5. General description or background of proposed request. Attach executive summary if more space needed.

Denver International Airport (DEN) is seeking approval for the purchase of capital equipment of a 2026 Tyler Ice Airfield De-Ice Truck. This unit is needed for snow and ice control operations at Denver International Airport. This unit will replace aging Fleet Asset W-19-025, which has reached the end of its useful life of 24 years. Recommended replacement of this class of vehicle is 15 years. Due to the size of this platform (a 6,000 Gallon Triple Axle Truck), an electric vehicle equivalent is not available. DEN currently has a fleet of eight chemical de-ice trucks and this purchase would replace one of them. DEN recommends that this unit be purchased in 2026 as the manufacturer has an inventory surplus and the unit could be replaced before the 2026 snow season. DEN Budget has confirmed funding is available for the purchase of this unit with a line allocation of $750,000.00.

Item	Quantity
2026 Tyler Ice Truck	1

6. City Attorney assigned to this request (if applicable): N/A

7. City Council District: 11

8. **For all contracts, fill out and submit accompanying Key Contract Terms worksheet*
