Quotation For:			
Customer	Denver International Airport	Date	4/19/2023
Address	8500 Pena Blvd	Quotation #:	MN ST 222955
City, State, Zip Code	Denver Colorado, 80249	Customer ID:	
Point of Contact	Steve Ricci	Quotation valid until:	7/15/2023
Phone and Email Address		Prepared by:	Jessie Carr

Comments or Special Instructions:

Delivery charges will be figured based on end user location and current ship rates.
 Startup and Training charges will be included at end user location
 Final quote to end user will include this information.

PRODUCT CODE	DESCRIPTION	QTY	UNIT LIST PRICE	EXT. AMOUNT
MB4 Blower	Custom Chassis Snow Blower - The MB4 chassis is designed to host the M-B MH7500 snow blower head and can be equipped to interchange for use with front plows, front brooms, tow brooms, and other equipment as desired. MB4 High Performance Airport Snow Blower design provides more than 1,000 HP to power snow blower head. The standard 755 HP electronic turbocharged T4F EPA emission certified auxiliary engine provides its entire 755 HP to the impeller drive. The hydrostatic blower ribbon is powered by the chassis engine. The ribbon is independently reversible and the speed is independent of impeller speed. Unique programming assures ribbon speed is automatically adjusted to compensate for vehicle speed. The efficient use of power from both engines provides a capacity up to 7500 tons per hour and cast distances in excess of 150 feet. Head cutting height is 58 inches and the 52.5" diameter ribbon has a cutting width is 102 inches. The 59" diameter fabricated impeller includes replaceable blades, mechanical drive and shear bolts to protect impeller and impeller drive. The rotating impeller housing and discharge chute allow adjustable cast direction, rotating 140 degrees from standard flat cast right. Steel cutting edge, pneumatic casters, Integrated carbide skid shoes, and rubber side containment blades are standard.	1	\$ 845,132.00	\$ 845,132.00
<i>Bulleted Items are Included or are features of the Base Unit</i>				

- Rear engine type chassis with four wheel Tru-Trac™ 4x4 drive
- Standard 164 inch wheel base with sharp steering axle cramp angles efficiently provide small turning circles
- Butterfly type hood enclosure for both chassis and auxiliary engines, opens with power assist for maintenance and repair access
- 496 HP electronic turbocharged diesel T4F EPA emission certified chassis engine, includes ether start
- Allison RDS 4000, 6 speed transmission
- M-B "Torque Flow" transfer case featuring the Eaton Tru-Trac automatic differential. Single speed produces a wide torque / speed range. for low speed torque and speeds up to 45 MPH. Automatically and constantly proportions torque delivery between front and rear axles. Uses helical gears for positive and smooth torque transmission.
- M-B 29,000 pound front driving / steering axle with limited slip differential
- Dana 23,000 pound rear driving axle with limited slip differential
- Tapered spring suspension for smoother ride and increased driver control
- ABS air brake control system (4-channel) with automatic traction control
- Dual 125 gallon fuel tanks for drive and snow blower engines for up to 12 hours of operation
- 445/65R22.5 LR L traction tread front and rear tires
- M-B two-man, air ride cab: Panoramic view. All flat glass for easy and local replacement. Forward slope windshield. Four windshield wipers with three motor system for reduced linkage issues and to provide better snow removal on windshield. Air-ride driver and passenger seats with adjustable lumbar support. Standard features include FMVSS compliant lighting, side light bars, heated windshield, cab heater, heated power mirrors, power windows, and FAA approved strobes on cab and rear engine enclosure .
- Operator friendly, cab integrated microprocessor CAN bus controls with MDC (Monitor, Diagnose, Control) color screen display for chassis and equipment, with CAN joystick for attachment operation
- 1 yr warranty included in base unit.
- Consult M-B prior to order to confirm choice of options.

Price for base unit:
