urban House building form is 30 to 35 feet for the front 65% of the zone lot, 17 to 19 feet in the rear 35% of the zone lot. The Detached Accessory Dwelling Unit form can be a maximum height of 24 feet. Further details of the requested zone district can be found in the proposed zone district section of the staff report (below) and in Article 5 of the Denver Zoning Code (DZC).

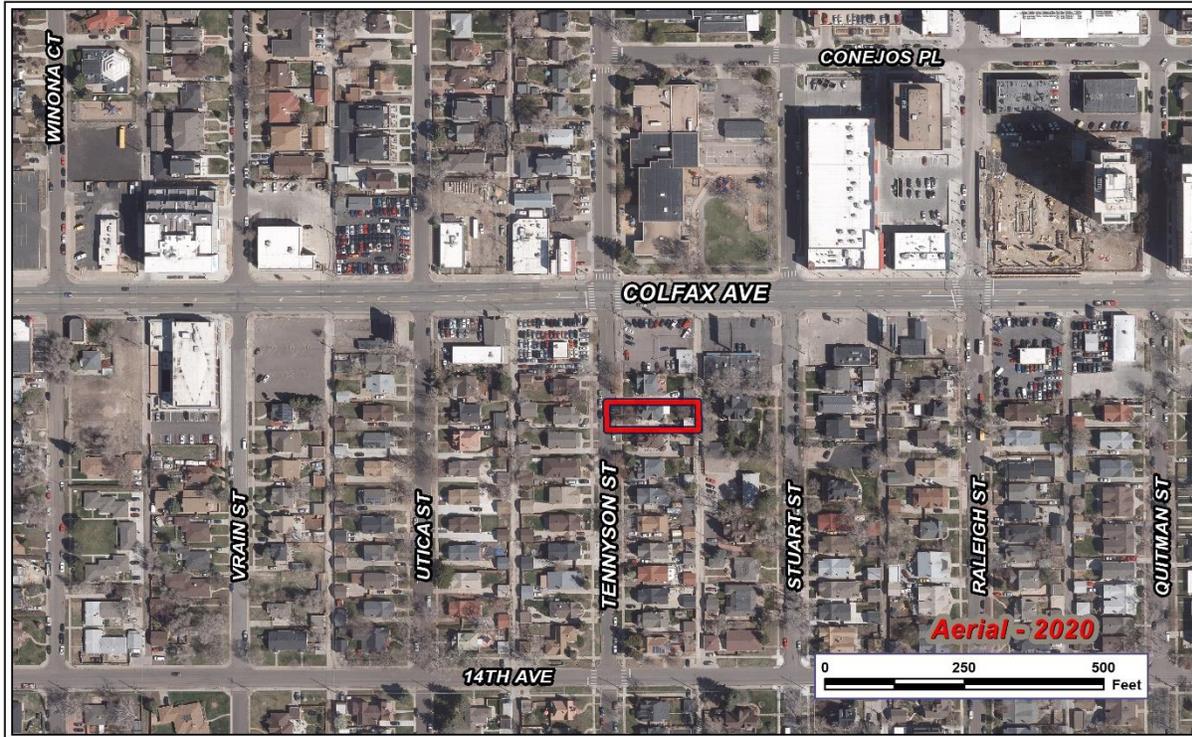

City Location

Neighborhood Location – West Colfax Neighborhood

Existing Context

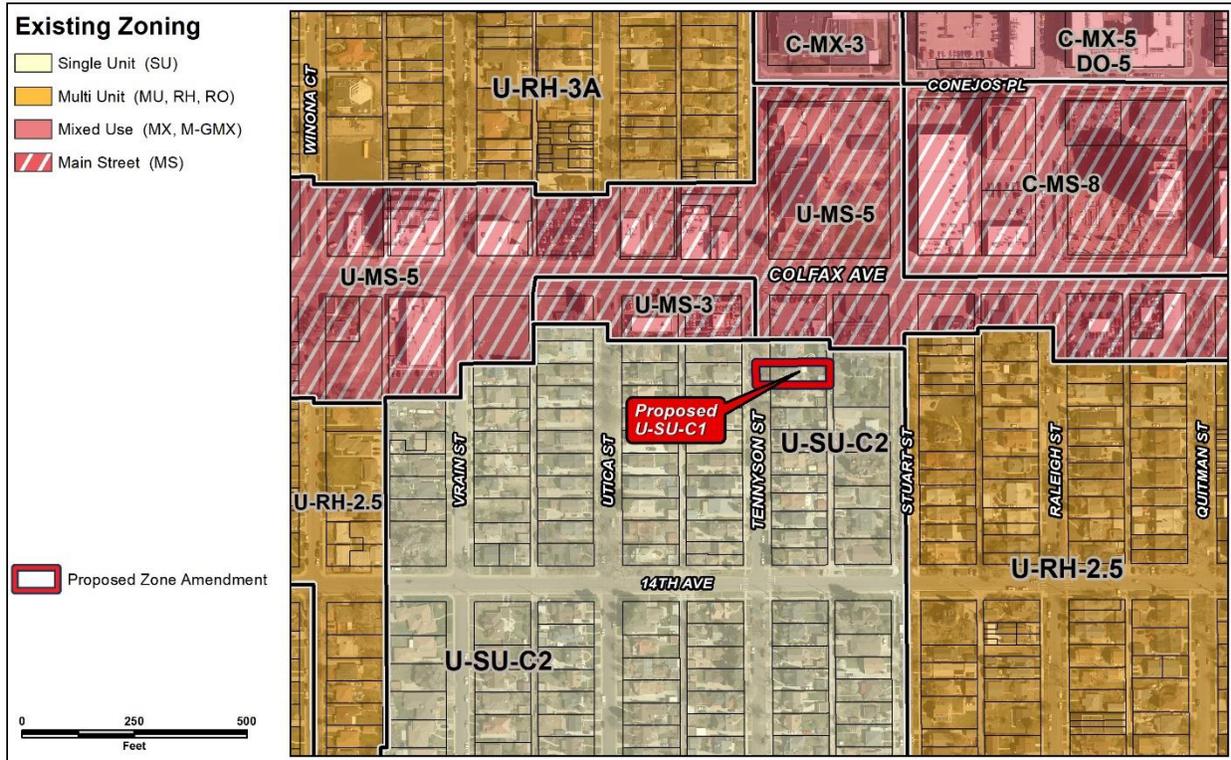

The subject property is in the West Colfax Neighborhood, which is characterized primarily by single-unit and two-unit residential uses with several multi-unit residential uses in the vicinity. Generally, there is a pattern of rectangular blocks in a street grid pattern with alley access. The subject property is on Tennyson St, between Colfax Avenue and 14th Avenue.

The following table summarizes the existing context proximate to the subject site:

	Existing Zoning	Existing Land Use	Existing Building Form/Scale	Existing Block, Lot, Street Pattern
Site	U-SU-C2	Single-unit Residential	1 ½ story house	Generally regular grid of streets. Block sizes and shapes are consistent and rectangular; Detached sidewalks with tree lawns and existing alleys. Garages, driveways, and on-street vehicle parking.
North	U-SU-C2	Single-unit Residential	1 ½ story house	
South	U-SU-C2	Single-unit Residential	1 ½ story house	
East	U-SU-C2	Multi-unit Residential	2-story house	
West	U-SU-C2	Single-unit Residential	1-story house	

