RE: Zone Map Amendment (Rezoning) Application
2559 S. Federal Boulevard

Dear Mr. Ibanez,

This project narrative is provided to serve as supporting documentation for the attached Zone Map Amendment (Rezoning) Application filed by Cushing Terrell as an authorized representative of the Archdiocese of Denver, for property located at 2559 S. Federal Boulevard (the "Property"). Cushing Terrell intends to seek approval of a rezone from the current Suburban Single Unit D (S-SU-D) to Suburban Multi Unit, 5 stories (S-MU-5) and concurrent Site Development Plan approval to construct 63 units of multifamily affordable housing for seniors. Please note a rezone has previously been completed for this project and this additional application is to modify the boundary to better reflect the needs of the development.

Request for Rezoning Summary

Address: 2569 S Federal Boulevard

RNOs: College View Neighborhood Association, South Mar Lee/Brentwood/Sharon Park Neighbors, Inter-Neighborhood Cooperation

Site Area: ~1 acre

Current Zoning: S-SU-D

cushingterrell.com

Proposed Zoning: S-MU-5

Property Owner: Archdiocese of Denver

Owner Representative/Applicant: Cushing Terrell

Council District: No. 2 (Kevin Flynn)

Neighborhood: College View, Harvey Park

Site Description

The Church of All Saints parish has had a presence at the site, bordered by South Federal Blvd to the east, S. Grove Street to the west, W Hillside Place and W Vassar Ave to the north and south, since 1951. The site consists of the church sanctuary, rectory, two classroom/community room buildings, a barn, a prayer garden, a garage and parking lot. The site is made up of two parcels, one at 3.538 acres containing the school buildings, storage barn, the Church of All Saints Sanctuary, and all on-site parking. The second parcel at 0.927 acres contains a portion of the existing parking lot and some undeveloped land. This rezoning is anticipated to be followed by a zone lot amendment for this second parcel in order to increase the size of the S-MU-5 zone lot to accommodate the needs of the senior housing facility.

Consistency with Adopted Plans

Comprehensive Plan 2040

- Supporting the Equitable, Affordable and Inclusive Goal 1, Strategy A of increasing development of housing units close to transit and mixed-use developments.
 - The proposed rezone would allow for the development of new housing units on a transit corridor near mixed-use developments.
- Supporting the Equitable, Affordable and Inclusive Goal 2, Strategy A of creating a greater mix of housing options in the neighborhood for all individuals and families.
- Supporting the Equitable, Affordable and Inclusive Goal 2, Strategy C of fostering communities of opportunity by aligning housing strategies and investments to improve economic mobility and access to transit and services.
- Supporting the Equitable, Affordable and Inclusive Goal 2, Strategy D of increasing the development of senior-friendly and family-friendly housing.
 - The proposed rezone would allow for the increase of senior housing units, which do not currently exist in the area.
- Supporting the Equitable, Affordable and Inclusive Goal 3, Strategy B of using land use regulations to enable and encourage the private development of affordable, missing middle and mixed-income housing, especially where close to transit.
 - The proposed rezone would enable the private development of affordable housing for seniors on a transit corridor.

- Supporting Connected, Safe and Accessible Places Goal 8, Strategy B of promoting transit-oriented development, including affordable housing, near transit to support ridership.
 - The proposed rezone would provide affordable housing on a transit corridor.
- Supporting Environmentally Resilient Goal 9, Strategy B of improving Denver's air by reducing the use of single-occupancy vehicles...supporting mixed-use, walkable neighborhoods.
 - The proposed rezoning would contribute to the mixed-use development of Federal Boulevard and provide residents with amenities within walking distance.
- Supporting Strong and Authentic Neighborhoods, Goal 1, Strategy B of ensuring neighborhoods offer a mix of housing types and services for a diverse population
 - The proposed rezoning would provide housing for low-income seniors, which is currently not supplied in the neighborhood.
- Supporting Strong and Authentic Neighborhoods, Goal 1, Strategy D of encouraging quality infill development that is consistent with the surrounding neighborhood and offers opportunities for increased amenities.
 - The proposed rezoning offers quality infill development that will give residents opportunities for increased amenities.

