

CITY AND COUNTY OF DENVER
PRIVILEGED AND CONFIDENTIAL WORK PRODUCT

Michael B. Hancock
Mayor

To: Mayor Michael B. Hancock
From: Romaine Pacheco, Director
Date: June 16, 2022

BOARD: Santa Fe Business Improvement District

POC: Jackie Bouvier

BACKGROUND:

Members – 7
Terms – 3 Yrs.
Confirmation – Yes

The District's responsibilities include creating a quality and supportive environment that enhances the ability of the district's retailers, property owners and tenants to prosper individually and collectively. Some services include trash and graffiti removal, maintenance of the trash receptacles, pedestrian light poles, banners and installation of wayfinding kiosks, art murals and sculptures, and benches.

RECOMMENDATIONS:

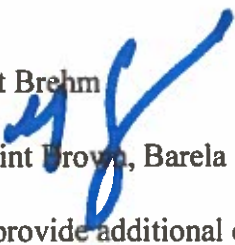

David Brehm, Denver (M)(C) to serve as a tenant in the District for a term expiring February 1, 2023 and occasioned by the resignation of Adam Sexton, appointed;

George Lim, Denver (M)(Asian) to serve as a tenant in the District for a term expiring February 1, 2025, reappointed;

Russell "Rusty" Brown, Denver (M)(C) to serve as a property owner in the District for a term expiring February 1, 2025, reappointed;

Andrea Barela, Denver (F)(H) to serve as a tenant in the District for a term expiring February 1, 2025, reappointed.

ACTION NEEDED:

 Appoint Brehm
 Reappoint Brown, Barela and Lim
Please provide additional candidates to consider.

George Lim

Founding Partner / Tangram Design LLC

INTRODUCTION

With a master's degree from the Tyler School of Art in Philadelphia, Pennsylvania, a bachelor's degree from the University of Denver in Denver, Colorado, and over 30 years of professional experience, George has established himself as a national leader in the practice of environmental graphic design. George is an authority in the design of branded environments for culturally sensitive, municipal and private projects. His experience includes designing and implementing branded wayfinding signage systems and programming for municipalities, airports, universities, parks, retail environments, and transit stations.

As a guest lecturer at the University of Colorado, George commits his desire and passion to teach to all his projects. He delivers creative guidance, inspiration, and leadership to facilitate design solutions from conception to completion. He aims to communicate the specific mission and values of a project and create a positive and memorable experience which connects with people and engages their sensibilities.

With his broad range of knowledge and experience, George is equipped to create effective design solutions and ensure all project expectations and requirements are met or exceeded. He efficiently manages tasks, resources, costs, and responses to meet project needs. Additionally, his engaging character and practicality builds effective collaboration among team members and creates consensus among project stakeholders.

FIRM DESCRIPTION

Tangram Design is a creative firm whose success is driven by our people. We are committed to execute with excellence and apply innovative strategies and design

solutions to improve the social, economical and environmental well being of the communities we serve. Intertwining our passion for design and our desire to enhance our local and global communities, we use our design talent to create environments that communicate and increase the quality of the human experience.

Our design focus is the practice of environmental graphic design (EGD) — a discipline that encompasses the planning and design of signage and wayfinding systems, branded environments, exhibit design, and placemaking.

Our design team consists of an eclectic mix of designers whose backgrounds include graphic, architectural, and industrial design capabilities. From brand to structural design, integration with environment, and other project aspects, the diversity of our team ensures that every project is holistically explored and designed. Collectively, the unique make-up of our team provides our clients with a creative resource that effectively delivers high-quality, detailed, and context-sensitive design solutions.

DESIGN METHODOLOGY

Tangram uses design to solve problems, evoke emotions, build communities, and create environments that communicate and increase the quality of the human experience. Balancing form, function, visual communication, and technology with project goals, we adapt and tailor design solutions to meet the specific needs of the project, community, and the environment. We ensure that every project is holistically explored, designed, and professionally managed.

Professional Experience

MUNICIPALITY

City of Bethlehem, PA

Citywide Wayfinding Signage Program – Managed and leading the design team in the development of a branded vehicular and pedestrian wayfinding system for the city. Responsible for client relations and facilitating community engagement efforts.

Town of Bayfield, CO

Town Wayfinding Signage Program – Managed and led the design team in the development of a branded vehicular and pedestrian wayfinding system. Responsible for client relations and facilitating community engagement efforts. Providing construction administration services for fabrication of monument sign.

Morgan County, CO

Tourism Wayfinding Signage Program – Managed and lead the design team in the development of a branded vehicular and pedestrian wayfinding system for the county. Responsible for client relations and facilitating community engagement efforts.

