Map Amendment Description

The site proposed for rezoning is located at 3150 W. Jewell Street. Development of the proposed site is part of the proposed Brentwood Housing project. As a part of the development review process, the Large Development Framework for the site was completed Nov. 6, 2023. As outlined in the Large Development Framework, to accommodate for the proposed multi-family development called Brentwood Housing, the subject site will need to be rezoned.

The requested map amendment will rezone the existing PUD area to S-CC-3X to be consistent with the remaining area within the zone lot.

Neighborhood outreach occurred during the LDR process for this project. This included a neighborhood meeting that was held for the project via Zoom on July 27, 2023. Based on feedback from Councilman Flynn, in an effort to accommodate a few neighbors who are not able to use Zoom to attend the neighborhood meeting, an additional meeting at the Webb building was held on August 10, 2023 with Councilman Flynn and two neighbors.

Map Amendment General Review Criteria

DZC Sec. 12.4.10.7 – A. Consistency with Adopted Plans

The proposed map amendment is consistent with the City's adopted plans. Consistency with the following plans is discussed below:

Comprehensive Plan 2040
Blueprint Denver

The proposed map amendment is consistent with the COMPREHENSIVE PLAN 2040.

The comprehensive plan is the vision for Denver and its people. Below are specific vision elements, goals and strategies from the plan that support the proposed map amendment.

- Environmentally Resilient – Goal 8
 - Strategy A: Promote infill development where infrastructure and services are already in place. (pg. 54)
 - Strategy B: Encourage mixed-use communities where residents can live, work and play in their own neighborhoods (p. 54)
- Strong and Authentic Neighborhoods – Goal 1
 - Strategy D: Encourage quality infill development that is consistent with the surrounding neighborhoods and offers opportunities for increased amenities (p. 34)
 - Strategy A – Build a network of well connected, vibrant, mixed-use centers and corridors (p. 34)

The proposed rezone will provide another housing option for the area in an underutilized area that is currently a parking lot behind the Brentwood Shopping Center. The site is surrounded by development, and has access to Jewell Ave., Evans Ave., and Federal Blvd. for access and utility infrastructure connections. Given the proximity to the Brentwood Shopping Center, residents in this development will be provided an opportunity to live, work and play within the same neighborhood.

Open space areas will be incorporated into the development in accordance with the applicable zoning code. The open space within the project is intended to provide pedestrian corridors and connectivity to the neighboring community and shopping center area through the site and to the adjacent ROWs on the north and south. Additionally, the multi-family project provides a central community park area for the neighborhood to enjoy. Bike racks have been shown throughout the site to support multi-modal transportation.

The proposed map amendment is consistent with BLUEPRINT DENVER.

Blueprint Denver provides the foundation for citywide policies and recommendations related to land use, transportation, design and growth. Below is guidance from Blueprint Denver that supports the proposed rezone to S-CC-3X.

Neighborhood Context

- The site is located within the Suburban (S) neighborhood context. (pg. 139)

The proposed map amendment is consistent with Blueprint Denver and would rezone the site to S-CC-3X which is a zone district within the Suburban Neighborhood Context.

Place

- The future places map designates the site as a Community Center within the Suburban context. (pg. 143)
 - Blueprint Denver describes Centers as mixed-use places of varying scales. People go to centers to engage in social activities and entertainment, such as shopping and dining. Some centers are well-connected to the local neighborhood and supported by neighborhood residents; other centers are larger, attracting people from a wide geographic area, and may require residents to take a bus or a car to visit them. (pg. 145)
 - Community Centers are typically a balance of residential, employment, and dining/shopping. (pg. 145)
 - This context consists of large areas of residential, with mixed-use corridors along major roads and larger centers at key intersections. (pg. 193)
 - In the Suburban Context, Community Centers have heights that are generally up to 5 stories. (pg. 195)
 - Open spaces promote social interaction and respond to the distinct uses within the center. Spaces are flexible to benefit different types of users and daily activities throughout the year. (pg. 195)

The Denver Zoning Code general intent of the Commercial Corridor (CC) zone district is to balance the need for safe, active, and pedestrian-scaled, diverse areas with the need for convenient automobile access. Consistent with Blueprint Denver, the proposed rezone will allow for a mix of uses, consistent with the adjacent shopping center zoning to allow for a cohesive development and interaction with the existing Brentwood Shopping Center, and also serve as a transition from the shopping center to the single family homes to the west.

Growth Strategy

- Denver's next evolution will strengthen our existing neighborhoods through carefully planned infill development that enhances the city's unique character. A strategic and intentional approach to direct most of our growth to key centers and corridors helps to achieve citywide equity goals to benefit all residents. This compact development pattern is focused on strategic infill locations linked with strong transportation options. Housing needs are met with a wide range of options. (pg. 49-50)

The proposed site is designated as a community center with residential area to the west. The unique character of the surrounding community will be enhanced with the proposed rezone allowing additional residential options for the area in addition to the existing commercial/retail component of the Brentwood Shopping Center. The addition of residential housing options in this area will help to meet the growth strategy within the "Community center and corridors" future growth area.

