## 5. General description or background of proposed request. Attach executive summary if more space needed:

In 2000, the City implemented the Gateway Impact Fee Area and associated list of eligible impact fee projects. The fee is imposed upon development to pay the costs of regional infrastructure improvements in four main categories: transportation, drainage, fire, and trails/parks. In many circumstances, as development progresses, it is more efficient to have the private developer or partner organizations construct the regional infrastructure improvements as part of their development project. When this occurs, the City contracts with the private developer for the use of the impact fees. Other times, the City will pursue completion of an eligible impact fee project directly.

This ordinance request seeks to transfer and appropriate of \$1,129,000 Gateway Impact Fee Fire Trust Fund 56292 to the Capital Improvement Fund 31000 for payment of contract obligations related to the construction of a fire station.

This ordinance will transfer the Gateway Impact Fee Trust Funds into the Capital Improvement Fund as follows:

Fund	Name	Amount
56292	Gateway Impact Fees - Fire	\$1,129,000

This ordinance will appropriate the Capital Improvement Fund capital funding as follows:

Fund	Org	Project Number	Project Name	Amount
31000	5000000	PJ100	Gateway Regional Infrastructure: Fire	\$1,129,000

6. **City Attorney assigned to this request (if applicable):** Bradley Neiman

7. **City Council District:** 11
