

**BY AUTHORITY**

ORDINANCE NO. \_\_\_\_\_  
SERIES OF 2016

COUNCIL BILL NO. CB16-XXXX  
COMMITTEE OF REFERENCE:  
Safety and Well-being

**A BILL**

**For an ordinance amending Article I and adding a new Article V to Chapter 4 of the Revised Municipal Code of the City and County of Denver regarding energy efficiency in commercial and multifamily buildings.**

**WHEREAS**, the City and County of Denver adopted a goal to reduce its greenhouse gas emissions to 1990 levels by 2020 and to reduce its greenhouse gas emissions to 80 percent below 2005 levels by 2050, to create a more sustainable future for the City and County of Denver; and

**WHEREAS**, the energy used in commercial and multifamily buildings constitutes the largest source of greenhouse gas emissions in the City and County of Denver; and

**WHEREAS**, in order to achieve its greenhouse gas emissions reduction goal, the City and County of Denver has set a target to reduce the energy consumption of commercial and multifamily buildings by 3.8 million MMBTUs by the end of 2020 (the equivalent of ten percent of the energy used in 2012) and 7.6 million MMBTUs by the end of 2030; and

**WHEREAS**, increasing energy efficiency can also have significant benefits for the economy by reducing operating costs for building owners and tenants and increasing the value of buildings.

**NOW, THEREFORE, BE IT ENACTED BY THE COUNCIL OF THE CITY AND COUNTY OF DENVER:**

**Section 1.** Chapter 4, Article I, Section 2, entitled "Definitions," of the Denver Revised Municipal Code shall be amended by adding the language underlined as follows:

**Sec. 4-2. Definitions**

The following definitions shall apply in the interpretation and enforcement of this chapter and all rules and regulations adopted hereunder:

- (1) *Air Contaminant or Air Pollutant.*** Any fume, odor, smoke, particulate matter, vapor, gas or any combination thereof but not including water vapor or steam condensate.
- (2) *Air Contaminant Source.*** Any source whatsoever at, from or by reason of which there is emitted or discharged into the atmosphere any air contaminant.

- 1 (3) ***Air Pollution***: The presence in the outdoor atmosphere of one (1) or more air  
2 contaminants.
- 3 (4) ***Air Quality Review***: A review of facilities to be performed by the department in  
4 accordance with rules and regulations adopted by the board and promulgated by the  
5 manager pursuant to this chapter.
- 6 (5) ***Ambient Air***: The surrounding or outside air.
- 7 (6) ***Atmosphere***: The gaseous envelope that surrounds the earth.
- 8 (7) **Benchmarking**: Measuring a Covered Building's energy performance using the  
9 ENERGY STAR Portfolio Manager tool.
- 10 (8) ***Board***: the Board of Environmental Health of the City.
- 11 (9) ***Clean-Burning Fuels***: Compressed natural gas, liquefied natural gas, liquefied  
12 petroleum gas or hydrogen; multifuels, such as diesel/compressed natural gas  
13 fumigations; fuels containing not less than eighty-five (85) percent ethanol or methanol;  
14 electricity or any other alternative fuel that the board determines to be clean-burning.
- 15 (10) **Covered Building**: Any individual building in the City and County of Denver with a  
16 Gross Floor Area of twenty-five thousand (25,000) square feet or larger except the  
17 following:
- 18 (a) A building that was not occupied and did not have a certificate of occupancy or  
19 temporary certificate of occupancy for all twelve (12) months of the calendar  
20 year for which benchmarking is required;
- 21 (b) A building that was not occupied, due to renovation, for all twelve (12) months of  
22 the calendar year for which benchmarking is required;
- 23 (c) A building for which a demolition permit for the entire building has been issued  
24 and for which demolition work has commenced on or before the date the  
25 benchmarking report is due;
- 26 (d) A building that is presently experiencing qualifying financial distress, as defined  
27 by any of the following: (1) the building is the subject of a qualified tax lien sale  
28 or public auction due to property tax arrearages; (2) the building is controlled by  
29 a court appointed receiver; or (3) the building has been acquired by a deed in  
30 lieu of foreclosure;
- 31 (e) A building that had an average physical occupancy of less than sixty (60)  
32 percent throughout the calendar year for which benchmarking is required;

- 1           (f) A building that is used primarily for industrial or agricultural processes; and  
2           (g) A building for which the Owner can demonstrate that its energy performance is  
3           a confidential business practice that includes trade secrets, privileged, or  
4           confidential commercial information. In order to qualify for this exemption, the  
5           Owner shall specifically identify the information it believes is confidential and  
6           provide a written statement describing the manner in which public disclosure  
7           would cause substantial harm to the Owner's competitive position. Inefficient  
8           energy usage alone will not be considered confidential commercial information.

