

DEPARTMENT OF AVIATION
CITY COUNCIL ORDINANCE REQUEST SUMMARY
Automated Vehicle Identification Revenue System Support and Maintenance

Purpose and Use of Agreement(s)

The purpose of this contract is to have TransCore, L.P. provide professional services regarding the commercial vehicle management and revenue system that has been in place since October 24, 2017. While we work to procure the next long-term contract for commercial vehicle management at DEN, it is necessary for TransCore to provide support in terms of maintenance, upgrades, and professional services for Denver International Airport's (DEN) Automated Vehicle Identification (AVI) revenue control system and the GateKeeper Software.

Contract(s) Description

Automated Vehicle Identification Revenue System Support and Maintenance.
Total Term of the project is 1-year plus one 1-year option to extend.
Maximum contract liability is \$1,058,000.00.

Vendor(s)

TransCore, L.P. #202262949
