Legal Description: L 3 & 4 EXC REAR 8FT TO CITY BLK 4 SLOAN LAKE PARK

Address: 2530 N Xavier St. Denver, CO 80212

Consistency with Adopted Plans:

The proposed zoning amendment of 2530 N Xavier St. is consistent with the *Comprehensive Plan 2040*.

Equitable, Affordable and Inclusive Goal 2, Strategy A.: “Create a greater mix of housing options in every neighborhood for all individuals and families” (p. 28).

This proposed ADU would provide a greater mix of housing options in the Sloan’s Lake neighborhood for all individuals and families, including my own.

Strong and Authentic Neighborhoods Goal 1, Strategy B.: “Ensure neighborhoods offer a mix of housing types and services for a diverse population” (p. 34). The population of Denver is growing, and the population is changing with more multigenerational families living together. An ADU helps foster this type of arrangement with greater ease, accessibility, and convenience.

The proposed zoning amendment of 2530 N Xavier St. is consistent with the *Blueprint Denver 2019*.

Future Neighborhood Context

Urban

Small multi-unit residential and mixed-use areas are typically embedded in 1-unit and 2-unit residential areas. Block patterns are generally regular with a mix of alley access. Buildings are lower scale and closer to the street. The proposed ADU certainly keeps in line with this.

Future Places Designation Low Residential

Predominately single- and two-unit uses on smaller lots. Accessory dwelling units and duplexes are appropriate and can be thoughtfully integrated where compatible. The proposed ADU is compatible with the Sloan’s Lake neighborhood and would be tastefully and thoughtfully integrated. Additionally, the proposed district would maintain the single family character, as the ADU would obviously be detached and behind the single family property.

The proposed zoning amendment of 2530 N Xavier St. is consistent with *Land Use & Built Form, Housing Policy 4*.

Diversify housing choice through the expansion of accessory dwelling units throughout all residential areas.

Strategy, E. A citywide approach to enable ADUs is preferred. Until a holistic approach is in place, individual rezonings to enable ADUs in all residential areas, especially where proximate to transit, are appropriate. Unless there is a neighborhood plan supporting ADUs, rezonings should be small in area in order to minimize impacts to the surrounding residential area (p. 84). The proposed ADU would be located in residential area near streets such as 26th Ave., 29th St., and Sheridan Boulevard. Given my lot size, the ADU would be a maximum of 864 sq. ft.

The proposed zoning amendment of 2530 N Xavier St. is consistent with *Housing an Inclusive Denver*.

Legislative and Regulatory Priorities

Recommendation 2: Expand and strengthen land use regulations for affordable and mixed-income housing.

– Through Blueprint Denver and supplemental implementation actions such as zoning modifications, the City should support land-use regulations that incentivize affordable and mixed-use housing, including expanding the development of accessory dwelling units (p. 9). The proposed ADU would do exactly that.

Uniformity of District Regulations and Restrictions:

The proposed official map amendment results in regulations and restrictions that are uniform for each kind of building throughout each district having the same classification and bearing the same symbol or designation on the official map, but the regulations in one district may differ from those in other districts.

The proposed amendment of my current zoning of U-SU-C to U-SU-C1 is only a minor zoning adjustment. My lot size of 6,370 sq. ft. or .15 acres exceeds the minimum requirement for an ADU. The ADU would in all likelihood simply be an extension of the detached garage as a second story, and therefore would not be taking up any more surface area of the lot and would not necessarily necessitate any additional drainage or runoff requirements that would already be required from the garage. The overall height of the ADU would be less than that of the house, therefore making it non visible from the front street view. The addition of this proposed ADU would be in good taste and company with the other ADUs in the Sloan's Lake neighborhood that have been approved and/or are in the process of being reviewed and hopefully approved.

Public Health, Safety and General Welfare:

The proposed official map amendment furthers the public health, safety and general welfare of the city.

The proposed official map amendment furthers the public health, safety and general welfare of the city. The proposed amendment of my current zoning would further the public health, safety and general welfare of the city by providing an additional housing where there was only one unit of housing. The ADU would provide housing could be used for a multitude of different things such as multigenerational housing for families, short or long term rentals, and extended stay for families and friends visiting from out of town. Moreover, it would increase density around one of Denver's largest parks, Sloan's Lake, allowing for more individuals to access and enjoy. Additionally, the surrounding businesses off of 29th St. would certainly welcome the additional customer base that would be facilitated by more people living in the area.

Justifying Circumstances:

Since the date of the approval of the existing zone district, there has been a change to such a degree that the proposed rezoning is in the public interest. Such a change may include:

a) Changed, or changing conditions in a particular area, or in the city generally; or

b) A City adopted plan; or

c) That the City adopted the Denver Zoning Code and the property retained Chapter 59 zoning.

b) A City adopted plan – ***Strategy, E. A citywide approach to enable ADUs is preferred. Until a holistic approach is in place, individual rezonings to enable ADUs in all residential areas, especially where proximate to transit, are appropriate. Unless there is a neighborhood plan supporting ADUs, rezonings should be small in area in order to minimize impacts to the surrounding residential area (p. 84).*** This reflects my justification. The property is close to major streets such as 26th, 29th, and Sheridan. It is close to the retail businesses on 29th and Sheridan. It is less than a block from one of the largest parks in the city.

The proposed official map amendment is consistent with the description of the applicable neighborhood context and with the stated purpose and intent of the proposed Zone District.

The Sloan's Lake neighborhood is an "Urban" neighborhood as defined by Article 5 of the Denver Zoning Code, June 2010. Urban neighborhoods are characterized by single-unit and two unit residential areas. While there are many single family homes in my neighborhood, there are also many multi-unit properties as well. Currently there is a duplex on my block. There is a four-plex directly up Xavier St. near 28th. And there are other ADUs being actively proposed in my neighborhood. As stated previously my home is currently zoned U-SU-C, Single Unit C. The zoning I am seeking is U-SU-C1, Single Unit C1, allowing an urban house and a detached accessory dwelling unit. U-SU-C1 requires a minimum lot size of 5,500 sq. ft., which my lot easily meets (6,370 sq. ft.). My lot also more than meets the 50 ft. wide requirement. Finally, the ADU would be located in the back of the lot, as specified by U-SU-C1.