- 9           **(11) Covered Municipal Building:** A Covered Building that is owned or operated by the  
10           City and County of Denver.
- 11           **(12) *Criteria Pollutants:*** Those pollutants for which national ambient air standards have  
12           been established pursuant to the federal Clean Air Act as amended, i.e., particulate  
13           matter, sulfur oxides, nitrogen dioxide, ozone, carbon monoxide and lead.
- 14           **(13) *Department:*** The Department of Environmental Health for the City.
- 15           **(14) *Device:*** Any machine, equipment, fabrication or contrivance the use of which causes  
16           the release of air contaminants, or that alters, contains, controls, prevents or removes  
17           air pollution from any air contamination source.
- 18           **(15) *Emergency Vehicle:*** Any surface or airborne vehicle used for the official business of  
19           the police and fire departments and any emergency medical vehicle as defined in  
20           Chapter 17 of this Code.
- 21           **(16) *Emission or Emit:*** To discharge, release or to permit or cause the discharge or  
22           release of one (1) or more air contaminants into the atmosphere.
- 23           **(17) *Emission Offset:*** A net reduction in total emissions of a regulated air pollutant so that  
24           emissions of the regulated air pollutant are less than were emitted prior to instituting  
25           the offset. An offset can be accomplished by the installation of air pollution control  
26           devices or by the elimination of or changes in the method or process of manufacture in  
27           existing stationary or mobile sources or in any other way approved by the board.
- 28           **(18) Energy Efficiency Program:** The administrative program implemented by the  
29           Department requiring the benchmarking and reporting of energy consumption in  
30           commercial and multifamily buildings that are twenty-five thousand (25,000) gross  
31           square feet or larger within the City and County of Denver.

- 1 (19) **ENERGY STAR Portfolio Manager**. The online tool created by the U.S.  
2 Environmental Protection Agency used to measure and track a building's energy use,  
3 water consumption, and greenhouse gas emissions.
- 4 (20) **Engine**: Any internal combustion machine, such as found in motor vehicles, aircraft,  
5 locomotives and stationary power units, that utilizes gas or liquid fuel for combustion  
6 energy.
- 7 (21) **Existing Facilities**: Facilities for which application for all applicable permits and  
8 approvals required from the city have been submitted prior to the effective date of this  
9 article.
- 10 (22) **Fireplace**: An opening made in a chimney and surrounded with brick, stone, metal or  
11 like material to hold a fire, and that has no specific method for recirculating heat or  
12 reducing emissions.
- 13 (23) **Fuel**: Any combustible substance or material or any combination of such.
- 14 (24) **Fuel-Burning Equipment**: Any furnace, boiler apparatus, stack or appurtenance  
15 thereto used in the process of burning fuel for the primary purpose of producing heat or  
16 power by indirect heat transfer.
- 17 (25) **Fugitive Particulates**: Particulate matter that cannot be readily captured and routed  
18 through a stack or air pollution control equipment that is entrained in the ambient air  
19 and is caused by human or natural activities or both, including, without limitation,  
20 construction, demolition, earth moving, grading, sandblasting, materials handling,  
21 vehicular traffic on unpaved haul roads, and wind.
- 22 (26) **Fugitive Particulate Control Plan**: The plan submitted for activities that could emit  
23 particulate matter into the atmosphere beyond the lot line of the property on which the  
24 emissions originate.
- 25 (27) **Gas**: An aeroform fluid having neither independent shape nor volume but tending to  
26 expand indefinitely.
- 27 (28) **Gaseous Fuel**: A fuel that exists as a gas at atmospheric temperature and pressure.
- 28 (29) **Gross Floor Area**: The total property square footage, measured between the principal  
29 exterior surfaces of the enclosing fixed walls of a building, as defined in the ENERGY  
30 STAR Portfolio Manager definitions.
- 31 (30) **Hazardous Air Pollutant**: An air pollutant to which no national ambient air quality  
32 standard is applicable and that, in the judgment of the Colorado Air Quality Control

1 Commission, causes or contributes to air pollution that may reasonably be anticipated  
2 to result in an increase in mortality or an increase in serious, irreversible or  
3 incapacitating reversible illness or injury; and any air pollutant listed by the state or  
4 federal government as a hazardous air pollutant.

