**b.** The Contractor certifies that:

(1) At the time of its execution of this Agreement, it does not knowingly employ or contract with a worker without authorization who will perform work under this Agreement, nor will it knowingly employ or contract with a worker without authorization to perform work under this Agreement in the future.

If this Agreement is so terminated, the Contractor shall be liable for actual and consequential damages to the City. Any termination of a contract due to a violation of this section or the Certification Ordinance may also, at the discretion of the City, constitute grounds for disqualifying the Contractor from submitting bids or proposals for future contracts with the City."

4. Section 22 of the Agreement entitled "<u>NO DISCRIMINATION IN</u> <u>EMPLOYMENT</u>" is hereby deleted in its entirety and replaced with:

**"22.** <u>NO DISCRIMINATION IN EMPLOYMENT</u>: In connection with the performance of work under the Agreement, the Contractor may not refuse to hire, discharge, promote, demote, or discriminate in matters of compensation against any person otherwise qualified, solely because of race, color, religion, national origin, ethnicity, citizenship, immigration status, gender, age, sexual orientation, gender identity, gender expression, marital status, source of income, military status, protective hairstyle, or disability. The Contractor shall insert the foregoing provision in all subcontracts."

## **EXHIBIT A-01**

#### Change Matrix - Year 3 Scope of Work (SOW)

#### A. Scope Overview

Change Matrix ("CM") shall plan and implement evaluation of the Healthy Food for Denver's Kids ("HFDK") Initiative and will:

#### **Macro Evaluation**

- **1.** Update the HFDK initiative evaluation framework so that it is comprehensive of current strategies and flexible enough to consider future strategies of the initiative;
- 2. Update the macro-level evaluation plan and implementation process. The evaluation plan will be reviewed and updated as needed, based on conversation with HFDK staff and Commissioners.
- **3.** Collect and analyze data for the macro-level evaluation to include:
  - a. Grantee surveys;
  - b. Key Informant interviews;
  - c. Youth focus groups;
  - d. GIS mapping;
  - e. Analysis of secondary data; and
  - f. Youth engagement project (assuming successful contracting with a youth-serving organization).
- 4. Present findings to the HFDK staff and Commissioners related to the impacts, successes, and challenges of the HFDK02 and HFDK03 funded entities. The evaluation will also identify gaps and opportunities for leveraging other food systems work happening within the HFDK Commission, City and County of Denver agencies, and partner agencies. The following deliverables will be prepared:
  - a. Semi-Annual Dashboards. The evaluation team will work with HFDK staff to design a dashboard reflecting aggregate progress as reported twice a year by the grantees (through semi-annual surveys).
  - b. Annual Reports for HFDK01, HFDK02 and HFDK03 grantees. Each annual report will draw from multiple data sources (e.g., grantee surveys, key informant interviews, secondary data) and grantee-driven evaluations. The report will highlight themes related to recommendation to the Commission about funding priorities; strategic partnerships; and gaps and strengths in the food system that emerge from interviews with key informants knowledgeable of the systems serving children and youth in Denver. Drawing primarily from the grantee surveys and youth focus groups, the final report will present on the primary grantee activities and outcomes and any needs to technical assistance they identify. Examples of key outcomes will be drawn from the grantee-led evaluation results.
  - c. Community Listening Sessions. Change Matrix will contract with two existing grantees to each support 2 listening sessions—one in-person and one virtual (e.g., using Facebook Live) that are accessible in multiple languages. The grantees will conduct outreach and

## **EXHIBIT A-01**

host the sessions, which will be used to gather feedback from community members about community needs/strengths related to food insecurity and food/nutrition education. Change Matrix will work with the grantee to develop the questions that will be used to facilitate these sessions and then analyze the themes, which will be incorporated into the final report. Community members will be compensated for their time and provided with supports to be able to attend the in-person session (e.g., food, transportation voucher)

- d. GIS Maps. Change Matrix will contract with an organization to be determined, to produce maps to be shared with Commissioners, and for inclusion on the DPHE website and the final report. For example, we might suggest mapping food distribution activities overlayed by neighborhoods with highest rates experiencing food insecurity.
- e. Additional Reporting Deliverables. Using content from the final report, Change Matrix will develop other products (up to three (e.g., executive summary, strategy 1-pagers, social media toolkit), as determined in conversation with the HFDK staff) that are tailored to multiple audiences, including shorter accessible products for grantees. We also will engage grantees in supporting dissemination of key evaluation findings and grantee achievements by providing a social media toolkit that includes graphics and content for grantees to share via their social media accounts.

#### Grantee Capacity Building and Technical Assistance (TA)

- 5. Build evaluation capacity among funded entities to not only learn from work performed during the project cycle, but to translate learning to programmatic and systems improvements that lead to more sustainable outcomes at the community level. TA will continue to be delivered virtually, unless Change Matrix and the HFDK team identifies appropriate in-person opportunities.
  - a. Universal training and TA. Change Matrix will continue to provide universal TA to all grantees, which will consist of four evaluation-focused webinars to build foundational knowledge of evaluation among grantees. Topics will focus on common needs of evaluation planning and implementation (e.g., logic models, data collection, etc.) as well as opportunities for gathering input from grantees (e.g., 'sense-making' with grantees).
  - b. Individual TA. Change Matrix will also provide individual and more intensive TA (in a limited capacity) to the next cohorts of grantees that directly respond to specific requests for support. Change Matrix will work directly with grantees to develop, submit, review, revise, and approve their evaluation plans. Additionally, Change Matrix will follow up with individual grantees on their organization's evaluation plans and outcomes and incorporate and share those findings with the HFDK staff and Commission in the reporting deliverables.

#### Communications

- 6. Work collaboratively with HFDK staff through regular meetings (twice a month) to talk through implementation of evaluation and/or capacity building activities. These calls will also be useful at critical decision-making points and to anticipate potential challenges.
- 7. Meet regularly with Commissioners that will include presenting during full Commission meetings (as identified in collaboration with the HFDK staff) and meeting with Evaluation Committee members (once a month) to solicit their feedback on implementation of the Macro evaluation plan.

# **EXHIBIT A-01**

- **8.** Manage and update the Asana workspace, which will be used to assign tasks to CM team members and HFDK staff and to support communication around tasks in between calls.
- **9.** Serve as a thought partner to HFDK staff and Commissioners to apply the evaluation learnings to make programmatic improvements that lead to broader and more sustained outcomes. The evaluation team will use emergent learning and development evaluation techniques that will help serve as both a learning and a strategy partner to HFDK staff and grantees.

#### **Contract Transition**

Per the End of Contract Term in the original contract, data and web-based tools that will be transferred to HFDK staff include, but are not limited to: all Google drive files and folders, copies of webforms, access to Asana tasks and descriptions, grantee quarterly and semi-annual forms and responses, technical assistance trainings specifically tailored to HFDK grantees, GIS maps, key informant data, and annual reports.

### Timeline
