5. General description or background of proposed request. Attach executive summary if more space needed:

Previously this fiscal note was paid for out of the existing Technology Services (TS) contract. Establishing a contract specifically for Denver County Court will enable us better management of Microsoft Volume Licensing and less overhead for Technology Services to maintain.

This contract will allow the Denver County Court to purchase software services through Insight Public Sector, Inc., a Microsoft Value Add Reseller (VAR), while leveraging the State of Colorado's NASPO cooperative agreement. Denver County Court will purchase subscription services and licensing for various Microsoft products. Subscription and licensing services include the use, support and maintenance of the software products.

Microsoft products are critical to all City Agencies. Through this contract, the Information Technology Department will purchase various Microsoft products to include, but not limited to: Office 365, Power BI, Microsoft Teams, Telephony in Teams, Azure (cloud solutions), Visio and Windows. The table below lists the different types of licensing used by Denver County Court.
