# Consistency with Adopted Plans: Blueprint Denver

- **Land Use & Built Form:** General Policy 2: *Encouraging the reuse, rather than demolition, of existing structures. This could be accomplished by allowing additional unit(s) to be added to an existing structure if the structure is preserved.*
- **Land Use & Built Form:** General Policy 6: *Implement additional parking reductions for projects that provide income-restricted affordable units.*

- Custom Zoning

- “Limit the use of site-specific, customized zoning tools—such as Planned Unit Developments (PUDs) and waivers/conditions—to unique and extraordinary circumstances. Custom zoning tools are most effective when a standard zone district does not exist to implement the adopted plans for an area” (p. 73).

# Consistency with Adopted Plans: Housing an Inclusive Denver

- Support housing as a continuum that serves residents across a range of incomes, including residents experiencing homelessness, those earning low wages or living on fixed incomes such as seniors or residents with a disability, and working families. (P.7).
- Preserve existing income-restricted affordable rental housing in vulnerable neighborhoods and near transit. (P.12)
- Promote equitable and accessible housing options by supporting programs and policies that help residents across the housing continuum access affordable housing (P.17).
- Stabilize residents at risk of involuntary displacement by supporting programs and policies that help a resident maintain their existing housing or stay in their community (P.17).

# Consistency with Adopted Plans: *East Area Plan*

## Residential Land Use Recommendations

- Low Residential Single Unit – “Additional primary units would only be appropriate where they already exist” (p.27)

- Zoning and Regulation policy - Encourage maintaining, rather than demolishing, existing older homes by revising design requirements to encourage renovations and additions” (p.37)
