EXECUTIVE SUMMARY

The purpose of the resolution is to approve a creation ordinance for the proposed Sun Valley Denver General Improvement District (GID).

For the past year, the Denver Housing Authority (DHA) has been working with the City and the Sun Valley Neighborhood to create a special district to provide financial support for infrastructure enhancements and maintenance in the neighborhood. The GID will be bounded approximately by the South Platte River on the east, 9th Avenue on the south, Decatur St. on the west, and 13th Avenue on the north. Only DHA-owned and -controlled properties are currently contemplated to be included in the GID. Generally, the GID will provide financial support for public improvements and maintenance for the Sun Valley Neighborhood including but not limited to: upgraded storm, sanity, water, roadway, pedestrian, multi-model improvements; new streetscapes and green infrastructure; pavement enhancements, bus shelters, bicycle and pedestrian amenities; a 10th Ave. promenade linking the neighborhood to park amenities; and potential for further partnership with the City through one or more IGAs.

The GID will be funded by an 8-mill levy imposed upon all taxable commercial and residential properties located within its boundaries, and DHA will impose a fee in lieu of taxes of \$125/unit on all tax-exempt residential properties and a comparable rate for non-residential properties; the fee-in-lieu will not be imposed against any properties owned by the City. The GID will seek elector authorization during a TABOR special election anticipated to occur in November 2022 to approve the mill levy and debt authorization; if successful, the GID is anticipated to start generating revenues in 2024. Although it will be seeking debt authorization, the GID will not be authorized to issue any debt unless and until it obtains future ordinance approval from City Council. Starting in 2024, the GID anticipates generating approximately \$230,000 in district revenues which are anticipated to be spent on typical GID-related expenses including management, insurance, legal, accounting, maintenance, and utilities.

As provided in State statute, City Council will be the ex officio board of directors for the GID; and consistent with Denver practices, a District Advisory Board (DAB) will be appointed to manage the day-to-day affairs of the GID. The DAB will be seated with 10 members comprised of DHA representatives, City staff, and the council member whose council district covers the acreage majority of the GID (currently CM Torres).

State law requires a public hearing be conducted prior to approval of the creation ordinance. This ordinance is the second of two legislative action items to approve the GID. Below is a schedule illustrating the legislative process for these matters.
