

Denver Zoning Code Text Amendment #5 NATIONAL WESTERN CENTER REGULATORY PACKAGE TEXT AMENDMENT

LAND USE, TRANSPORTATION AND INFRASTRUCTURE COMMITTEE REDLINE REVIEW DRAFT 7/25/19

This document contains the redlined draft of a proposed text amendment to create four new Campus context zone districts that implement the objectives of the [National Western Center Master Plan](#). The districts created by this text amendment are intended to apply to the near-term phases of the National Western Center campus, which generally includes properties west of the BNSF rail tracks inside the Master Plan area. The City Council, Land Use, Transportation and Infrastructure (LUTI) meeting is scheduled for 07/30/19.

Redline Document Conventions

- Text in red underline is proposed new language to be added to the Denver Zoning Code.
- Text in ~~red strikethrough~~ is proposed deleted language to be removed from the Denver Zoning Code.
- Only pages with changes relevant to this text amendment are included in the review file. You may wish to look at other sections for additional context.
- While efforts are made to ensure document quality, cross-referenced section numbers, figure numbers, page numbers, and amendment numbers may appear incorrect since both new and old text appears in a redlined draft. These will be corrected in the final, “clean” version of the text amendment that is filed for adoption by City Council.
- Additionally, please note that coordination will continue throughout the process to ensure constancy of approach and administration with other ongoing text amendments.

Additional information is available on the [National Western Center Regulatory Package web page](#). Please send any questions or comments to Brad Johnson, Senior City Planner at Brad.Johnson2@denvergov.org

Associated Map Amendment

Please note that the City and County of Denver Department of Community Planning & Development is proposing a legislative rezoning by map amendment concurrent with the text amendment described in this document. More information on the proposed map amendment is available at <https://www.denvergov.org/content/denvergov/en/community-planning-and-development/zoning/proposed-rezonings.html>

Other Denver Zoning Code Text Amendments in Progress or Recently Adopted

ARTICLE 2. USING THE CODE

NATIONAL WESTERN CENTER | ZONING TEXT AMENDMENT #5
LUTI REDLINE REVIEW DRAFT 7/25/2019

2.3.1.3 Design Standards

The Design Standards Division establishes the intent of all applicable design standards, allowed building forms by zone district, building form standards and any exceptions or alternatives. A summary table provides an overview for easy reference. Each building form has a set of illustrations and a table of standards to ensure clarity in interpretation.

2.3.1.4 Uses and Required Minimum Parking

Uses and Parking provides a listing of all allowed uses by zone district. With each use category, the vehicle and bike parking requirements are listed.

SECTION 2.3.2 ARTICLE 8: DOWNTOWN NEIGHBORHOOD CONTEXT

The Downtown Neighborhood Context is organized differently than Articles 3 through 7 due to the unique nature of the downtown zone districts. This Article contains all the zone districts within the city's downtown area and applicable regulations. The Downtown Neighborhood Context has a different zone district naming convention. The first letter is "D" to denote the Downtown Neighborhood Context. The second letters are abbreviations for the specific neighborhood within Downtown. For example: D-AS is Downtown Arapahoe Square. After providing the zoning regulations for each downtown zone district, there are Sections on design standards and the uses and minimum parking requirements.

SECTION 2.3.3 ARTICLE 9: SPECIAL CONTEXTS AND DISTRICTS

Article 9 contains regulations for Special Contexts and Districts. Special Contexts and Districts are those that need to be treated differently due to specialized uses, forms, regulations and/or procedures. Special Contexts and Districts have a different zone district naming convention described within each Division. The first letters indicate the type of context or district with subsequent lettering or numbering when there is variation.

- 2.3.3.1 Industrial Context (I-MX, -A, -B): The Industrial Context establishes zone districts that allow varying intensities and types of industrial forms and uses.
- 2.3.3.2 Campus Context (CMP-H, -H2, -EI, -EI2, -ENT, -NWC, ~~-NWC-C, -NWC-G, -NWC-E, -NWC-R~~): The Campus Context establishes zone districts for larger scale sites offering healthcare, education/institution, entertainment, and the National Western Center.
- 2.3.3.3 Open Space Context (OS-A, -B, -C): The Open Space Context establishes zone districts for various types of park, recreational and open space land.
- 2.3.3.4 Overlay Districts (CO, UO, IO, DO, AIO): Overlay Districts are zone districts that apply in addition to the base zone district. There are Conservation Overlay Districts, Use Overlay Districts, Design Overlay Districts, Incentive Overlay Districts and the Airport Influence Overlay District.
- 2.3.3.5 Denver International Airport District: This district applies to the Denver International Airport.
- 2.3.3.6 O-1 Zone District: O-1 is a zone district that applies to various recreation, institutional, and utilities.
- 2.3.3.7 Planned Unit Development District: The Planned Unit Development District is a unique zone district that provides form, use, parking and other standards tailored to a particular site.
- 2.3.3.8 Master Planned Context: The Master Planned Context is intended for larger scale sites that will develop over a long period of time and in multiple phases. Within the Master Planned Context there is a menu of residential and mixed use zone district.