- 5 **(31) Health Risk Assessment:** An assessment, based on accepted scientific standards  
6 and information from inventories, sampling, modeling and/or estimation techniques, of  
7 the potential human health risk from exposure to specified levels of identified  
8 hazardous air pollutants and criteria pollutants.
- 9 **(32) High-Pollution Day:** That period of time in which the Colorado Department of Public  
10 Health and Environment anticipates levels of carbon monoxide or particulates  
11 exceeding federal ambient air quality standards or when air pollution standards are  
12 exceeded for particulates, carbon monoxide or visibility.
- 13 **(33) Incinerator:** A container, device or other appliance, designed, used or intended to be  
14 used for the disposal or reduction of household, commercial or industrial waste  
15 material or any commercial or industrial material by burning.
- 16 **(34) Manager:** The manager of the Department of Environmental Health of the City.
- 17 **(35) Masonry Heater:** An appliance designed for or capable of burning wood, capable of  
18 and intended for domestic space heating or domestic water heating, and has been  
19 approved by the Colorado Department of Public Health and Environment by meeting  
20 all design criteria, and emissions standards set forth by that agency.
- 21 **(36) New Facilities:** Facilities and temporary facilities not exempted through regulation by  
22 the board that have not applied for all applicable permits prior to the effective date of  
23 this article.
- 24 **(37) Nuisance:** The doing of or the failure to do something that allows or permits air  
25 contaminants to escape into the open air that are or tend to be detrimental to the  
26 health, comfort, safety or welfare of the public or that causes or tends to cause injury or  
27 substantial annoyance or inconvenience to persons exposed thereto or causes or  
28 tends to cause damage to property.
- 29 **(38) Opacity:** The fraction of a beam of light that fails to pass through a plume of smoke or  
30 air contaminants, expressed in percentage.

- 1       **(39) *Open Burning***: Fire or smoldering where any material is burned in the outdoor air or in  
2       an open container, receptacle, pit, vessel, chiminea, or other device designed or used  
3       for outdoor fires.
- 4       **(40) *Owner***: The person or entity having a legal or equitable interest in real property and its  
5       fixtures and appurtenances.
- 6       **(41) *Particulate Matter***: Any material, except water mist or spray, that exists in a finely  
7       divided form as a liquid or solid.
- 8       **(42) *Pellet Stove***: A wood heater that meets the following criteria:
- 9               **(a)** The manufacturer makes no reference to burning cordwood in advertising or  
10              literature;
- 11              **(b)** The unit is safety listed for pellet fuel only;
- 12              **(c)** The unit's operating and other instruction manual states that the use of  
13              cordwood is prohibited by federal law; and
- 14              **(d)** The unit must be manufactured and sold including a hopper and auger  
15              combination as integral parts.
- 16       **(43) *Person***: Any person, firm, association, organization, partnership, business, trust,  
17       corporation, company, contractor, supplier, installer, user or owner and shall include any  
18       municipal corporation, state or federal governmental agency, district or any officer or  
19       employee thereof.
- 20       **(44) *Phase II Wood Stove***: A wood-burning device that has been certified by the United  
21       States Environmental Protection Agency or the Colorado Department of Public Health  
22       and Environment.
- 23       **(45) *Premises***: Any building, structure, land, utility or portion thereof, including all  
24       appurtenances, and shall include yards, lots, courts and properties without buildings.
- 25       **(46) *Process***: Any individual action, operation or treatment involving chemical, industrial or  
26       manufacturing factors and all other methods or forms of manufacturing or processing  
27       that may emit air contaminants.
- 28       **(47) *Reduction***: Any process utilizing heat, including but not limited to burning, rendering,  
29       drying, dehydrating, digesting, evaporating and protein concentrating that decreases the  
30       volume of material being processed.
- 31       **(48) *Regulated Air Pollutant***: A pollutant that is a criteria air pollutant or hazardous air  
32       pollutant.