1. Existing Zoning

The U-SU-C2 zone district is a single-unit zone district that allows an Urban House primary building form with a minimum zone lot size of 5,500 square feet. Detached accessory dwelling units, duplexes and tandem houses are also allowed on certain corner lots where at least one of the intersecting streets is a collector or arterial street. As this property is not on a qualified “certain corner lot,” the Detached Accessory Dwelling Unit (DADU) building form is not currently available for this property. Maximum building heights are 30-35 feet. The intent of the district is to promote and protect residential neighborhoods within the character of the Urban Neighborhood Context.

Proposed Zoning

The U-SU-C1 is a single unit zone district with a minimum zone lot size of 5,500 square feet that allows only an Urban House primary building form. A variety of residential and civic uses are permitted as primary uses in the U-SU-C1 district. Compared to the U-SU-C2 district, U-SU-C1 introduces the Detached Accessory Dwelling Unit (DADU) building form on all lots, whereas U-SU-C2 only allows it on certain corner lots. The Detached Accessory Dwelling Unit building form has a maximum height of 1.5 stories or 24 feet. A bulk plane that rises 10 feet vertically from the side interior or side street zone lot line, then slopes 45 degrees also applies to the DADU building form. The DADU form standards also allow an exemption from the 37.5% building coverage standard allowing the exclusion of the lesser of 50% of the building footprint or 500 square feet.