SECTION 2.3.4 ARTICLES 10 THROUGH 13: GENERAL STANDARDS AND PROCEDURES

Articles 10 through 13 contain regulations that apply throughout the city and are not unique to a Neighborhood Context or Special Context. They are organized together so that common regulations are found in the same place such as use limitations, procedures, definitions and rules of measurement.

NATIONAL WESTERN CENTER | ZONING TEXT AMENDMENT #5
LUTI REDLINE REVIEW DRAFT 7/25/2019

SECTION 9.2.2 DISTRICTS ESTABLISHED

To carry out the provisions of this Code, the following zone districts have been established in the Campus Context and are applied to property as set forth on the Official Map.

CAMPUS CONTEXT	
CMP-H	Campus - Healthcare
CMP-H2	Campus - Healthcare 2
CMP-EI	Campus - Education Institution
CMP-EI2	Campus - Education Institution 2
CMP-ENT	Campus - Entertainment
CMP-NWC	Campus - National Western Center
<u>CMP-NWC-C</u>	<u>Campus - National Western Center - Core</u>
<u>CMP-NWC-G</u>	<u>Campus - National Western Center - General</u>
<u>CMP-NWC-F</u>	<u>Campus - National Western Center - Flex</u>
<u>CMP-NWC-R</u>	<u>Campus - National Western Center - Riverfront</u>

SECTION 9.2.3 CAMPUS HEALTHCARE AND HEALTHCARE 2 (CMP-H, CMP-H2)

9.2.3.1 Intent

These districts are intended to promote and encourage the maintenance and concentration of existing and proposed healthcare facilities and their related uses. Buildings should be designed to orient outward to the surrounding area to encourage public safety.

The CMP-H district is intended to include the principal structures and related facilities of each healthcare institution. The district is established to allow for flexible placement of buildings, and unified treatment of signs, open space, landscaping and other site elements while providing compatible transitions between the campus and adjacent neighborhoods.

The CMP-H2 district is generally adjacent to a single unit, two unit, or row house residential zone district to act as a transition zone by requiring more open space and limiting building height more than in the CMP-H zone. In all other respects, the CMP-H2 is similar to the CMP-H district. Any CMP-H2 District shall be incorporated into the Zone Lot plan for the adjacent CMP-H District.

SECTION 9.2.6 CAMPUS - NATIONAL WESTERN CENTER (CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F, CMP-NWC-R)

9.2.6.1 Intent

The Campus-National Western Center (CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F, CMP-NWC-R) zone districts isare intended to facilitate the creation of a year-round destination that brings together cultural, educational, research, entertainment, food, agricultural, human and animal health, recreational, competition, commerce, industry, history, science, and art activities. The zone districts isare intended to encourage development of a unified campus that includes structures and facilities that accommodate a vibrant and pedestrian-friendly mix of agricultural activities, cultural, research and educational uses, entertainment venues, civic, public and institutional, residential and commercial uses.

A. Campus-National Western Center (CMP-NWC)

This district is specifically intended to implement the land use and development objectives in the National Western Center Master Plan, as amended from time to time. The building form standards for this district are intended to allow the flexible placement of multiple building types within the boundaries of the campus while providing compatible height transitions to adjacent communities. This district also is intended to accommodate the unified treatment of master planned campus elements, internal pedestrian walkways and connections, indoor and outdoor recreational facilities, open plazas and green spaces, signage, and site landscaping while implementing the community and neighborhood integration guiding principles identified in the National Western Center Master Plan, as amended from time to time.