Blueprint Denver 2019

- Future Neighborhood Context: Suburban (5.1.1)
 - "Homes in this context are largely single-unit, but can also include higher intensity residential...residents of this context should be able to walk and bike to neighborhood destinations safely"
 - The proposed zone district is consistent with the suburban context because the surrounding area is primarily single-unit with commercial uses and higher intensity residential along the main corridor (Federal Boulevard).
 - "Many suburban context areas are single-unit residential, but multi-unit also occurs. Commercial development is focused along main corridors and centers bordering residential areas. Although this context is more auto-oriented than others, there should still be quality multimodal connectivity."
 - In this case, the parcel in question is located on a corridor, where higher densities already exist.
- Future Places Concept – Community Corridor (5.1.4)
 - The parcel in question is labeled as "Community Corridor" in the Future Places section of the plan which describes the various scales and type of development envisioned for the future. According to the Plan, Community Corridors "typically provide some mix of office, commercial and residential....buildings have a distinctly linear orientation...heights are generally up to 5 stories."
 - The proposed rezoning would aid in providing the residential part of the "mix" described. If not rezoned, the property would only be able to contribute one housing unit under its current zoning. The rezoning would allow a higher intensity use to help satisfy this vision and enable the development to contribute to the desired built form.

- Community Corridors are “accessible to a larger area of surrounding neighborhood users by a variety of transportation options. The corridor is part of the transit priority street network.”
 - The proposed rezoning would allow for housing to be located near high-capacity transit along Federal Boulevard.
- Growth Areas Strategy – Community Corridor
 - The parcel in question is labeled as “Community Corridor” in the Growth Areas section of the Plan which describes where new growth should be focused. According to the Plan, “most growth is guided to regional centers, community centers and corridors, select districts and higher intensity residential areas.”
 - The proposed rezoning would allow for growth in an area where growth is envisioned, along a high-capacity transit corridor (Federal Boulevard) that already has a mix of uses. Multiple mobility options will serve the increased intensity that will result from the proposed use.
- Street Types – Mixed Use Arterial
 - The parcel in question sits on Federal Boulevard, which is labeled as a mixed-use arterial street in the Plan. According to the Plan, arterial streets are envisioned to have “a varied mix of uses including retail, office, residential and restaurants. Buildings are pedestrian-oriented, typically multi-story, usually with high building coverage with a shallow setback.”
 - The proposed rezoning would provide housing units on a high capacity transit street, and a building that is pedestrian-oriented.
 - W Vassar Avenue and S Grove Street to the south and west respectively are designated in the Plan as local streets which, “can vary in their land uses, however most are often characterized by residential uses.”
 - The proposed rezoning satisfies this criteria as the south side of W Vassar is residential in use while the remainder of the Church of All Saints parcel is used for the church and community buildings. Grove avenue is residential in use on the west, with the school buildings used for church functions and community meetings on the east.
- Recommendations
 - Land Use & Build Form: Housing
 - Policy 6, strategy A, “Incentivize affordable housing through zoning, especially in regional centers, community centers and community corridors adjacent to transit.”
 - The proposed rezoning would incentivize the development of affordable housing on a community corridor.

Public Safety, Health and Welfare

The proposed official map amendment furthers the public health, safety and general welfare of the city.

In line with Denver’s Comprehensive Plan 2040 and Blueprint Denver, this rezone would provide much-needed affordable housing for Denver’s growing senior population. It would provide seniors with not only affordable homes, but also easy access to public transportation as well as services on-campus that the Church of All Saints intends to provide. This rezoning will also help implement many of the

recommendations and vision outlined in Denver’s adopted plans (Comp Plan and Blueprint Denver). This application may additionally meet adopted plans by providing housing along a corridor where people can walk to a variety of goods and services which in turn increases overall health and reduces reliance on single-occupant vehicles.

Justifying Circumstances

1. The existing zoning of the land was based on a mistake of fact:
 - a. The rezoning for this parcel which took place in 2021-2022 was based on publicly available data and conceptual site layouts. Following this rezoning additional survey information and guidance from the city of Denver was received. This information revealed that the previously established boundaries were insufficient for the proposed senior housing development. This application is a minor adjustment to the existing boundaries to better accommodate the proposed senior housing facility and its interface with the existing church and school.

Consistency with Neighborhood Context, Zone District Purpose and Intent

The property meets the required criteria and is consistent with the neighborhood context and zone district purpose and intent as outlined below.

3.3.1 – Suburban Neighborhood Context General Character

- “The Suburban Neighborhood Context is characterized by single-unit and multi-unit residential, commercial strips and centers, and office parks. Single-unit residential consists typically of the suburban house building form with street-facing garages. Multi-unit building forms are typically separated from single-unit residential and consist of row house and occasional mid—and high-rise apartment building forms. Single-unit residential uses are primarily located away from residential and commercial arterial streets. Multi-unit residential and commercial uses are primarily located along arterial and collector streets.”
 - The proposed rezoning from a single-unit use to a multi-unit use is an example of what might generally be found in this context and along a mixed-use arterial corridor.