The primary building forms allowed in the existing zone district and the proposed zone district are summarized below.

Design Standards	U-SU-C2 (Existing)	U-SU-C1 (Proposed)
Primary Building Forms Allowed	Urban House, Tandem House**, Duplex**	Urban House
Maximum Height in Stories/Feet, Front 65% of Zone Lot*	2.5 stories / 30 feet	2.5 stories / 30 feet
Maximum Height in Stories/Feet, Rear 35% of Zone Lot*	1 story / 17 feet	1 story / 17 feet
DADU Maximum Height in Stories / Feet	DADUs not permitted, except on certain corner lots	1.5 stories / 24 feet
Zone Lot Size (Min.)	5,500 square feet	5,500 square feet
Zone Lot Width (Min.)	50 feet	50 feet

Primary Street Block Sensitive Setback Required / If not (Min.)	Yes / 20 feet	Yes / 20 feet
Side Street Setback (Min.) *	5 feet	5 feet
Side Interior Setback (Min.) *	3' feet one side / 10' min combined	3' feet one side / 10' min combined
Rear Setback, Alley / No Alley	12 feet / 20 feet	12 feet / 20 feet
Building Coverage per Zone Lot including all accessory structures (Max.), not including exceptions	37.5 %	37.5%
Detached Accessory Building Forms Allowed	Detached Garage, DADU**, Other Detached Accessory Structures	Detached Accessory Dwelling Unit, Detached Garage, Other Detached Accessory Structures

*Based on subject property with width of 50 feet

**On certain corner lots

Summary of City Agency Referral Comments

As part of the DZC review process, the rezoning application is referred to potentially affected city agencies and departments for comment. A summary of agency referral responses follows:

Assessor: Approved – No Response.

Asset Management: Approved – No Comments.

Development Services-Fire: Approved – No Comments.

Denver Public Schools: Approved – No Response.

Development Services - Project Coordination: Approved – No Comments.

Development Services - Wastewater: Approved – No Response

DOTI – Development Engineering Services: Approved – No Response.

Parks and Recreation: Approved – No Comments.

Public Health and Environment: Approved – No Comments.

Public Works – City Surveyor: Approved – No Comments.

Public Review Process

Date

CPD informational notice of receipt of the rezoning application to all affected members of City Council, registered	8/12/2021
---	-----------

neighborhood organizations, and property owners:	
Property legally posted for a period of 15 days and CPD written notice of the Planning Board public hearing sent to all affected members of City Council, registered neighborhood organizations, and property owners:	12/21/2021
Planning Board public hearing (unanimous recommendation of approval on consent)	1/05/2022
CPD written notice of the Land Use, Transportation and Infrastructure Committee meeting sent to all affected members of City Council and registered neighborhood organizations, at least ten working days before the meeting:	1/04/2022
Land Use, Transportation and Infrastructure Committee of the City Council (unanimous recommendation of approval on consent):	1/18/2022
Property legally posted for a period of 21 days and CPD notice of the City Council public hearing sent to all affected members of City Council and registered neighborhood organizations:	2/7/2022 (tentative)
City Council Public Hearing:	2/28/2022 (tentative)

- **Registered Neighborhood Organizations (RNOs)**
 - To date, staff has received no official letters or position statements from Registered Neighborhood Organizations.
- **Other Public Comment**
 - To date, staff has directly received no other public comment letters related to the requested rezoning.

Criteria for Review / Staff Evaluation

The criteria for review of this rezoning application are found in DZC, Sections 12.4.10.7 and 12.4.10.8, as follows:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans
2. Uniformity of District Regulations and Restrictions

3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8

1. Justifying Circumstances
2. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

1. Consistency with Adopted Plans

The following adopted plans apply to this application:

- Denver Comprehensive Plan 2040 (2019)
- Blueprint Denver (2019)
- West Colfax Plan (2006)

Denver Comprehensive Plan 2040

The proposed rezoning is consistent with many of the adopted *Denver Comprehensive Plan 2040* strategies, including:

- Equitable, Affordable and Inclusive Goal 2, Strategy A – Create a greater mix of housing options in every neighborhood for all individuals and families (p. 28).

