- 5. Consistency with Neighborhood Context, Zone District Purpose and Intent

Consistency with Adopted Plans: Comprehensive Plan

- Equitable, Affordable and Inclusive Goal 2, Strategy A Create a greater mix of housing options in every neighborhood for all individuals and families.
- **Equitable, Affordable and Inclusive** Goal 2, Strategy D <u>Increase the development of senior-friendly</u> and family-friendly housing, including units with multiple bedrooms in multifamily developments.
- **Equitable, Affordable and Inclusive** Goal 4, Strategy B <u>Create</u> <u>additional tools</u>, including community land trusts and <u>regulatory</u> <u>incentives</u>, to preserve existing affordable housing
- **Equitable, Affordable and Inclusive** Goal 8, Strategy D <u>Expand the supply of housing accessible to seniors and people with disabilities, including more housing choices for seniors to age in place.</u>

Consistency with Adopted Plans: Comprehensive Plan

- **Strong and Authentic Neighborhoods** Goal 1, Strategy B <u>- Ensure</u> neighborhoods offer a mix of housing types and services for a diverse population
- **Strong and Authentic Neighborhoods** Goal 3, Strategy E <u>Support the stewardship and reuse of existing buildings</u>, including city properties.

• **Environmentally Resilient** Goal 7, Strategy C – <u>Prioritize the reuse of existing buildings</u> and explore incentives to salvage or reuse materials from demolished structures.

Urban Future Neighborhood Context

- Predominately residential
- Homes are typically lowscale single- and two-unit residential with some small-scale multi-unit residential and commercial.
- "Context may be interpreted with limited flexibility" (p.66)

Residential Low Future Place Type

- Predominately singleand two-unit uses on small or medium lots.
- Buildings are typically up to 2.5 stories in height.
- Some civic and institutional uses are compatibly integrated throughout

Future Street Type

Local / Undesignated

All Other Areas of the City

- 10% of new employment
- 20% of new housing

Most growth is guided to regional centers, community centers and corridors, select districts and high and medium-high intensity residential areas. Other areas of the city are still expected to see some growth, however more limited.

- Land Use & Built Form: General Policy 2: Encouraging the reuse, rather than demolition, of existing structures. This could be accomplished by allowing additional unit(s) to be added to an existing structure if the structure is preserved.
- Land Use & Built Form: General Policy 6: Implement additional parking reductions for projects that provide income-restricted affordable units.
- Land Use & Built Form: Design Quality and Preservation Policy 6: Incentivize the preservation of structures and features that contribute to the established character of an area, even if they are not designated as landmarks or historic districts.

Custom Zoning

 "Limit the use of site-specific, customized zoning tools—such as Planned Unit Developments (PUDs) and waivers/conditions—to unique and extraordinary circumstances. Custom zoning tools are most effective when a standard zone district does not exist to implement the adopted plans for an area" (p. 73).

Consistency with Adopted Plans: Housing an Inclusive Denver

- Support housing as a continuum that serves residents across a range of incomes, including residents experiencing homelessness, those earning low wages or living on fixed incomes such as seniors or residents with a disability, and working families. (P.7).
- Preserve existing income-restricted affordable rental housing in vulnerable neighborhoods and near transit. (P.12)
- Promote equitable and accessible housing options by supporting programs and policies that help residents across the housing continuum access affordable housing (P.17).
- Stabilize residents at risk of involuntary displacement by supporting programs and policies that help a resident maintain their existing housing or stay in their community (P.17).

Consistency with Adopted Plans: East Area Plan

Residential Land Use Recommendations

- Low Residential Single Unit "Additional primary units would only be appropriate where they already exist" (p.27)
- Policy E4.D "Make it easier for households to age within their neighborhoods through models such as senior/ assisted living." (p.54)
- Zoning and Regulation policy Encourage maintaining, rather than demolishing, existing older homes by revising design requirements to encourage renovations and additions" (p.37)

Denver Zoning Code Review Criteria

- 1. Consistency with Adopted Plans
- 2. Uniformity of District Regulations
- 3. Further Public Health, Safety and Welfare
- 4. Justifying Circumstances
- That the City adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning
- 5. Consistency with Neighborhood Context, Zone District Purpose and Intent

- A. The PUD District is consistent with the intent and purpose of such districts stated in Article 9, Division 9.6 (Planned Unit Development) of the Zoning Code;
- B. The PUD District and the PUD District Plan comply with all applicable standards and criteria stated in Division 9.6;
- C. The development proposed on the subject property is not feasible under any other zone districts, and would require an unreasonable number of variances or waivers and conditions;
- D. The PUD District and the PUD District Plan establish permitted uses that are compatible with existing land uses adjacent to the subject property; and
- E. The PUD District and the PUD District Plan establish permitted building forms that are compatible with adjacent existing building forms, or which are made compatible through appropriate transitions at the boundaries of the PUD District Plan

- A. The PUD District is consistent with the intent and purpose of such districts stated in Article 9, Division 9.6 (Planned Unit Development) of the Zoning Code;
 - Would enable additional beds in a Residential Care Type 2 use in an Existing Building.
 - The PUD represents a thoughtful expansion of allowable uses that are more sensitive and less impactful than rezoning to a standard mixed use or main street zone district.
 - The PUD is limited to three primary uses in the existing building within the Apartment building form applicable to the G-MU-3 zone district and all related standards.

- Not intended solely as a vehicle to develop a site inconsistent with the applicable neighborhood context or enhance economic feasibility
 - PUD-G 30 is consistent with the General Urban Neighborhood Context and character.
 - PUD-G 30 is intended as a mechanism to ensure that specific uses are consistent with adopted plans.
- Significant public benefit
 - Specific Uses
 - More efficient use of land and energy.
 - Existing Building compatible in character and design with nearby areas and with the goals and objectives of the Comprehensive Plan.

- B. The PUD complies with all applicable standards and criteria for PUDs
 - The PUD complies with all standards and criteria stated in Division 9.6.
- C. The development proposed on the subject property is not feasible under any other zone districts, and would require an unreasonable number of variances or waivers and conditions
 - There is no standard zone district available that is specifically intended to allow reuse of this site.
- D. The PUD establishes permitted uses that are compatible with existing land uses adjacent to the subject property
 - This PUD is the best tool to ensure land use compatibility.

- E. The PUD establishes permitted building forms that are compatible with adjacent existing building forms.
 - Existing building built in 1942 is already compatible.
 - PUD defines the apartment building form standard based on existing building.

CPD Recommendation

CPD recommends approval, based on finding that all review criteria have been met:

Standard Rezoning Criteria

- 1. Consistency with Adopted Plans
- 2. Uniformity of District Regulations
- 3. Further Public Health, Safety and Welfare
- 4. Justifying Circumstances
- 5. Consistency with Neighborhood Context, Zone District Purpose and Intent

PUD-Specific Rezoning Criteria

- A. The PUD is consistent with the intent and purpose of PUDs;
- B. The PUD complies with all applicable standards and criteria for PUDs;
- C. The development proposed on the subject property is not feasible under any other zone districts, and would require an unreasonable number of variances or waivers and conditions;
- D. The PUD establishes permitted uses that are compatible with existing land uses adjacent to the subject property; and
- E. The PUD establishes permitted building forms that are compatible with adjacent existing building forms.