1       **(49) Smolder:** To burn and produce smoke without flame.

2       **(50) Solid-Fuel-Fired Device:** A device designed for the combustion of solid fuels including  
3       wood-burning devices, fireplaces, solid-fuel-fired stoves and combustion fuel furnaces  
4       that burn solid fuel. Solid-fuel-fired devices do not include natural gas-fired devices,  
5       commercial ovens or stoves used to prepare food for human consumption, public utility  
6       facilities generating steam or electricity, or solid-fuel-fired barbecue devices. The board  
7       may adopt and the manager may promulgate rules and regulations, as authorized in  
8       subsection 4-6(a), to further define solid-fuel-fired devices including exclusions to the  
9       definition for fuels or classes of technology where the board determines that the  
10      excluded fuel or technology is reliably cleaner burning than a Phase II wood stove or  
11      where the board determines that no reasonable alternative to the burning of solid fuel  
12      exists. In no case shall such definitions or exclusions be inconsistent with the  
13      requirements of Chapter 24 of the Denver Revised Municipal Code.

14      **(51) Solid Waste:** Refuse consisting of paper, wood, yard wastes, food wastes, plastic,  
15      leather, rubber and such other combustibles and noncombustible glass, rock, etc., that  
16      may be generated from residential and commercial operations and from industrial sites.

17      **(52) Stationary Source:** Any building, structure, facility, equipment or installation or any  
18      combination thereof belonging to the same facility that emits or may emit any air pollutant  
19      subject to regulation under the federal Clean Air Act, that is located on one (1) or more  
20      contiguous or adjacent properties and that is owned or operated by the same person or  
21      by persons under common control.

22      **(53) Traffic Operations:** Activities necessary to direct traffic, to repair, install or maintain  
23      traffic-control devices, to paint traffic-control lanes or to pave, maintain or repair streets  
24      and sidewalks or to accomplish similar activities.

25  
26      **Section 2.** That a new Article V, entitled “Energy Efficiency in Commercial and Multifamily  
27      Buildings,” of Chapter 4 of the Denver Revised Municipal Code is added to read and be read as  
28      follows:

29      **Sec. 4-51. Purpose.**

30      The purpose of this article is to establish an Energy Efficiency Program that requires Covered  
31      Building Owners to benchmark building energy performance, and makes such energy performance  
32      information publically available in order to raise awareness and drive action.

**Sec. 4-52. Applicability.**

The Energy Efficiency Program shall apply to all commercial and multifamily buildings within the City and County of Denver with a Gross Floor Area of twenty-five thousand (25,000) square feet or larger.

**Sec. 4-53. Benchmarking and Reporting.**

- (1) Each Owner of a Covered Building shall benchmark the building’s energy usage annually using the ENERGY STAR Portfolio Manager tool, and by June 1st each year, shall accurately report energy performance information to the Department for the previous calendar year.
  - (a) Each Owner of a Covered Municipal Building shall begin reporting by June 1, 2017.
  - (b) Each Owner of a Covered Building, other than a Covered Municipal Building, with a Gross Floor Area greater than fifty thousand (50,000) square feet shall begin reporting by June 1, 2017.
  - (c) Each Owner of a Covered Building with a Gross Floor Area between twenty-five thousand (25,000) and fifty thousand (50,000) square feet shall begin reporting by June 1, 2018.
- (2) The energy performance information that must be reported to the Department shall include, at a minimum, a Covered Building’s annual energy use intensity, ENERGY STAR Portfolio Manager score if eligible for a score, greenhouse gas emissions, and any other data fields needed to calculate the ENERGY STAR Portfolio Manager score for auditing and verification purposes. Owners of Covered Buildings shall not be required to report monthly energy bill data.
- (3) Owners of Covered Buildings shall keep records of monthly energy consumption for a minimum of twenty-four (24) months. Such records shall be made available for the Department’s inspection upon request.

**Sec. 4-54. Board to Promulgate Rules.**

The Board shall promulgate rules for the Energy Efficiency Program.

1 **Sec. 4-55. Enforcement.**

2 The Manager, or the Manager's designee, is empowered to enforce the provisions of this article  
3 and any rules and regulations adopted by the Board pursuant to this article.