U-SU-C1 allows for an additional dwelling unit that is accessory to the primary single-unit dwelling use and would allow for a new housing type in a largely single-unit neighborhood. Accessory dwelling units can provide housing for individuals or families with different incomes, ages, and needs compatible with the single-unit homes that are most common in the West Colfax neighborhood.

- Strong and Authentic Neighborhoods Goal 1, Strategy B.: "Ensure neighborhoods offer a mix of housing types and services for a diverse population" (p. 34).

The proposed rezoning would allow infill development appropriate for the surrounding neighborhood that broadens the range of housing types available.

- Environmentally Resilient Goal 8, Strategy A – Promote infill development where infrastructure and services are already in place (p. 54).

The proposed map amendment will allow an additional housing unit on the site of an existing home where infrastructure and services such as water, stormwater, and streets already exist. This allows Denver to grow responsibly and promotes land conservation.

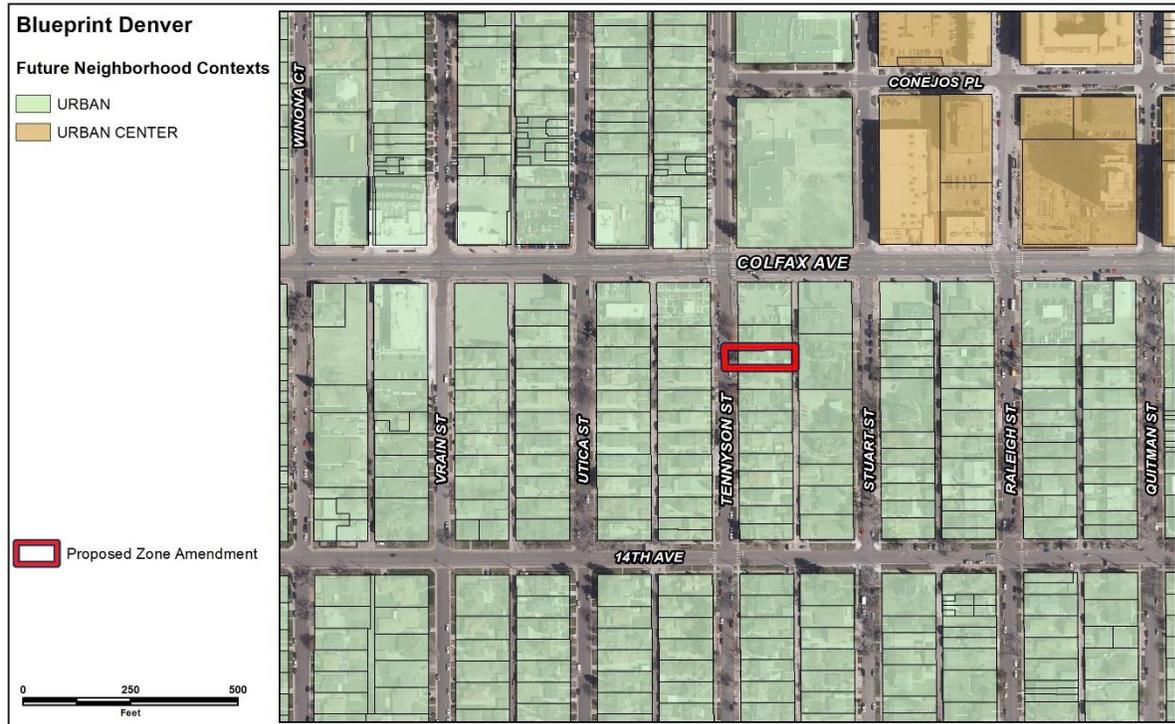

Because it implements the strategies cited above, the rezoning is consistent with *Comprehensive Plan 2040*.

Blueprint Denver

Blueprint Denver was adopted in 2019 as a supplement to *Comprehensive Plan 2040* and establishes an integrated framework for the city's land use and transportation decisions. *Blueprint Denver* identifies

