DEPARTMENT OF AVIATION
CITY COUNCIL ORDINANCE REQUEST SUMMARY
Materials Laboratory Testing Contract No. 202262169

Purpose and Use of Agreement

Airport Infrastructure Management (AIM) seeks to establish an on-call materials testing services contract at Denver International Airport (DEN). The vendor will provide quality assurance materials testing services on airport roadway and airfield projects on an as-needed task basis at DEN to comply with The City and County of Denver's Standard Specifications for Construction General Contract Conditions, Title 17 and FAA Advisory Circular 150/5370-12B. This contract is task-based to support a variety of projects and will be funded by the approval and issuance of each task. Tasks may include Federal Aviation Administration (FAA) funding and be associated with the Rolling Owner Controlled Insurance Program (ROCIP). The successful proposer will need to demonstrate the ability to provide qualified personnel and equipment to meet the services described by each task order. Task orders will primarily be issued for projects that are in the build phase of the project life cycle.

Contract Description

Materials Laboratory Testing Contract No. 202262169 has a 3-year term, plus two 1-year optional extensions, and maximum contract liability of $15,000,000.00.

Vendor

Ground Engineering Consultants, Inc., Contract PLANE-202262169