City of Port Angeles, WA

City Wayfinding Signage Program – Managed and lead the design team in the development of a branded vehicular and pedestrian wayfinding system for the city. Responsible for client relations and facilitating community engagement efforts.

Weber County, UT

Ogden Valley Wayfinding Signage Program – Managed and lead the design team in the development of a branded vehicular and pedestrian wayfinding system for the Ogden Valley that connects to trails and recreational assets. Responsible for client relations and facilitating community engagement efforts.

COLLEGE / UNIVERSITY

Laramie County Community College, Cheyenne, WY

Exterior/Interior Wayfinding System Master Plan

Led the creative team in developing the design of a modular exterior/interior wayfinding signage program. Directed project relations. Provided construction administrative services for the first phase of implementation of the exterior signage system. Continue to provide on-call services for the implementation of the interior signage program and other signage needs.

Central Washington University, Ellensburg, WA

Exterior Wayfinding Signage Plan

Managed the project and led the creative team in the design of an exterior signage program that used only green or sustainable materials or fabrication processes. Directed the project and client relations.

College of Southern Nevada, Las Vegas, NV

Exterior and Interior Wayfinding Signage Program

Led the creative team in developing the design of an exterior/interior wayfinding signage program. Worked with client to create consensus and establish design direction for the project among the steering committee. Worked with the design team to set the signage design and wayfinding standards. Oversaw the fabrication and quality control of the final product, during the construction administration phases of the project.

TRANSPORTATION

Metropolitan Transportation Commission, San Rafael, CA

San Rafael Hub Signage Program

Organized and coordinated with MTC and project stakeholders to gain participation in the Hub Signage Program. Directed and assisted the design team in creating comprehensive reports for the each of the transit hubs around the Bay Area. Led the design team in developing the graphic standards for the signage system.

Phoenix Sky Harbor International Airport, Phoenix, AZ

Signage and Wayfinding Master Plans for Roadway, Curbside, Interior and Public Parking

Directed the design team in developing the signage design and graphic standards for the airport's roadway, curbside and interior wayfinding signage master plan. Led the team in defining the signage and wayfinding master plan for entire public parking system which included both parking garages and surface lots.

Minota San José International Airport, San José, CA

Airport Exterior/Interior Signage Program and Guidelines

Directed the design team in the development of the graphic standards and created the wayfinding and signage guidelines for the exterior and interior signage systems. Directed the design of the directory maps that are used throughout the airport.

Additional project experience and references available upon request.

...ABOUT PLAN WEST...

Plan West Inc. is a design firm in our 49th year providing land use planning, site design, landscape architecture, and entitlement management services to landowners, developers, and municipalities along the Front Range and Rocky Mountain Region. Our project experience ranges from land use planning to detailed design with a focus on approvals and entitlements. Our projects include mixed-use master plans, residential communities, commercial, office, industrial complexes to custom site planning and landscape architecture for development.

Our entitlements include successfully negotiating and receiving approvals for the first new, state of the art, marijuana greenhouse, in the City of Aurora. As one of the first new grow facilities, the project received significant scrutiny. Our process and attention to detail resulted in support from staff and unanimous approval from the Planning Commission.

Plan West also represented the City of Denver for the entitlements to add over a section of land to the Denver Arapahoe Disposal Site (DADS). The landfill project was multifaceted with by City of Denver ownership and Waste Management the contract operator. The site is located in Arapahoe County. Plan West created public outreach presentation documents and became the public face of the proposed landfill expansion at neighborhood meetings to help obtain approvals from the Arapahoe County Planning Commission and County Commissioners.

We are currently negotiating the conditions of approval for Heavy Industrial Zoning uses on a site in Commerce City, modifications to a PUD in Denver to allow overnight stay for a counseling center, an amendment to a special use permit to expand an addiction counseling center in Arapahoe County and modified uses in a floodplain to allow limited commercial uses in the underlying agricultural zoning. Our projects are located in Douglas County, Greenwood Village, Parker, Lakewood, Arvada, Commerce City, Wheatridge, Erie, Adams County, Arapahoe County Westminster, and a number of smaller towns along the Front Range. For references, we are glad to provide a list of planning directors, municipal staff, and reviewing agency staff for insight into our approach and results.

The Plan West operating philosophy is based on success *By Design*. The size of Plan West helps assure that our clients receive critical involvement by the senior staff. We are proud of the collaborative relationship we have with the various municipalities and agencies with whom we work. We are equally proud of the new relationships we are able to develop with new projects.

A testimonial to the success of our process is that more than half of Plan West's projects are from repeat clients and referrals.