Street Types

- Blueprint Denver categorizes the aspirational nature of Denver's future streets by their future surrounding land use character and functional class. The site is bound by:
 - Jewel Ave. on the north, which is designated as a residential Arterial along the property frontage; and
 - Federal Blvd. on the east, which is designated as a Mixed-Use Arterial along the Brentwood Shopping Center property frontage; and
 - Evans Ave. on the south, which is designated as a Mixed-Use Collector along the property frontage(pg. 157)

Development of the site is well supported by the existing roadway infrastructure surrounding the site.

Equity Concept - Housing Diversity (pg. 43)

Which areas in Denver need more housing options?

This map provides a current snapshot of the areas in Denver where greater diversity of housing is needed. In the darker areas, change should include efforts to increase the range of housing options while respecting the existing context of that area.

The proposed site is in an area with a less diverse level of housing options. The proposed rezoning will allow for the proposed multi-family residential development that supports the need for diverse housing options. Rezoning the proposed site is anticipated to have a positive impact on this equity concept.

DZC Sec. 12.4.10.7 – B. Uniformity of District Regulations and Restrictions

The proposed site is currently zoned PUD under the Former Chapter 59 zoning regulations. Rezoning of the site to the S-CC-3X zone districts will bring the site into the current Denver Zoning Code and remove the custom zoning that is currently in place for the site. Regulations and requirements for the site will be consistent with the current Denver Zoning Code regulations for the proposed districts, and the uses that will be proposed within the site.

DZC Sec. 12.4.10.7 – C. Public Health, Safety and General Welfare

The proposed map amendment will further the public health, safety and general welfare of the city. Located in an area that is surrounded by existing single family residential and commercial uses, the proposed rezone will allow for an underutilized area of land to provide additional residential housing options in the area utilizing existing roadway and utility infrastructure to serve the site.

Official Map Amendment
Additional Review Criteria for Non-Legislative Rezoning

DZC Sec. 12.4.10.8 – A. Justifying Circumstances

4. Since the date of approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such change may include:

b. A City adopted plan

The original PUD 475 for the subject property was approved in 1999. In 2019, the City and County of Denver adopted Comprehensive Plan 2040 and Blueprint Denver. As outlined in this application, the proposed rezone is consistent with these newly adopted plans.

c. That the City adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning.

The subject site is currently zoned PUD under the Former Chapter 59 zoning. The proposed rezoning would bring the site into the current Denver Zoning Code as S-CC-3X.

DZC Sec. 12.4.10.8 – B. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

The requested map amendment will rezone the 0.36 acre property from PUD to S-CC-3X.

Neighborhood Context Description

The Suburban (S-) Neighborhood Context is proposed for the rezoning of the site. Below are the context description items consistent with the proposed rezoning:

- DZC Sec, 3.1.1 General Character - The Suburban Neighborhood Context is characterized by single-unit and multi-unit residential, commercial strips and centers, and office parks.
- DZC Sec. 3.1.3 Building Placement and Location - Multi-unit residential buildings typically have deep front setbacks and wide side setbacks.
- DZC Sec. 3.1.4 Building Height - The Suburban Neighborhood Context is characterized by low scale buildings except for some mid- & high-rise multi-unit residential & commercial structures, particularly along arterial streets.
- DZC Sec. 3.1.5 Mobility - The Suburban Neighborhood Context has a higher reliance on the automobile with some access to pedestrian & bicycle facilities & the multi-modal transportation system.

Commercial Corridor Districts (S-CC-3X)

3.2.3.1 GENERAL PURPOSE

- A. The Commercial Corridor zone districts are intended to balance the need for safe, active, & pedestrian-scaled, diverse areas with the need for convenient automobile access.
- B. The Commercial Corridor zone districts address development opportunities next to the city's most auto-dominated corridors.
- C. Commercial Corridor building form standards have minimum setbacks to allow flexibility in building, circulation & parking lot layout.
- D. The Commercial Corridor district standards are also intended to ensure new development contributes positively to established residential neighborhoods and character, encourages affordable housing, and improves the transition between commercial development and adjacent residential neighborhoods.

3.2.3.2 SPECIFIC INTENT

- A. Commercial Corridor – 3x (S-CC-3X) S-CC-3x applies primarily to auto-oriented arterial street corridors where a building scale of 1 to 3 stories is desired with less intense uses than S-CC-3.

The proposed rezone to the S-CC-3X zoning district is consistent with the purpose and specific intents for the district. The site is located along arterial streets and will serve as a transition between the existing Brentwood Shopping Center to the east and the existing single family residential to the west. The proposed zone district will enhance the neighborhood by allowing another housing option in the area that will also provide new pedestrian connections and community park amenities for the neighborhood.

Hi, Fadi. Dana said you called and wondered if I had any questions before you file the application. I don't, so that's why I hadn't replied. I'll see you at council when this gets there. Thanks!

Hi councilman Flynn,

I hope this email find you doing well. I just want to reach out and remind you as part of my development project at Brentwood, we will be rezoning the old bike store to adopt the new code for the city of Denver and to match the rest of the existing property zoning. It's only for that particular lot which is about 16,500 sf.

Please reach you if you have any concerns and I would love to hear your thoughts on it before we submit the application next week. Thank you

Sincerely,
Fadi Sawaged
