EXHIBIT A – Amendment01 SCOPE OF WORK

Purpose of Agreement

A. The purpose of this contract is to establish an agreement and Scope of Services between the City and County of Denver's Healthy Food for Denver's Kids ("HFDK") Initiative and Denver Housing Authority (DHA) (the "Grantee"). The Grantee has been awarded \$310,233.00 in Healthy Food for Denver's Kids funds for the grant term of August 01, 2022-July 31, 2023. The Grantee shall provide the identified services for the City under the support and guidance of the Denver Department of Public Health and Environment, Healthy Food for Denver's Kids Initiative using best practices and other methods for fostering a sense of collaboration and communication.

Denver Housing Authority (DHA) has been awarded the following amounts in Healthy Food for Denver's Kids funds:

- \$338,666 for Term 1 (August 1, 2021 July 31, 2022)
- \$310,233 for Term 2 (August 1, 2022-July 31, 2023)
- Cumulative Maximum Contract Amount: \$648,899

II. Program Services and Descriptions

A. The Grantee will be granted funds to provide the following services:

Nutrition and Healthy Cooking Classes Nutrition and Healthy Cooking Classes will aim to change low-income families' eating habits through education. Our experienced team of chefs and nutritionists will provide six individualized classes each year. The curriculum, aimed at educating whole families, will include: dietrelated health conditions, food groups/balanced diets, understanding food labels, healthy freezer meals, cooking one-pot meals, cooking with kids, and healthy snacks. We currently provide Nutrition and Healthy Cooking Classes in the Mariposa District through Mile High 360. Under this program, we have conducted 6 family cooking classes, serving 13 - 16 families per class and 14 nutrition classes, serving 13 - 16students per class. Using a proven and successful curriculum established in Mariposa, DHA and YEA will expand these classes, offering 12 families (approximately 48 individuals) from the low- and very low-income Sun Valley affordable housing units will participate in each class. We will encourage each participating family to attend at least two sessions each year. We expect to serve up to 50 unique youth annually. The program will encourage participants to bring their own diverse cultural foods and experiences to the classes. Our chef will work with families to co-create ways to make their ethnic foods healthier while preserving their authenticity. The program will collect families' recipes and share them with the participants to encourage cross-cultural exchange. Each family will receive meal kits including ingredients and recipes so they can prepare and enjoy the meal together without an added financial burden. Classes will be held at the Osage Kitchen in Mariposa or at Sun Valley Kitchen, one of our community partners. Recruitment

efforts will include both social media posts and flyers (translated as determined by need) with detailed information including dates, times, and locations. DHA site coordinators will distribute the flyers door-to-door in DHA communities and to the broader community.

Healthy Snacks at Decatur Fresh and Osage Café and Mercado: DHA and YEA's second strategy for addressing food insecurity is to provide youth immediate access to healthy and nutritious meals and snacks, distributed at Decatur Fresh, a social enterprise marketplace that opened in November 2021 and at the Osage Café & Mercado, opening in May 2022. We will provide snacks after school and on the weekends when youth do not receive meals from school or other local partners who provide meals and snacks during the week (Sun Valley Kitchen, Sun Valley Youth Center, Sun Valley People's Center, Youth on Record, and Mile High 360). Many children rely on free or reduced-price meals at school and go hungry during the weekends and summers. Currently, 168 youth live in the Sun Valley housing developments, with an additional 1,500 youth living in the surrounding Westwood, Columbine, and Westridge developments, and we plan to serve any youth 18 years old and younger who requests food regardless of where they live. We anticipate another 200+ youth moving into the Sun Valley Neighborhood between January and March of 2023. We will work across DHA departments, including the Resident and Community Services (RCS) Service Coordinator and Local Resident Council (LRC) programs to further connect youth with healthy meals. To eliminate waste, the program will center choice—each youth will choose their snack. Each snack will consist of three food groups: fruits, vegetables, and grains and/or protein. We will share information about this program via social media, school liaisons, community connectors, local partners, and at various events throughout the year at Decatur Fresh and the Osage Café & Mercado.

Youth-Led "Vegetable Artscape" Project. DHA is currently in the process of a largescale transformation effort in the Sun Valley Neighborhood, that includes new park space, an enhanced urban farm, and increased access to healthy food. The Denver Botanic Gardens currently operates the Sun Valley Grow Garden that produces around 4,000 lbs. of vegetables annually to be distributed to the larger neighborhood. The transformation project includes an 11-acre riverfront park with multiple educational art and cultural pathways connecting the neighborhood to the park. For this project, youth will work with a local artist to highlight some of the vegetables that are being grown in the Sun Valley Neighborhood. Youth will work with the Denver Botanic Gardens to learn about the urban farming process, what vegetables are being grown in the neighborhood, how the farming supports the culturally diversity of the neighborhood. Youth will develop designs for the educational art and cultural pathway leading to the garden to highlight the food, the nutritional relevancy and how it relates to the community. This project will take place during the summer of 2023 and all youth will be paid for their time, another

strategy to alleviate hunger for participating youth while also providing them with work experience. We will recruit participants with social media, flyers, and outreach at local schools. We will provide healthy snacks to all participants during the project.