NATIONAL WESTERN CENTER | ZONING TEXT AMENDMENT #5
LUTI REDLINE REVIEW DRAFT 7/25/2019

B. Campus-National Western Center-Core (CMP-NWC-C)

The CMP-NWC-C District is intended to establish the area generally surrounding east-west streets connecting Globeville to Elyria-Swansea Neighborhoods through the National Western Center campus as the key pedestrian-oriented streets. Buildings will house a variety of indoor uses. Development will contribute to an engaging pedestrian experience by creating safe, comfortable and visually interesting neighborhood connections through the heart of campus. This area will provide critical pedestrian access points to site interiors. Anchor buildings will house more permanent uses as compared to other districts where activities change significantly from event to event.

C. Campus-National Western Center-General (CMP-NWC-G)

The CMP-NWC-G District is intended to accommodate a wide range of facilities that support the activities of the National Western Stock Show and other events throughout the year in highly flexible, large floorplate buildings. A wide range of outdoor and service activities will be accommodated by flexible plaza spaces and loading areas, including some spaces where access may be restricted during events. Development will contribute to a safe, comfortable and visually interesting experience along adjacent public streets, and particularly those streets that provide critical connections across the campus and to nearby neighborhoods.

D. Campus-National Western Center-Flex (CMP-NWC-F)

The CMP-NWC-F District is intended to accommodate the widest variety of uses on campus, including short- and long-term outdoor and indoor events, service- and maintenance-oriented activities, and complementary enclosed uses. This district will be home to the Stockyards, which will accommodate livestock pens during the National Western Stock Show and provide flexible space for small and large-scale outdoor events and/or surface parking during other times. This zone district will be home to “back-of-the-house” activities that are required for the campus to operate successfully. Complementary enclosed campus uses may include artist studios, professional offices, utility buildings or light industrial facilities. Streets flanking properties in this district will meet their service requirements while establishing comfortable and safe pedestrian routes. Given the functional requirements of roadways in this zone district, additional flexibility for the design of sites and buildings adjacent to the street is appropriate.

E. Campus-National Western Center-Riverfront (CMP-NWC-R)

The CMP-NWC-R District is intended to accommodate passive open space, activity nodes, pedestrian circulation, natural riparian habitat and formal green and plaza spaces. It will accommodate small format, low scale buildings intended to activate the area and support outdoor functions. The Riverfront zone district will facilitate safe and direct access to the South Platte River and serve as an amenity for users of the National Western Center and the surrounding neighborhoods. Buildings in this district will be visually subordinate to the open space amenity and establish a strong visual and physical relationship to National Western Drive and the South Platte River.

- i. The Zoning Administrator shall determine and impose limitations on accessory structures not otherwise listed as allowed in an applicable Use Table in Articles 3 through 9, or not otherwise covered by the standards in this Section 9.2.6.7.
 - ii. All such determinations shall be reviewed according to the procedures and review criteria stated in Section 12.4.6, Code Interpretations and Determination of Unlisted Uses. In addition to the criteria stated in Section 12.4.6, the Zoning Administrator shall determine whether a proposed accessory structure is common and customary to the primary structure on the zone lot or to a specific primary use, and if the structure is incidental to the primary structure(s) on the zone lot or to a specific primary use.
 - iii. The Zoning Administrator may impose limitations on the proposed accessory structure, which shall be uniform throughout the zone district, and taking into consideration the size of the accessory structure, the total number of structures on the zone lot, and the effect on adjacent property.
 - iv. Matters that may be regulated according to this Section shall include, but shall not be limited to, the size, area and number of accessory structures, except as specifically permitted or excluded by Articles 3 through 9, or by this Section 9.2.6.7.

LUTI REDLINE REVIEW DRAFT 7/25/2019

SECTION 9.2.8 USES AND REQUIRED MINIMUM PARKING

9.2.8.1 Applicability

- A. This Section 9.2.8 sets forth the land uses permitted, the required zoning procedures and the required minimum parking for all the Campus Context zone districts.
- B. Uses not listed are prohibited, unless the Zoning Administrator specifically permits the unlisted use according to Section 12.4.6, Code Interpretations and Determination of Unlisted Uses.
- C. For number of primary and accessory uses allowed per Zone Lot, see Section 1.2.3.5, Number of Structures and Uses Allowed per Zone Lot.

9.2.8.2 Organization

A. Organized by Primary, Accessory and Temporary Uses

The Use and Parking Table first presents all primary uses, then all accessory uses, and finally all temporary uses. Primary uses are arranged hierarchically within the table by use classification, category of primary uses, and then by specific use type. Accessory uses are organized by whether such use is accessory to a primary residential use or to a primary nonresidential use. Temporary uses are presented alphabetically ordered in the last division of the table.

