38th & Huron Urban Redevelopment Plan: Objectives

The main objectives of the Urban Redevelopment Plan are to:

- To eliminate the present factors which contribute to the blight in the Area. Such blighting factors are detrimental to the community and limit the development potential of the surrounding area.
- To renew and improve the character and environment of the Area and its surroundings by preventing or ameliorating economic, physical and environmental deterioration.
- To enhance the multimodal transportation network serving the Urban Redevelopment Area.
- To encourage land use patterns within the Area and its environs that result in a more environmentally sustainable city.
- To assist the City in cultivating complete and inclusive neighborhoods.
- To more effectively use underdeveloped land within the Urban Redevelopment Area.
- To encourage land use patterns within the Area and its environs where pedestrians are safe and welcome.
- To improve the economy of the City by stabilizing and upgrading property values.
- Encourage high and moderate density development where appropriate.
- To achieve goals as outlined in adopted City Plans.

38th & Huron Urban Redevelopment Plan: City Plan Compliance

“Increase the development of affordable housing and mixed-income housing particularly in areas near transit, services and amenities.”

“Capture 80% of new housing growth in regional centers, community centers and corridors...”

“Promote and incentivize the development of affordable and family-friendly housing...in and near regional centers, community centers and community corridors.”

“Create opportunities to add more housing jobs and services to the station area”

“Improve access to housing”

“Create unique neighborhood destination areas”

Goals related to multimodal connectivity

“Strengthen multimodal connections in mixed-use centers and focus growth near transit.”

“Create an equitable and connected multimodal network that improves access to opportunity and services.”

“Align the impacts of private development with transportation infrastructure and promote development that creates walkable, transit-friendly communities.”

“Encourage mode-shift – more trips by walking and rolling biking and transit – through efficient land use and infrastructure improvements.”

“Improve pedestrian connections to the station, between neighborhoods, and along major corridors.”

“Design streets to accommodate pedestrians and bicycles”

“Improve street infrastructure”

“Improve street connectivity”

An Equitable City

Planning for social equity and
guiding change to benefit everyone

The Project area and surroundings have:

- **Moderate** access to Opportunity
- **High** Vulnerability to Displacement
- **High** Housing and **Low** Job Diversity

Staff considerations:

- Project will support the infrastructure needed to create a dense and diverse supply of housing including significant portion of affordable housing
- Project will participate in City's Prioritization Policy – Aimed to address impacts of potential displacement
- Project will increase density of housing in close proximity to public transit and other services

Planning Board Recommendation:

- Unanimous finding of Urban Redevelopment Plan conformity with Plan 2040 and Adopted Supplements