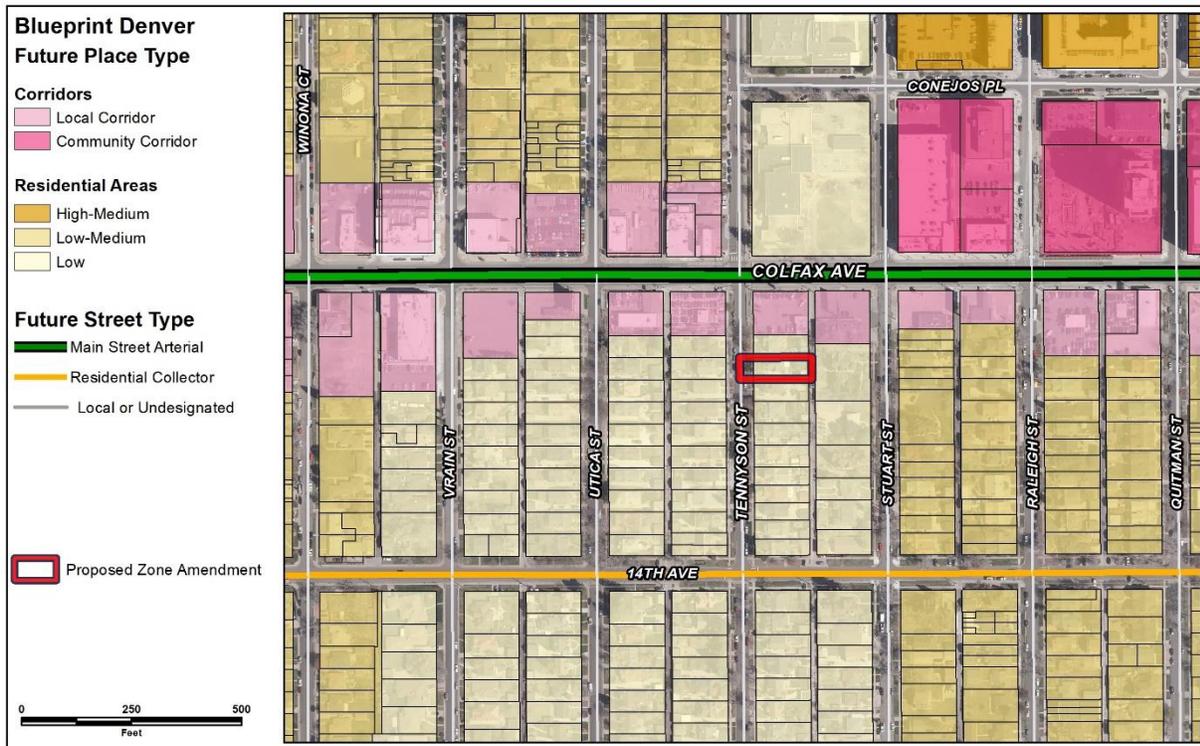

the subject property as part of a Low Residential place within the Urban Neighborhood Context and provides guidance on the future growth strategy for the city.

Blueprint Denver Future Neighborhood Context

In *Blueprint Denver*, future neighborhood contexts are used to help understand differences between land use, built form, and mobility at a high scale, between neighborhoods. The subject site is shown on the context map as Urban neighborhood context, the description of which is used to guide appropriate zone districts (p. 66). The Urban neighborhood context is described as containing “small multi-unit residential and low-intensity mixed-use buildings typically embedded in single-unit and two-unit residential areas” with grid block patterns and alley access (p. 222). U-SU-C1 is a zone district within the Urban neighborhood context and is “intended to promote and protect residential neighborhoods within the character of the Urban Neighborhood Context” and “the building form standards, design standards and uses work together to promote desirable residential areas” (DZC Section 5.2.2.1). U-SU-C1 is consistent with *Blueprint Denver’s* future neighborhood context of Urban because it will promote residential character by allowing a low-scale accessory dwelling unit that will be compatible with the existing residential area.