B. Primary Use Classifications, Categories & Specific Use Types

1. Primary Use Classifications

All primary land uses in the Use and Parking Table are organized into one of the following five general land use classifications:

- a. Residential Uses
- b. Civic, Public & Institutional Uses
- c. Commercial Sales, Service & Repair Uses
- d. Industrial, Manufacturing & Wholesale Uses
- e. Agriculture

2. Primary Use Categories & Specific Use Types

Primary uses are further organized into use categories and specific use types listed under each general primary land use classification. The Use and Parking Table is organized into the above five general land use classifications, use categories and specific use types.

3. Classifications & Categories Are Mutually Exclusive

The general land use classifications and use categories listed in the Use and Parking Table are intended to be mutually exclusive; that is, a use classified into one use category, such as “lodging accommodations,” cannot be classified in a different use category, such as “group living,” unless otherwise expressly allowed by this Code.

9.2.8.3 Explanation of Table Abbreviations

A. General Explanation of Table Cell Entries

In each of the table cells, the entry will indicate first whether use limitations apply to the specific use, and then separated by a hyphen, the type of zoning review required prior to establishment of the use under this Code. For example, as described in more detail below, a cell entry “L-ZPIN” means, first, the use is subject to use limitations (the “L”), and, second, that the use is subject to zoning permit review with information notice (the “ZPIN”) prior to its establishment.

B. Permitted, Limited, Not Permitted

1. Permitted Use - No Use Limitations Apply (“P”)

A “P” in a table cell indicates that the use is permitted in the respective zone district, and is not subject to use limitations.

NATIONAL WESTERN CENTER | ZONING TEXT AMENDMENT #5
LUTI REDLINE REVIEW DRAFT 7/25/2019

2. Permitted Use - Subject to Use Limitations (“L”)

“L” in a table cell indicates the use is permitted in the zone district subject to compliance with the use limitations referenced in the last column of the use table (“Applicable Use Limitations”).

3. Uses Not Permitted (“NP”)

“NP” in a table cell indicates that the use is not permitted in the specific zone district.

C. Zoning Procedure

1. Use Subject to Zoning Permit Review (“ZP”)

“ZP” in a table cell indicates that the use is permitted in the respective zone district only if reviewed and approved according to the requirements in Section 12.4.1, Zoning Permit Review.

2. Use Subject to Zoning Permit Review with Informational Notice (“ZPIN”)

“ZPIN” in a table cell indicates that the use is permitted in the respective zone district only if reviewed and approved according to the public notice and procedural requirements in Section 12.4.2, Zoning Permit Review with Informational Notice. Such uses shall comply with any applicable use limitations noted in the last column of the use table (“Applicable Use Limitations”), as well as the review criteria stated in Section 12.4.2, Zoning Permit Review with Informational Notice.

3. Use Subject to Zoning Permit with Special Exception Review (“ZPSE”)

“ZPSE” in a table cell indicates that use is generally appropriate in the neighborhood context and zone district, yet may have the potential for limited impacts on adjacent properties or on the established character of the neighborhood context or zone district. “ZPSE” uses are subject to a Board of Adjustments public hearing according to Section 12.4.9, Zoning Permit with Special Exception Review, which grants the Board of Adjustment the authority to impose conditions on the specified use to mitigate any potential impacts. Such uses shall comply with any applicable use limitations noted in the last column of the use table (“Applicable Use Limitations”), as well as the review criteria stated in Section 12.4.9, Zoning Permit with Special Exception Review.

4. Uses Where More Than One Zoning Procedure Is Indicated

Where a table cell shows more than one zoning procedure applies to a use, for example “L-ZP/ZPIN”, the referenced use limitation (last table column) will indicate which zoning procedure applies in a specific case. For example, a table cell may indicate “L-ZPIN/ZPSE” for a use. This means that the ZPIN zoning procedure will apply, unless the applicable use limitation specifies the ZPSE zoning procedure is triggered (e.g., by proximity to a Protected District).

9.2.8.4 Enclosure of Uses

All primary, accessory and temporary uses must be established, operated and maintained within a completely enclosed structure, unless otherwise specifically allowed by this Code. The Use and Parking Tables in Articles 3-9 indicate when a use may be established, operated or maintained outside a completely enclosed structure by including an asterisk “*” next to the specific use type. For example, the asterisk following the “Telecommunication Tower*” use type in the tables indicates that a telecommunication tower land use need not be enclosed.

