## ORDINANCE/RESOLUTION REQUEST

All Fields must be completed

Incomplete request forms will be returned to sender which may cause a delay in processing.

1. Type of Request:	Please mark one:   Bill Request or	Date of Request: <u>5/22/2023</u> Resolution Request
Contract/Grant Agreement   Intergovernmental Agreement (IGA)   Rezoning/Text Amendment   Dedication/Vacation   Appropriation/Supplemental   DRMC Change   Other:  2. Title: Approves the contract execution with PCL Construction Services, Inc. to provide preconstruction services to enable the replacement of the existing physical access control system (PACS) for all of Denver International Airport (DEN).  3. Requesting Agency: Department of Aviation  4. Contact Person:  Contact Person with knowledge of proposed   Contact person to present item at Mayor-Council and ordinance/resolution   Council   Name: Brandon Gainey   Name: Carolina Flores   Email: Brandon.Gainey@flydenver.com   Email: Carolina.Flores@flydenver.com    5. General description or background of proposed request. Attach executive summary if more space needed: The scope of this project involves the preconstruction services to support the completion of the design, which will ultimately enable the replacement of the existing physical access control system (PACS) for all of Denver International Airport (DEN). This replacement includes physical elements of the system, such as card readers and associated infrastructure, plus associated software. The initial design of this project has already been completed by a separate design firm which developed a ser of 60% design documents. In this Request for Proposal (RFP) solicitation, DEN sought a firm that will provide preconstruction professional services to assist the initial designer as the initial designer evolves the 60% design documents into a full 100% design package. The preconstruction professional services in this procurement will include assisting the existing design team to complete construction design documents to 100%, soliciting an equipment and software provider, providing estimates and schedule services, value engineering, and advising on construction feasibility and alternate solutions of the final 100% design.  6.