All three programs will culminate with an annual harvest and food festival organized in partnership with community partners including Sun Valley Kitchen, Denver Botanic Gardens, Denver Urban Gardens, Mercy Housing, Sun Valley Youth Center, and Fairview Elementary School. During this event, youth and their families will learn about the whole cycle of planning an urban garden, growing and harvesting food, and cooking healthy meals, including witnessing a cooking demonstration with locally grown vegetables. All attendees will go home with new recipes and healthy eating tips.

In total, the three programs will serve 220 unique youth.

Case Manager - The case manager will be supporting the outreach and recruitment of youth and families for the workshops, tracking youth and families throughout the program and providing on-going supportive services to the youth and families participating in the various programmatic elements. The case manager will help to connect families to necessary food programs, including SNAP applications, WIC, school meals, Food Bank of the Rockies, etc. They will be supporting the pre and post evaluation process to help track and ensure grantee is meeting grant outcomes. This position will be part time (20 hrs/week).

B. Implementation and Timeline:

Youth and family recruitment for the snacks and nutrition classes will continue throughout the summer of 2022 and into 2023. We will host six sessions per year. We will recruit 15 families total to participate in the programming. Overall, we aim to serve sixty-five participants, with 50 of those individuals being youth. The classes will be held on once per month at a time of day that is accessible for most families.

Free healthy snacks will continue with outreach to the neighborhood through signage, flyers, neighborhood newsletters, and neighborhood association meetings. We will offer snacks after school Monday through Friday and on Saturdays. The number of snacks distributed will increase during the summer months. We will work with the Service Coordinators and LRCs to further share information about the healthy meals and encourage ongoing participation.

Lastly, our youth will be working with a local artist and with Denver Botanic Gardens to highlight some of the vegetables that are being grown in the Sun Valley Grow Garden. The youth will develop designs for the educational art and cultural pathway leading to the garden and will highlight nutritious foods. The project will take place

from May to July 2023. We will recruit 20 youth participants from DHA housing sites and adjacent communities to participate in the program.

Program Locations:

Evaluation, Outcome Measures and Deliverables

The Grantee will attend a mandatory evaluation kick-off call at the beginning of the grant term. The grantee will review and update, finalize, and implement an evaluation plan for the grant that will specify the evaluation questions, process measures (e.g., how the program was implemented, what was done, for whom, and how much barriers and facilitators, etc.), outcome measures (e.g., what results the program had), how the data will be collected, responsible party(ies), and timelines. The final measures will be decided upon with the grantee in collaboration with the HFDK Evaluation team. The HFDK evaluation team is available to provide technical assistance to the grantee on the development and implementation of the evaluation plan, as needed. The grantee will share the final evaluation plan with HFDK staff and the Evaluation team and at the end of the grant term, will report on how the evaluation plan has been implemented and any resulting outcomes.

Participation in the Macro Evaluation

The grantee will participate in the Macro Evaluation, including working in partnership with the HFDK Evaluation team, for shared learning to improve the Denver food system. The HFDK Evaluation team will work with all HFDK grantees to determine which local and macro level data will be collected and reported on through the Reporting Form (see the Reporting Section below). The grantee may also provide organizational and community input on Macro Evaluation activities and products (e.g., Theory of Change, Macro Evaluation plan, annual reports, etc.).

This may include the review and analysis of Evaluation Dashboards, the Reporting Form and Annual reports of grantees (see below). As needed, HFDK may attend evaluation check-ins with the grantee and the HFDK Evaluation team to understand progress towards agreed-upon goals in the grant
- 2. **Fiscal Monitoring:** Review financial systems and billings to ensure that contract funds are allocated and expended in accordance with the terms of the agreement.
- 3. Administrative Monitoring: Monitoring to ensure that the requirements of the contract document, Federal, State and City and County regulations, and DDPHE policies are being met.

B. Reporting

The Grantee will be responsible for reporting on program outputs and outcomes, based on the Macro Evaluation Plan. The HFDK Evaluation team will provide a Reporting Form for grantees to submit this data every six months. The grantee data submitted through the Reporting Form will be used in the macro evaluation to measure progress across the entire cohort of HFDK grantees and will additionally be given back to grantees in a collective Evaluation Dashboard and other documents to support their work. Importantly, the Reporting Form may also include a few openended questions about strategy, challenges, and successes for the grantee to fill out. Grantees will receive a guide to support completion of the survey and can also access additional technical assistance support for the reporting requirements from the HFDK evaluation team, as needed.