LUTI REDLINE REVIEW DRAFT 7/25/2019

B. Parking Space and Module Standards

Off-street parking spaces shall be laid out in accordance with the standards shown in Table A and Figure 10.4-4, with the following additions and exceptions:

1. Parking Angle

- a. Parking angles greater than 0 degrees and less than 30 degrees are not allowed.
- b. Other angles between 30 and 90 degrees are allowed and the dimensions for those angles shall be determined through interpolation.
- c. Parking angles for spaces within individual garage units shall be determined by the angle of the entry to the garage structure.

2. Parking Aisle

- a. A minimum of 5 feet of back out space shall be provided at ends of parking rows unless the aisle is 30 feet or more in width.
- b. If a public alley is allowed to be used as the aisle or access to adjoining parking spaces or garages, the spaces or projection must be lengthened as necessary to provide a total alley or aisle width of 20 feet for 30-degree through 75-degree angle parking and 23 feet for 90-degree angle parking. This requirement shall apply to all new uses and developments except single-unit and two-unit dwellings.

3. Garage Door Setbacks

- b. When provided in a parking garage, compact spaces may be used only where the layout of the structure requires such spaces at the end of a row or to accommodate a column.
- c. All compact parking spaces shall be clearly and visibly striped and labeled (e.g., by a sign) for compact car use only.

5. Measurements

- a. In a parking structure, stall dimensions shall be measured from the surface of an adjacent pillar, post, or column closest to the parking stall.

NATIONAL WESTERN CENTER | ZONING TEXT AMENDMENT #5
LUTI REDLINE REVIEW DRAFT 7/25/2019

2. Allow for the limited sharing of otherwise unused or under-utilized accessory parking spaces to satisfy parking demand in areas near the subject Off-Street Parking Area where the supply of on-street or off-street parking may be insufficient to meet such demand.

B. Applicability

This Section 10.4.7.3 allowance shall apply only under the following conditions:

1. Shall be applied only to the use of existing Accessory Parking spaces, where the subject zone lot contains both a Primary Use and Accessory Parking serving that Primary Use.
2. Shall not apply to a zone lot containing a primary Surface Parking land use, regardless of the legal status of such Surface Parking use, and the BOA shall not have the authority to issue a variance to allow application of this Section 10.4.7.3 to such zone lots.
3. This allowance shall not be used to meet the minimum parking requirements of any primary use. (For that scenario, see Section 10.4.5.4, Shared Vehicle Parking, or Section 10.4.4.5.B, Off-Site Vehicle Parking.)

C. Flexible Use of Accessory Parking Spaces Allowed with Zoning Permit

1. At any time when Accessory Parking spaces are not needed to meet the parking demand of the subject Primary Use (e.g., when the Primary Use is closed for business), the property owner may make available any unused or under-utilized Accessory Parking spaces to serve the parking needs of one or more Primary Uses not located on the same zone lot.
2. At all times, regardless of the option for flexible use allowed under this Section 10.4.7.3, the property owner shall maintain adequate Accessory Parking during all operating hours to serve the Primary Use(s) for which the Accessory Parking spaces are provided.
3. Such unused or under-utilized Accessory Parking spaces may be made available for a fee, at the property owner's option.
4. Such unused or under-utilized Accessory Parking spaces may be made available to serve a Primary Use located on a different zone lot whose parking is otherwise capped by a maximum parking standard.
5. A Zoning Permit is required according to Section 12.4.1, Zoning Permit Review.

SECTION 10.4.8 LOADING

10.4.8.1 Intent

NATIONAL WESTERN CENTER | ZONING TEXT AMENDMENT #5
LUTI REDLINE REVIEW DRAFT 7/25/2019

- b. Waive part or all of such requirements altogether, provided that the standards are implemented to the fullest extent possible, given the physical limitations.

3. Exception for Excessive Improvement Costs

If the landscaping requirements of this Section are applicable because of either an addition to the gross floor area of an existing building or the change of use of an existing building, the Zoning Administrator may:

- a. Waive certain of landscape requirements on the basis that the cost of meeting such requirements exceeds 50 percent of the cost of either constructing the building addition or changing the use.
- b. This waiver may be granted only if the applicant provides the Zoning Administrator with an itemization of the landscape improvements and costs necessary to meet the requirements, together with an estimate prepared by a licensed contractor or other qualified professional, of the construction cost of the building addition or the construction and other tenant improvement costs related to the change of use.