3.2.2.1 – Residential Districts (S-SU-D, S-MU-5) General Purpose

- “The intent of the residential districts is to promote and protect residential neighborhoods within the character of the suburban neighborhood context. These regulations allow for some multi-unit districts, but not to such an extent as to detract from the overall image and character of the residential neighborhood.”
 - The proposed rezoning would provide multi-unit diversity to the mostly single-unit neighborhood, while not detracting from the overall image and character by focusing density towards Federal Boulevard (transit corridor) and providing parking between the building and adjacent residential area.

3.2.2.2 – Specific Intent

- Multi Unit 3, 5, 8, 12, 20 (S-MU-3, 5, 8, 12, 20)
 - “S-MU is a multi unit district and allows suburban house, duplex, row house, and apartment building forms of up to 3, 5, 8, 12, 20 stories in height.”
 - The proposed rezoning would meet this criteria as the development is intended to be a 4-story apartment building.

Narrative summarizing meetings

College View RNO Meeting, January 12, 2021

The project team presented the proposal showing a site plan and building elevations and explaining the purpose of the rezone. There were only a few comments, and most were positive and in support of the project.

Comments included:

- This parcel is ripe for development, as it is currently vacant and unkempt (an eyesore).
- This seems like a really good fit for senior housing (being on Federal Blvd, next to the Church)
- Interested in potentially seeing greater setbacks, but otherwise like the design

Questions included:

- Q: What is the unit mix? Will all units be handicap accessible?
 - A: At this time, we have not worked out the unit mix and what individual units will look like – those details will be worked out later in the process (probably closer to April or May)
- Q: Who will manage the property?
 - A: AD Housing will manage it and has a great track record with managing properties so you can be assured it will be managed well.
- Q: Will the units be restricted to seniors only?
 - A: Yes, it will be deed-restricted for seniors 62 and over that are low-income (below 80% AMI)

One resident in particular who has been involved in the Loretto Heights project was interested in staying involved and giving input once we begin to determine unit design and mix. We have her email and she is planning to speak with the Neighborhood Association's Board to write a letter of support for the project.

South Mar Lee/Brentwood/Sharon Park RNO Meeting, January 21, 2021

The project team presented the proposal showing a site plan and building elevations and explaining the purpose of the rezone. There were a few questions, but mostly the attendees stated their support for the project.

Questions included:

- Q: Will this open a can of worms and apartment buildings will start eating up all the single family units on Federal?
 - A: Single family zoning is in place to prevent that from happening. This building will not be removing an existing home as it will be built on vacant land. Growth is likely to continue on Federal Blvd but we can protect the single family homes off of Federal Blvd with the existing single family zoning.
- Q: How will the residents be chosen to live in the apartments?
 - A: It will be on a first come, first serve basis for when applications are received per Fair Housing legislation. We can, however, promote the apartments with the RNO so that residents in the neighborhood know about it and can apply for units.

College View Neighborhood Association supports the idea of creating more affordable housing for seniors. We support with reservation, the corner property located at 2559 S Federal Blvd provides a likely location for such a development.

Applicable to all new construction on Federal in College View, our reservation with the design is the building sitting directly on Federal. We would prefer if it sat back off of the Boulevard.

If changes can not be made, we are willing to forego our reservation on this particular project to support senior affordable housing.

Thank you for your consideration.

Sincerely,

David E Pailet
CVNA President

We, the members of the Church of All Saints Parish Council, would like to state our support for the rezoning of a portion of 2559 S. Federal Boulevard to Suburban Multi-Unit, 5 stories (S-MU-5). We are aware of the rising housing costs in Denver and in our neighborhood, and have seen how increasingly difficult it is for our neighbors and community members to afford to live here. The senior population is especially burdened with fixed incomes and transportation/mobility concerns. We are excited to partner with Archdiocesan Housing to provide 75 affordable homes for Denver's growing senior population, as well as the opportunity to provide programming and services for future residents on our campus.

Sincerely,

[illegible]

I support the rezoning of a portion of the parcel at 2559 S. Federal Blvd from Suburban Single Unit to Suburban Multi-Unit, 5 stories for the development of multi-family affordable housing for seniors.
