Bibian is a first-generation college graduate, having earned her Master's in Social Work from Metropolitan State University of Denver. She brings non-profit experience spanning administration, case management, program management, and community outreach. She has primarily worked with monolingual Spanish speakers, low-income communities, and older Latinos (50+), many of whom were undocumented. Her innate drive and rapid learning abilities have fueled her professional growth.

Bibian has invested three years delving into the specific needs of older Latinos across counties including Denver, Arapahoe, Adams, Jefferson, and Weld. Her efforts have involved leading focus groups, conducting in-depth contextual research, and spearheading the establishment of an older adult support group in the Montbello neighborhood.

Bibian is deeply committed to furthering her work with older Latinos and undocumented communities, driven by a genuine passion to make a positive impact in their lives. Residing for some time in Los Angeles, California, and witnessing older Latinos work tirelessly to make ends meet ignited a profound passion for enhancing the well-being of this community.

Bibian is on a mission to advance professionally and acquire the necessary tools to initiate impactful changes at a broader, macro level.

Outside of work, Bibian enjoys hiking, reading memoirs, cafécito con pan, singing in the shower, exploring new foods, and sleeping.

#### **About CLLARO:**

The Colorado Latino Leadership, Advocacy & Research Organization (CLLARO) is dedicated to empowering Latinos in Colorado through leadership development, advocacy, and policy research with the overarching goal of strengthening the state. CLLARO envisions a future where Latinos can thrive and achieve their full potential in the State of Colorado. The organization's Aging with CARE initiative features two targeted programs, the Resource Navigation Program and the Community Access, Research, and Engagement Program (CARE), specifically designed to address the distinct needs of older Latinos. Focused on combating social isolation, promoting awareness of social determinants of health, and facilitating access to vital resources for the aging Latino community, CLLARO has implemented a resource navigation program with a dedicated hotline for direct referrals. The organization actively works towards developing a culturally competent programming model to further reduce social isolation and foster a sense of community among older Latinos, all while advocating for awareness and positive change regarding ageism in healthcare settings. CLLARO's commitment lies in empowering the aging population through comprehensive and culturally sensitive initiatives, reflecting its dedication to enhancing the overall well-being of older Latinos. ## Impacto Comunitario

“Soy madre soltera de tres hijos, uno de los cuales tiene necesidades especiales. Soy una inmigrante colombiana y sobreviviente de violencia doméstica... Trabajar y vivir como inmigrante indocumentada dificulta mi trabajo como madre. OmniSalud me brinda el apoyo que necesito para tener tranquilidad por la salud de mis hijos. El seguro proporciona a mi maravilloso hijo con necesidades especiales recursos inmensamente beneficiosos. Este programa resalta para mí la buena voluntad y las oportunidades que pueden surgir al vivir en Colorado a pesar de los obstáculos que he tenido que superar. Gracias por crear un programa tan maravilloso y por creer en nuestra contribución como inmigrantes a este país. Mi familia y yo estamos agradecidos”.

- **Alianza NORCO**, una organización sin fines de lucro formada principalmente por inmigrantes de nuestra comunidad del norte de Colorado

“Uno de nuestros pacientes actualmente tiene cáncer y OmniSalud lo ayudó el año anterior, 2023. Dijo que recibió tratamiento y mucha ayuda gracias a Omni el año pasado. Ahora Pt ha perdido la cobertura; tuvo cita [de inscripción] el 3 de noviembre. No pude inscribirme debido a que las plazas se llenaron en un día. Pt dice que no podrá continuar [en 2024] con el nivel de atención preventiva y continua que se brindó bajo Omni”.