4. Exception for Preservation of Existing Trees

- a. Preservation of existing trees may count toward landscape requirements of the Code.
- b. If, in order to comply with both (1) these standards for the landscaping of Off-Street Parking Areas, and (2) the off-street parking requirements, it would be necessary to remove mature, existing trees, the Zoning Administrator may allow reasonable reductions in either (1) the size of required landscaped areas (for the purpose of accommodating the required parking), or 2) the number of required parking spaces.

2. The District Sign Plan shall prohibit internally illuminated, translucent face box signs.

M. Projecting Signs

Projecting signs must clear sidewalks by at least 8 feet in height and may project no more than 10 feet out from a building wall. All such projecting signs over public rights-of-way are subject to approval by the Department of Public Works.

N. Accessory Uses

Signs for accessory uses are allowed to the extent stated in the District Sign Plan.

O. Prohibition

As a matter of public necessity, the City must protect children and non-consenting adults in and on its public streets, sidewalks, transportation facilities and other public rights-of-way from viewing public displays of offensive sexual material. When such displays are thrust indiscriminately upon unwilling audiences of adults and children, such displays constitute assaults upon individual privacy. Therefore, signs (including signs incorporated into a Special Lighting Element) subject to the District Plan shall not be displayed or exhibited in a manner that exposes to public view from any public streets, sidewalks, transportation facilities, and other public rights-of-way any:

3. Pictorial material depicting a person's genitals, pubic hair, perineum, anus, or anal region or
4. Pictorial material depicting explicit sexual acts.

P. Varying Regulations by Subareas within the District Sign Plan

1. The District Sign Plan shall contain geographically defined areas within the District Sign Plan that have different regulations from those applicable to other geographic areas within the District Sign Plan.
2. The District Sign Plan shall identify a methodology to identify and characterize subareas within the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts distinguished from one another based on factors including but not limited to:
 - a. The intensity and mix of land uses existing or planned to occur within such subareas;
 - b. The density of the built environment existing or planned within such subareas, and
 - c. The subarea's location within, or in proximity to, (1) existing or planned major gateways or entrances to the campus, or (2) other existing or planned publicly-accessible spaces, major arterials, or major entrances to the campus, such that allowances for signage and Special Lighting Elements are greater and/or more flexible for subareas located closest to existing or planned gateways, major entrances, publicly-accessible spaces, or major arterials.
3. Based on the methodology described above, the District Sign Plan shall assign differing standards to each such subarea, as appropriate, which will result in signage and Special Lighting Elements within each subarea consistent with the differences in character of each subarea. Differing standards may include, but are not limited to, appropriate scale, permitted sign types, maximum sign areas, appropriate locations, and appropriate illumination levels or animation.

10.10.8.5 Process to Establish or Amend a District Sign Plan

A. Definition

For the purposes of this Section 10.10.8, the term "District Sign Plan" means the plan approved in accordance with this Section 10.10.8.5, as such plan may be amended from time to time in accordance with provisions of this Section 10.10.8.

B. Intent of District Sign Plan Approach

1. The CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts are envisioned to showcase a unified, cohesive and integrated program of signage. The District Sign Plan is the mechanism that efficiently reconciles the vision for the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts with the reality that properties in these districts will be built over a long period of time during which technology and best practices will evolve.
2. The CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts will be developed and constructed in multiple phases over time. It is impractical to require detailed plans for signage and Special Lighting Elements to be provided for the entirety of the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts at the very outset of its development. Such a requirement would thwart the design intent for the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts.

Amendment: 5

NATIONAL WESTERN CENTER | ZONING TEXT AMENDMENT #5
LUTI REDLINE REVIEW DRAFT 7/25/2019

3. These provisions shall apply to the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts and signs may be erected, altered and maintained for a use by-right in these zone districts and may be used for outdoor general advertising devices, including, but not limited to, City of Denver services and events.

C. Initiation

Any of the following persons may initiate a request to establish a District Sign Plan.

1. A member of the City Council
2. A member of the Planning Board
3. The City Attorney
4. The Manager
5. The Manager or Director of any other City department or agency; or
6. One or more owners of real property located within the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F or CMP-NWC-R zone districts.