Blueprint Denver Future Places

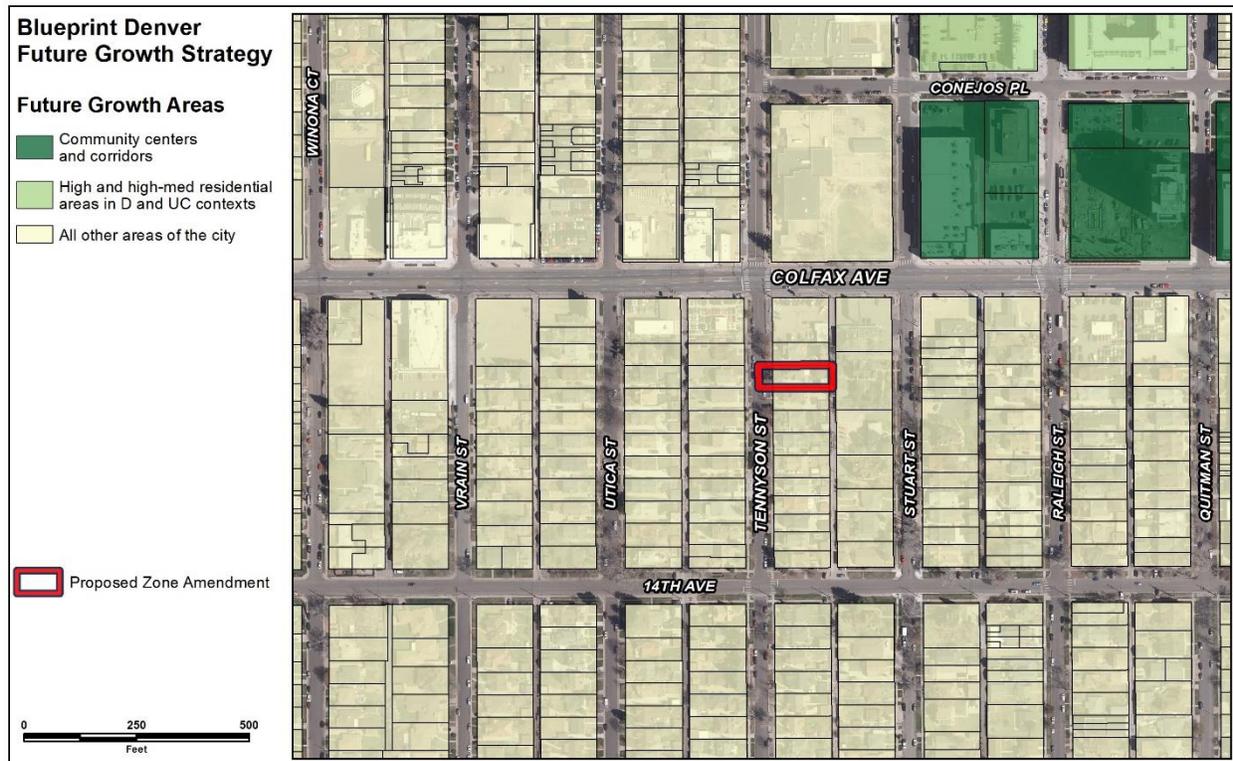

The subject site is designated within a Low Residential future place type on the *Blueprint Denver* Future Places map. This place type is “predominately single and two-unit uses on smaller lots. Accessory dwelling units and duplexes are appropriate and can be thoughtfully integrated where compatible,” and “building heights are generally up to 2.5 stories in height” (p. 230). The U-SU-C1 is a single unit residential zone district that allows for an additional dwelling unit accessory to an established single-unit home, which is consistent with the Low Residential future place type description. It allows the Urban House building form, which has a maximum height of 2.5 stories, also consistent with the future places map.

Blueprint Denver Street Types

In *Blueprint Denver*, Future Street Types work in concert with the Future Places to evaluate the appropriate intensity of adjacent development (p. 67). *Blueprint Denver* classifies Tennyson St as a local street. The proposed U-SU-C1 district is consistent with this street type because it allows for residential and accessory uses.

Blueprint Denver Growth Strategy

Blueprint Denver's growth strategy map is a version of the future places map, showing the aspiration for distributing future growth in Denver (p. 51). The subject property is part of the "All other areas of the city" growth area. These areas anticipate experiencing around 20% of new housing growth and 10% of new employment growth by 2040 (p. 51). This growth area contains "mostly residential areas with embedded local centers and corridors (that) take a smaller amount of growth intended to strengthen the existing character of our neighborhoods" (p. 49). The proposed U-SU-C1 zone district allowing an ADU is appropriate in this growth area as it will minimally contribute to development intensity in the neighborhood while maintaining the area's single-family residential character.

Blueprint Denver Strategies

Blueprint Denver provides recommendations related to rezoning to allow for ADUs.

- Housing Policy 4 Strategy E: "A citywide approach to enable ADUs is preferred. Until a holistic approach is in place, individual rezonings to enable ADUs in all residential areas, specifically where proximate to transit, are appropriate. Unless there is a neighborhood plan supporting ADUs, rezonings should be small in area in order to minimize impacts to the surrounding residential area." (p. 84).

