5. General description or background of proposed request. Attach executive summary if more space needed:

DOTI provides residential recycling, organics, and solid waste collection services to single-family households and multi-family residential buildings with up to seven (7) units. Solid waste and recycling services are provided to approximately 183,000 households. Starting in 2025, DOTI provides weekly trash and compost along with bi-weekly recycling collection.

This contract with Big Truck Rental, LLC to rent sideloading refuse trucks will supplement the City's existing fleet.

Denver residents expect consistent service collections and delays or missed services lead to complaints, reduced public trust and health hazards if not collected. Renting ensures adequate coverage of trucks while other trucks are being worked on that break down or routine maintenance is taking place. The current fleet of in-house vehicles is not sufficient to maintain/deliver the program. Renting these refuse trucks will ensure we meet the seasonal peak and demand of the waste our constituents will be placing out. This will also align with Mayoral and Council goals of delivering compost collections for all residents.

If these trucks are not rented, we will have significant delays of service which doesn't align with our changes of service. The current fleet we have on the road will be overworked and break downs will significantly increase. We want to ensure we are a clean and efficient city, while minimizing operational and financial risks that will directly impact our constituents.