D. Review

Community Planning and Development will review information received in the applicant's submittal and forward a recommendation to the Planning Board within 45 days after the submittal of a complete application for the District Sign Plan or amendment to the District Sign Plan (other than amendments effected through Section 10.10.8.11 and 10.10.8.12) unless the applicant agrees in writing to an extension of time.

 - a. Neighborhood organizations registered according to the provisions of D.R.M.C. Section 12-94 and whose boundaries include property within, or within 200 feet of the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts
 - b. Each City Council member representing a district within the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts or within 200 feet of CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts, and
 - c. The at-large City Council members.
2. No later than 10 days after receipt of a determination of a complete application from Community Planning and Development, the applicant shall send informational notice of the proposed District Sign Plan or a proposed amendment to the District Sign Plan (other than amendments effected through Section 10.10.8.10 or 10.10.8.11) to each property owner within the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts according to the address stated in records of the Denver Assessor's Office as of the date the applicant checked such records, which date shall not be earlier than the date the applicant submitted its application to Community Planning and Development, and not later than 10 days after the applicant's receipt of a determination that the application is complete from Community Planning and Development. However, for property included within any condominium or cooperative, as such terms are defined in C.R.S. Section 38-33.3- 103, the applicant shall only be required to send notice to the owners association for such condominium or cooperative and not to each property owner.

1. No later than 15 days before the required Planning Board public meeting, the Manager shall notify the city council members in whose district the subject property is located and the at-large city council members. Section 12-94.

3. Notification shall include the location and general description of the proposed action and the process to be followed, including the date, time and place of the scheduled public meeting.
4. Minor defects in a notice shall not impair the notice or invalidate proceedings under the notice if a bona fide attempt has been made to comply with applicable notice requirements. Where written notice was properly mailed, failure of a party to receive written notice shall not invalidate any subsequent action. In all cases, however, the requirements for the timing of the notice and for specifying the time, date, and place of a meeting and the location of the subject property shall be strictly construed. If questions arise at the meeting regarding the adequacy of notice, the Planning Board shall make a finding regarding whether there was substantial compliance with the notice requirements of this Code before deciding whether to approve, approve with conditions, or deny the application.

10.10.8.7 Regulatory Construct

The District Sign Plan shall establish standards applicable to a wide range of allowed signs and Special Lighting Elements within the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts. As a general matter, the District Sign Plan may contain two levels of specificity with respect to signs and Special Lighting Elements.

A. Detailed Level

Once the District Sign Plan is approved in accordance with Section 10.10.8.5, applicants for signs and Special Lighting Elements that are included in the more detailed of such two levels, and that elect to have the provisions of this Section 10.10.8 apply to signs and Special Lighting Elements, will be allowed to request zoning and building permits for such signs and Special Lighting Elements (if such permits are required) without the need for obtaining additional approval of a Supplemental Plan, consistent with the District Sign Plan.

B. General Level

Once the District Sign Plan is approved in accordance with Section 10.10.8.5, applicants for signs or Special Lighting Elements that are included in the more general of such two levels, will not be permitted to apply for zoning or building permits until a Supplemental Plan for such signs and Special Lighting Elements providing the higher level of specificity is approved in accordance with Section 10.10.8.11.

- A.** The District Sign Plan complies with all applicable standards contained in this Code.
- B.** The cumulative effect of the District Sign Plan's allowances for signs and Special Lighting Elements:
 - 1.** Encourages exciting, iconographic, and inventive signage and Special Lighting Elements that distinguish the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts from other places in Denver.
 - 2.** Promotes signs and Special Lighting Elements that are consistent with the existing or planned character of a specific subarea.
 - 3.** Establishes a coordinated program of signage.
 - 4.** Fosters civic pride in the beauty of the city, enhances the aesthetic values of the city, helps to establish Denver as an international destination, promotes good urban design and contributes to achieving the National Western Center Master Plan's vision for a unique entertainment destination.
- C.** The District Sign Plan avoids material adverse impacts of signs and Special Lighting Elements to the fullest extent possible, or, as necessary, contains mitigation measures necessary to mitigate such impacts on nearby uses, structures, and significant public areas outside the CMP-NWC, CMP-NWC-C, CMP-NWC-G, CMP-NWC-F and CMP-NWC-R zone districts.