In this case, the requested rezoning is a single lot in a residential area less than one-quarter mile from a bus stop. This rezoning to an ADU zone district will have minimal impacts on the character of the surrounding neighborhood and is consistent with *Blueprint Denver* recommendations. In addition, the

rezoning will allow for additional opportunities to accommodate an ADU on this site by allowing for the construction of a detached ADU.

West Colfax Plan (2006)

This neighborhood plan was adopted in 2006 and is applicable to the subject property. This area is identified as Urban Neighborhood (p. 79), which is described as having a healthy mix of residential uses (p. 84). The proposed rezoning is consistent with a number of goals and recommendations in the plan, specifically:

URBAN NEIGHBORHOOD DISTRICTS: GOALS

- **Goal 2: Density.** Promote discreet increases in residential densities within established residential districts.

URBAN NEIGHBORHOOD DISTRICTS: RECOMMENDATIONS

Recommendation 1: Urban Neighborhood Stability

Support the efforts of the Zoning Code Task Force to update residential zone districts and ensure the provision of appropriate design and development standards for additions, infill and redevelopment in established urban neighborhood areas.

Recommendation 3: Urban Neighborhood Building Types

Establish a vocabulary of urban neighborhood building types. Promote the construction of these buildings within appropriate locations in urban neighborhood districts. Include a range of building types that permit discreet increases in residential densities such as carriage houses, multiplexes, small apartments, townhouses or rowhouses.

2. Uniformity of District Regulations and Restrictions

The proposed rezoning to U-SU-C1 will result in the uniform application of zone district building form, use and design regulations.

3. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare of the city through implementation of the city’s adopted land use plan which recommends “the expansion of accessory dwelling units throughout all residential areas” (p. 84). The proposed rezoning would also provide the benefit of an additional housing unit that is compatibly integrated into the surrounding neighborhood. The building form standards and allowed uses of the proposed zone district promote compatibility with the building forms and uses allowed in the surrounding area.

4. Justifying Circumstance

The application identifies the adoption of *Blueprint Denver* as the Justifying Circumstance under DZC Section 12.4.10.8.A.4, “Since the date of the approval of the existing Zone District, there has been a change to such as degree that the proposed rezoning is in the public interest. Such a change may include: Changed or changing conditions in a particular area, or in the city generally; or a city adopted

plan; or that the city adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning.”

As discussed above, *Blueprint Denver* specifically recommends the city diversify housing choice through the expansion of accessory dwelling units throughout all residential areas. In addition, the rezoning will allow for additional opportunities to accommodate an ADU on this site by allowing for the construction of a detached ADU. The plan was adopted after the date of approval of the existing zone districts. Therefore, this is an appropriate justifying circumstance for the proposed rezoning.

5. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

The requested U-SU-C1 zone district is within the Urban Neighborhood Context. The neighborhood context is “primarily characterized by single-unit and two-unit residential uses” and “single-unit residential structures are typically the Urban House building form” (DZC, Division 5.1). These areas consist of “regular pattern of block shapes” and “a consistent presence of alleys” (DZC, Division 5.1). The West Colfax neighborhood consists of mostly single and two-unit residential uses in rectangular blocks with alley access. The proposed rezoning to U-SU-C1 is consistent with the neighborhood context description.

According to DZC Section 5.2.2.1, General Purpose, the intent of the residential zone districts is to “promote and protect residential neighborhoods within the character of the Urban neighborhood context.” Further, “the regulations provide certainty to property owners, developers, and neighborhoods about the limits of what is allowed in a residentially-zoned area. These regulations are also intended to reinforce desired development patterns in existing neighborhoods while accommodating reinvestment.”

The specific intent of the U-SU-C1 zone district is “a single unit district allowing urban houses and detached accessory dwelling units with a minimum zone lot area of 5,500 square feet. Blocks typically have a consistent pattern of 50-foot wide lots. Setbacks and lot coverage standards accommodate front and side yards similar to U-SU-C but allowing a detached accessory dwelling unit building form in the rear yard” (DZC Section 5.2.2.2.H.) The subject site is in an area where Urban houses and 50-foot-wide lots are common. The site at 1468 Tennyson St is 6,250 square feet with a width of 50 feet. The adopted plan direction recommends allowing detached accessory dwelling units. Therefore, rezoning this site would be consistent with the general purpose and the specific intent of the zone district.
