Our commitment to producing racially equitable housing outcomes is paramount to HOST’s overall mission of Denver residents being healthy, housed and

connected. HOST requires all programs it funds to report on the demographic characteristics of households served by the program throughout the duration of the contract in coordination with other required reporting. The contractor will also report on the demographics of staff working on this program throughout the duration of this contract.

Specific information outlining the required data systems to be used and data to be collected are contained within the scope of work of this contract. This information will help HOST monitor demographic trends in who is served. The underlying objective of collecting and disaggregating data and outcomes by race is to understand who is currently served by HOST funded programs. This information will help inform future evaluation on any potential disparate impacts across HOST programs, as well as strategies to help address equity in access to and outcomes from programs where appropriate. Additionally, HOST program and monitoring staff will be reviewing data, and will discuss your program’s progress or challenges towards racially equitable services and outcomes at site visits and monitoring.