A. Allowed

Minor deviations from the District Sign Plan for individual signs or individual Special Lighting Elements may be allowed by Community Planning and Development if:

NATIONAL WESTERN CENTER | ZONING TEXT AMENDMENT #5
LUTI REDLINE REVIEW DRAFT 7/25/2019

A. Intent

Improve the pedestrian experience in important mixed-use districts through Street Level active uses. While Automobile Services uses provide a desirable neighborhood service, such uses do not invite the high-intensity customer, visitor, and resident interactions throughout the day and night that substantially contribute to the activation, economic vitality, and safety of vibrant mixed-use neighborhoods. Street Level area set aside in buildings for non-Automobile Services uses according to this limitation is intended to be adequately configured and dimensioned to support the feasible use of such space for Street Level active uses

B. Limitations

1. Permitted Automobile Services uses are limited to routine maintenance and minor repair of automobiles, which may include greasing, tire repair, wheel alignment, brake repair, muffler replacement, engine tune-up, flushing of radiators, servicing of air conditioners, and other similar minor repair and servicing activities.
2. All Automobile Services uses shall be operated in a completely enclosed structure with no outdoor displays, sales, or storage.

See also C-CCN zone district use limitations related to Street Level Household Living uses in Section 11.2.5, C-CCN zone district supplemental design standards in Section 7.3.5.1 related to permitted Street Level active uses in structures or buildings containing parking spaces, Street Level active use requirements for the D-AS-12+ and D-AS-20+ zone districts in Section 8.8.5.1, and Street Level active use and Street Level active non-residential use requirements for the D-CPV-T, D-CPV-R, and D-CPV-C zone districts in Sections 8.9.5.1 and 8.9.5.2.

3. Accessory fuel sales, including the sale of compressed natural gas or liquefied petroleum, are prohibited, except accessory electric charging of vehicles shall be permitted.
4. Accessory trailer rental is prohibited.
5. Washing, cleaning, and/or waxing of automobiles by hand or with manually or automatically operated equipment is permitted only as accessory to the primary Automobile Services use, and shall be located in the same building as the primary Automobile Services use.
6. In the C-CCN zone districts, when located in a building that abuts one or more named or numbered public streets, Automobile Services uses may be located:
 - a. On any story above or below the Street Level, and/or
 - b. On the Street Level, but only if 100% of the building's street frontage(s) is occupied by one or more primary uses other than the Automobile Services use. Internal pedestrian-only access to the Automobile Services use from the primary street side(s) of the building is permitted (e.g., a pedestrian lobby or waiting area), and such area may be credited toward compliance with the 100% Street Level use frontage requirement.

Attachment 3: Stakeholder Letters

July 1, 2019

Members of Planning Board and City Council,

The National Western Center is excited to take the next step towards implementing the place planned by global visionaries, civic leaders and community members. Pursuant to the Framework Agreement, as the city's long-term tenant, the National Western Center is bound by a vision and mission. The vision is to be the global destination for agricultural heritage and innovation, and the mission is to convene the world at the National Western Center to lead, inspire, create, educate, and entertain in pursuit of global food solutions. The doors for the first phases will open by 2024.

The National Western Center team collaborated with Community Planning and Development, the Mayor's Office of the National Western Center, Colorado State University, the Western Stock Show Association, and the National Western Center - Citizens Advisory Committee to craft new zoning text, and map it appropriately across the first phases of the site. This is not a typical urban development or a typical campus. There is nothing typical about the National Western Center. Writing zoning for something that has never been done before required extensive collaboration. City staff, Brad Johnson in particular, should be commended for a job well done.

The strictest, pedestrian-oriented form standards in the Core district aptly align with the most active year-round people-places. The placement of the General and Flex districts allows the necessary flexibility for multi-year construction phasing, for hosting the National Western Stock Show every January, for deploying state-of-the-art renewable energy solutions, and for delivering the place we collectively expect to experience. The River district prioritizes open space for respite, while allowing complementary activation and engagement.

The National Western Center supports the approval of the text and map amendment.

Sincerely,

Brad Buchanan

Dear Brad,

Colorado State University, as a founding partner of the National Western Center redevelopment, supports the draft National Western Center Zoning Amendment currently being considered. Our team has thoroughly reviewed all documents that culminated in the zoning district reimagining, and believe it will result in an exciting, active and engaging part of the City and County of Denver.

CSU believes that the zoning as drafted will allow the University to construct world-class facilities focused on addressing global challenges in food, water, energy, health and the environment and that will contribute to the vibrancy of the National Western Center.

Please feel free to reach out with any questions.

Sincerely,
