5. **General description or background of proposed request. Attach executive summary if more space needed:**  
(who, what, why)

This request is for an amendment between G2 Secure Staff and Denver International Airport (DEN) to add support space on A Concourse to their lease. With this amendment, DEN will lease G2 Secure Staff an additional 130.1 sf of space on A Concourse to support the JetBlue Airlines ground operation.

Airline rates and charges are established on "cost recovery" concepts whereby the annual cost of operating DEN forms the basis for the rate, fee, or charge assessed to the airlines. The Airport recalculates airline rates and charges each year based on its operating budget, debt service, amortization and projected aviation activity levels and reconciled at year-end based on actuals "true-up." The airline/airport use and lease agreement specify the types of costs that are used to calculate airline rates and charges. Examples of rates and charges include landing fee (fee for every time a plane lands on the runway), Terminal Complex rental rate (Per square foot rate to lease space in the Terminal (e.g., office, holdroom, ticketing)), concourse ramp, fee to recover the cost of leasing the ramp area associated with a gate, Automatic Guideway Transportation System (Passenger fee to use the train system between the terminal and concourses).

This agreement supports vision 100 by maintaining what we have. JetBlue is an active airline partner at DEN who requires operational support from a service provider. G2 Secure Staff LLC provides such support for JetBlue by providing ground handling services to the stakeholder. With this service, JetBlue can maintain their current operation and it also gives them the flexibility to expand, potentially adding service and routes to their DEN network.
