Blueprint Denver 2019

Suburban (S-) Neighborhood Context:

- Range of uses from single-unit and multi-unit residential to commercial corridors and centers. Block patterns are generally irregular with curvilinear streets. Alleys are not commonly found. Buildings are typically set back from the street and range in scale.

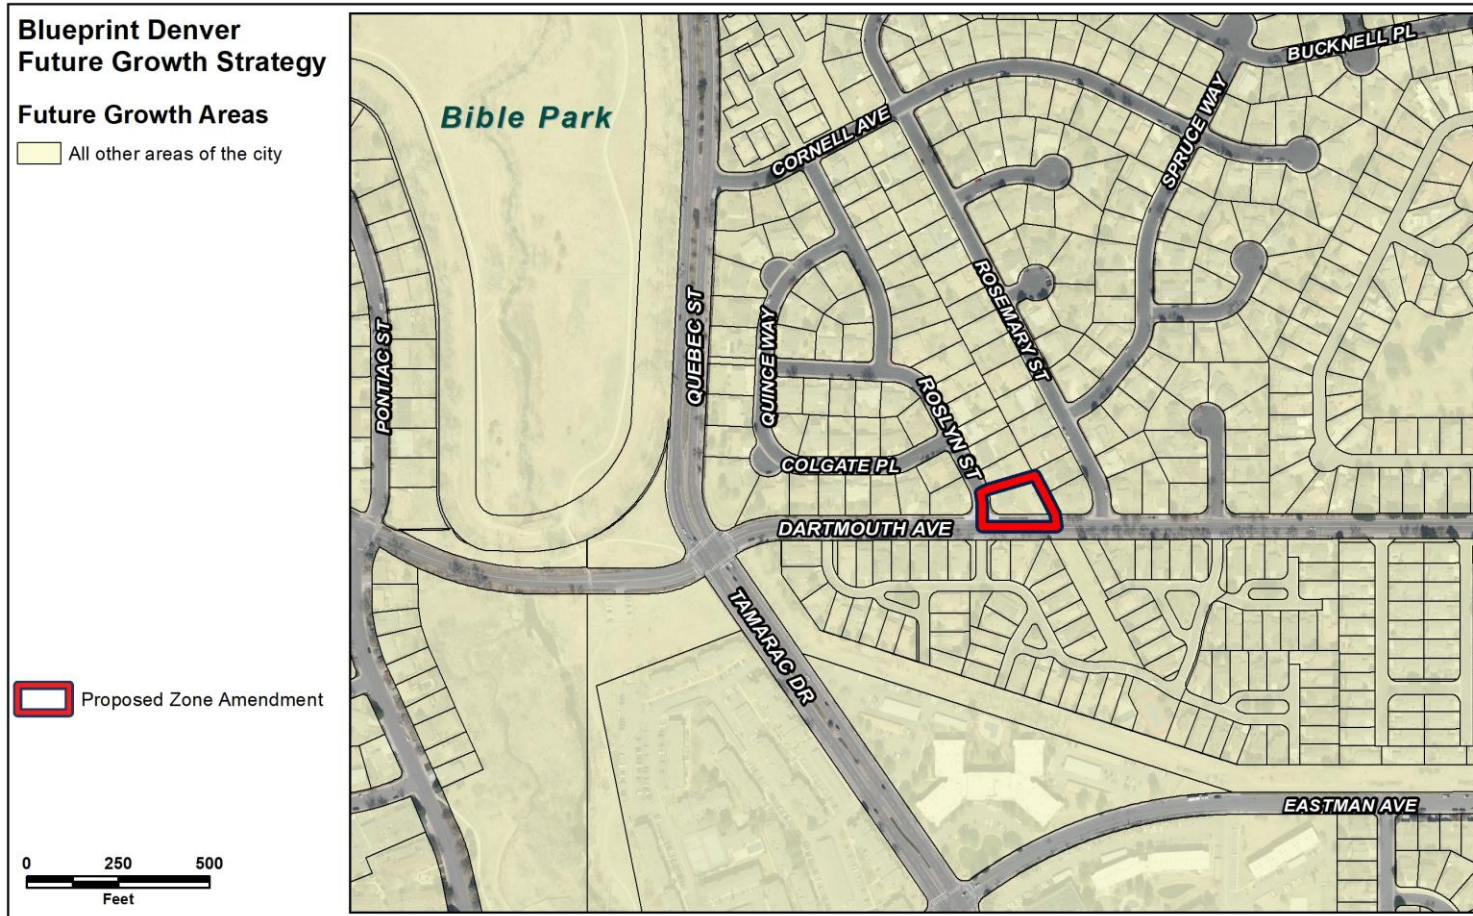

Blueprint Denver 2019

- **Low Residential**
 - Predominantly single- and two-unit uses
 - Accessory dwelling units are appropriate
- **Future Street Type**
 - Roslyn, Local
 - Dartmouth, Residential Collector

Evaluation is based on the proposed zone district is consistent with the Future Street Classification, not to assess the traffic impacts of a specific development proposal.

Blueprint Denver 2019

- **Growth Areas Strategy:**
All other areas of the city
 - 10% jobs by 2040
 - 20% housing by 2040

Blueprint Denver 2019

Land Use and Built Form- Housing Policy 4: Diversity housing choice through the expansion of accessory dwelling units throughout all residential areas.

Strategy E: A citywide approach to enable ADUs is preferred. Until a holistic approach is in place, individual rezoning to enable ADUs in all residential areas, especially where proximate to transit, are appropriate. Unless there is a neighborhood plan supporting ADUs, rezonings should be small in area in order to minimize impact to the surrounding residential area.

5. Consistency with Neighborhood Context, Zone District Purpose and Intent
 - Suburban Neighborhood Context is primarily characterized by single-unit and multi-unit residential, commercial strips and centers, and office parks.
 - Residential Districts are intended to
 - Promote and protect residential neighborhoods within the character of the Suburban Neighborhood context
 - The building form standards, design standards, and uses work together to promote desirable residential areas
 - **S-SU-D1** zone district is a single unit district allowing suburban houses with a minimum zone lot area of 6,000 square feet and detached accessory dwelling units. Setbacks and lot coverage standards accommodate front and side yards similar to S-SU-D but allowing a detached accessory dwelling unit building form in the rear yard.
