NEIGHBORHOOD LIVABILITY & SOCIAL HEALTH PERFORMANCE METRICS

Measure/Explanation	Actual	Target	Results
Affordable Housing Inventory	3,136	3,137	Q4 2015

Affordable housing units house the City's lowest wage earners and are important to the sustainability of our community. Through policy and funding, the City would like to at least maintain and preferably increase the number of units available to consumers requiring this type of housing. Low income housing in Fort Collins is for people who earn 80% or less Area Median Income.

Cumulative Number of Noise Complaints	536	509	Q4 2015
---------------------------------------	-----	-----	---------

This measures the number of noise complaints in a hot-spot area determined by the previous calendar year. The area is defined from Prospect Rd./Taft Hill Rd. northeast to Mulberry St./Shields St.

Fort Collins' HOI compared to western states region HOI	76.00%	66.00%	Q4 2015
---	--------	--------	---------

The Housing Opportunity Index (HOI) is defined as the share of homes sold in an area that would have been affordable to a family earning the local median income. The target is to be in the top third (66% or better) for the Western region of the United States.

Response Time to Graffiti Removal	1.20	2.00	Q4 2015
-----------------------------------	------	------	---------

This indicator measures the amount of time to respond to and abate both reported and unreported graffiti in the City. The goal is to have graffiti properly abated within two business days.

Voluntary Code Compliance	87.00%	90.00%	Q4 2015
---------------------------	--------	--------	---------

This metric tracks the percentage of voluntary compliance with nuisance code violations issued by the City of Fort Collins. Voluntary compliance is defined as violations corrected by the property owner or tenant.
